**Studies in Eighteenth-century Culture** Timothy Erwin, Julie Candler Hayes, 1998 This volume presents a group of essays that evoke broad contexts and future avenues for work in the field of 18th century studies The contributors take up the question of identity not as a fixed stable property whose boundaries may be confidently mapped but rather as a complex and unpredictable process navigating different discourses and modes of social insertion They address issues that involve national linguistic and cultural affiliations or call into question the relation of gender performance to literary persona ,

*Daniel Defoe and the Representation of Personal Identity* Christopher Borsing, 2016-08-25 The concept of a personal identity was a contentious issue in the early eighteenth century John Locke s philosophical discussion of personal identity in *An Essay Concerning Human Understanding* fostered a public debate upon the status of an immortal Christian soul This book argues that Defoe like many of this age had religious difficulties with Locke s empiricist analysis of human identity In particular it examines how Defoe explores competitive individualism as a social threat while also demonstrating the literary and psychological fiction of any concept of a separated lone identity This foreshadows Michel Foucault s assertion that the idea of man is a recent invention a figure not yet two centuries old a new wrinkle in our knowledge The monograph s engagement with Defoe s destabilization of any definition or image of personal identity across a wide range of genres including satire political propaganda history conduct literature travel narrative spiritual autobiography piracy and history economic and scientific literature rogue biography scandalous and secret history dystopian documentary science fiction and apparition narrative is an important and original contribution to the literary and cultural understanding of the early eighteenth century as it interrogates and challenges modern presumptions of individual identity *A Cultural History of Medical Vitalism in Enlightenment Montpellier* Elizabeth A. Williams, 2017-03-02 One of the key themes of the Enlightenment was the search for universal laws and truths that would help illuminate the workings of the universe It is in such attitudes that we trace the origins of modern science and medicine However not all eighteenth century scientists and physicians believed that such universal laws could be found particularly in relation to the differences between living and inanimate matter From the 1740s physicians working in the University of Medicine of Montpellier began to contest Descartes s dualist concept of the body machine that was being championed by leading Parisian medical mechanists In place of the body machine perspective that sought laws universally valid for all phenomena the vitalists postulated a distinction being living and other matter offering a holistic understanding of the physical moral relation in place of mind body dualism Their medicine was not based on mathematics and the unity of the sciences but on observation of the individual patient and the harmonious activities of the body economy Vitalists believed that Illness was a result of disharmony in this body economy which could only be remedied on an individual level depending on the patient s own natural limitations The limitations were established by a myriad of factors such as sex class age temperament region and race which negated the use of a single

universal treatment for a particular ailment Ultimately Montpellier medicine was eclipsed by that of Paris a development linked to the dynamics of the Enlightenment as a movement bent on cultural centralisation acquiring a reputation as a kind of anti science of the exotic and the mad Given the long standing Paris centrism of French cultural history Montpellier vitalism has never been accorded the attention it deserves by historians This study repairs that neglect Castration, Impotence, and Emasculation in the Long Eighteenth Century Anne Leah Greenfield,2019-11-20 This essay collection examines one of the most fearsome fascinating and hotly discussed topics of the long eighteenth century masculinity compromised During this timespan there was hardly a literary or artistic genre that did not feature unmanning regularly and prominently from harrowing tales of castrations in medical treatises to emasculated husbands in stage comedies to sympathetic and powerful eunuchs in prose fiction to glorious operatic performances by castrati in Italy to humorous depictions in caricature and satirical paintings to fearsome descriptions of Eastern eunuchs in travel narratives to foolish and impotent old men who became a mainstay in drama Not only does this unprecedented study of unmanning in all of its varied forms illustrate the sheer prevalence of a trope that featured prominently across literary and artistic genres but it also demonstrates the ways diminished masculinity reflected some of the most strongly held anxieties interests and values of eighteenth century Britons

