Erwin Panofsky, 1962      **Studies in iconology, by erwin panofsky** Erwin Panofsky, 1939      **Studies in Iconology : Humanistic Themes in the Art of the Renaissance** Clarence Edwin Bennett, 1972      Autopsy Panofsky Patrick Wayne Deegan, 2002      **Panofsky and the Foundations of Art History** Michael Ann Holly, 1984 No one has been more influential in the contemporary practice of art history than Erwin Panofsky yet many of his early seminal papers remain virtually unknown to art historians As a result Michael Ann Holly maintains art historians today do not have access to the full range of methodological considerations and possibilities that Panofsky's thought offers and they often remain unaware of the significant role art history played in the development of modern humanistic thought Placing Panofsky's theoretical work first in the context of the major historical paradigms generated by Hegel Burckhardt and Dilthey Holly shows how these paradigms themselves became the grounds for creative controversy among Panofsky's predecessors Riegl Wölfflin Warburg and Dvorkin among others She also discusses how Panofsky's struggle with the terms and concepts of neo-Kantianism produced in his work remarkable parallels with the philosophy of Ernst Cassirer Finally she evaluates Panofsky's better known and later iconological studies by reading them against the earlier essays and by comparing his earlier ideas with the vision that has inspired recent work in the philosophy of history semiotics and the philosophy of science      **Studies in iconology**, 2018      **Art Historiography and Iconologies Between West and East** Wojciech Bałus, Magdalena Kunińska, 2024-03-15 This volume explores a basic question in the historiography of art the extent to which iconology was a homogenous research method in its own immutable right By contributing to the rejection of the universalizing narrative these case studies argue that there were many strands of iconology Methods that differed from the canonised approach of Panofsky were proposed by Godefridus Johannes Hoogewerff and Hans Sedlmayr Researchers affiliated with the Warburg Institute in London also chose to distance themselves from Panofsky's work Poland in turn was the breeding ground for yet another distinct variety of iconology In Communist Czechoslovakia there were attempts to develop a Marxist iconology This book written by recognized experts in the field examines these and other major strands of iconology telling the tale of iconology's reception in the countries formerly behind the Iron Curtain Attitudes there ranged from enthusiastic acceptance in Poland to critical reception in the Soviet Union to reinterpretation in Czechoslovakia and the German Democratic Republic and finally to outright rejection in Romania The book will be of interest to scholars working in art history visual studies and historiography Chapters 8 and 15 of this book are freely available as a downloadable Open Access PDF at [www.taylorfrancis.com](http://www.taylorfrancis.com) under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 international license      **The Cambridge Shakespeare Library: Shakespeare criticism** Catherine M. Pamela A. Patton, Catherine A. Fernandez, 2021-06-24 This volume assesses how current approaches to iconology and iconography break new ground in understanding the signification and reception of medieval images both in their own time and in the modern world Framed by critical essays that apply explicitly historiographical and sociopolitical perspectives to key moments in the evolution of the field the volume's case studies focus on how iconographic meaning is shaped by