*Romanticism, Medicine, and the Poet's Body* James Robert Allard,2016-04-08 That medicine becomes professionalized at the very moment that literature becomes Romantic is an important coincidence and James Allard makes the most of it His book restores the physical body to its proper place in Romantic studies by exploring the status of the human body during the period With meticulous detail he documents the way medical discourse consolidates a body susceptible to medical authority that is then represented in the works of Romantic era poets In doing so he attends not only to the history of medicine s professionalization but significantly to the rhetoric of legitimation that advances the authority of doctors over the bodies of patients and readers alike After surveying trends in Romantic era medicine and analyzing the body s treatment in key texts by Wordsworth and Joanna Baillie Allard moves quickly to his central subject the Poet Physician This hybrid figure discovered in the works of the medically trained John Keats John Thelwall Thomas Lovell Beddoes embodies the struggles occasioned by the discrepancies and affinities between medicine and poetry *The Arms-Bearing Woman and British Theatre in the Age of Revolution, 1789-1815* Sarah Burdett,2023-05-20 This book explores shifting representations and receptions of the arms bearing woman on the British stage during a period in which she comes to stand in Britain as a striking symbol of revolutionary chaos The book makes a case for viewing the British Romantic theatre as an arena in which the significance of the armed woman is constantly remodelled and reappropriated to fulfil diverse ideological functions Used to challenge as well as to enforce established notions of sex and gender difference she is fashioned also as an allegorical tool serving both to condemn and to champion political and social rebellion at home and abroad Magnifying heroines who appear on stage wielding pistols brandishing daggers thrusting swords and even firing explosives the study spotlights the intricate and often

surprising ways in which the stage amazon interacts with Anglo French Anglo Irish Anglo German and Anglo Spanish debates at varying moments across the French revolutionary and Napoleonic campaigns At the same time it foregrounds the extent to which new dramatic genres imported from Europe notably the German Sturm und Drang and the French derived melodrama facilitate possibilities at the turn of the nineteenth century for a refashioned female warrior whose degree of agency destructiveness and heroism surpasses that of her tragic and sentimental predecessors **Jefferson's Political**

**Philosophy and the Metaphysics of Utopia** M. Andrew Holowchak, 2017-02-20 In Jefferson's Political Philosophy and the Metaphysics of Utopia M Andrew Holowchak traces the development of Jeffersonian republicanism as a political philosophy though it is today seldom seen as a political philosophy by examining the documents he wrote e g Declaration First Inaugural Address and significant letters and key literature he read That political philosophy fundamentally progressive and people first was driven by a vision of an empire of liberty a global confederation of republican nations in moral and political partnership and peaceful coexistence and was to take root in North America Jefferson's vision influenced his domestic and foreign policies as president and the numerous letters he wrote after his presidency but never took root there or anywhere Was that due to a defect of vision a view of humans capacities and goodness at odds with reality or were historical forces at play which were antagonistic to the rooting and suckering of Jeffersonian republicanism *Lying in the Dark Room* Emma

Cheatle, 2023-12-01 *Lying in the Dark Room* Architectures of British Maternity returns to and reflects on the spatial and architectural experience of childbirth through both a critical history of maternity spaces and a creative exploration of those we use today Where conventional architectural histories objectify buildings in parallel with the objectification of the maternal body the book in the mode of creative practice research presents a creative critical autotheory of the architecture of lying in It uses feminist subjective modes of thinking that travel across disciplines registers and arguments The book assesses the transformation of maternity spaces from the female bedchamber of seventeenth and eighteenth century marital homes to the lying in hospitals of the eighteenth and nineteenth centuries purposely built by man midwives to the late twentieth century spaces of home and the modern hospital maternity wing and the parallel shifts in maternal practices The spaces are not treated as mute or neutral backdrops to maternal history but as a series of vital entangled atmospheres materials practices and objects that are produced by and in turn produce particular social and political conditions gendered structures and experiences Moving across spaces systems protagonists and their subjectivities the book shows how hospital design and protocol altered ordinary birth at home and continues to shape maternal spatial experience today As such it will be of interest to a wide range of readers from architectural historians theoreticians designers and students to medical humanities historians to English Literature humanities and material studies scholars as well as those interested in creative critical writing **Adam Smith and the Circles of Sympathy** Fonna Forman-Barzilai, 2010-03-25 A broad ranging 2010 study of

Copyright Office, 1977      **Music and Aesthetics in the Eighteenth and Early Nineteenth Centuries** Peter le Huray, James Day, 1988-04-07 This is an abridged paperback edition of Peter le Huray and James Day's invaluable anthology of writings concerned with the role of music in eighteenth and early nineteenth century aesthetics. This volume retains all the most important and significant items from the original hardcover edition. Over fifty writers are represented here including such major figures as Rousseau, Kant, Schlegel, Schopenhauer, and Hegel, and the useful introductions and biographical details of the original are also retained. The aesthetic literature of the period is profuse, but this carefully edited volume offers a balanced selection which illuminates the ways people experienced music and how they came to an understanding in particular of the new music of their day.

**The Furniture of John Shearer, 1790-1820** Elizabeth A. Davison, 2011-01-16 This book is a full color catalogue raisonné that interprets the distinctive furniture made by John Shearer, one of the most accomplished and intriguing furniture makers during the post-Revolutionary period. Shearer emigrated from Scotland in the late 18th century and retained loyalist sympathies throughout his life, evidenced by the imagery and inscriptions sympathetic to various British causes such as the suppression of the Irish rebellion in 1798 and the British victory in the Battle of Trafalgar in 1805 that he worked into his furniture. Davison provides insight into the furniture's appeal to Anglo-American patrons: not secret loyalists but men still culturally tied to Great Britain. Shearer's pieces are scattered among various collections, and many of them have been identified only in the last 25 years. This catalog is the only work in which all of Shearer's known pieces of furniture are presented in a single volume.

Catherine the Great Simon Dixon, 2015-10-23 Neither a comprehensive life and times nor a conventional biography, this is an engaging and accessible exploration of rulership and monarchical authority in eighteenth-century Russia. Its purpose is to see how Catherine II of Russia conceived of her power and how it was represented to her subjects. Simon Dixon asks essential questions about Catherine's life and reign and offers new and stimulating arguments about the Enlightenment, the power of the monarch in early modern Europe, and the much-debated role of the great individual in history.

*Movable Londons* Julia H. Fawcett, 2025-09-04 In September 1666, a fire sparked in a bakery on Pudding Lane grew until it had destroyed four-fifths of central London. The rebuilding efforts that followed not only launched the careers of some of London's most famous architects but also transformed Londoners' relationship to their city by underscoring the ways that people could shape a city's spaces and the ways that a city's spaces could shape its people. *Movable Londons* looks to the Restoration theater to understand how the dispossessed made London into a modern city after the Great Fire of 1666 and how the introduction of changeable scenery in theaters altered how Londoners conceptualized the city. Fawcett makes a claim for the centrality of unplanned spaces and the role of the Restoration theater in articulating those spaces as the modern city emerged and argues that movable scenery revolutionized London's public theaters, inviting

audiences to observe how the performers many of them hailing from the same communities as their characters navigated the stage

The Rich Earth Between Us Shelby Johnson,2024-03-05 In this theory rich study Shelby Johnson analyzes the works of Black and Indigenous writers in the Atlantic World examining how their literary production informs modes of being that confronted violent colonial times Johnson particularly assesses how these authors connected to places whether real or imagined and how those connections enabled them to make worlds in spite of the violence of slavery and settler colonialism Johnson engages with works written in a period engulfed by the extraordinary political and social upheavals of the Age of Revolution and Indian Removal and these texts which include not only sermons life writing and periodicals but also descriptions of embodied and oral knowledge as well as material objects register defiance to land removal and other forms of violence In studying writers of color during this era Johnson probes the histories of their lived environment and of the earth itself its limits its finite resources and its metaphoric mortality in a way that offers new insights on what it means to imagine sustainable connections to the ground on which we walk

*Henry Fielding at Work* L. Bertelsen,2000-10-05 As a writer businessman and magistrate Henry Fielding was in a singular position to textualize eighteenth century English cultural conditions and materially to author the text of his society Not only did he extol employment he co owned an employment agency Not only did he commit fictional criminals to paper he committed actual criminals to prison And he could and did commit actual criminals to prison and paper simultaneously Henry Fielding at Work examines the intersections of Fielding s practice as magistrate businessman and writer and explores the ways Fielding s experience in those capacities affected the conception form and articulation of his final literary works
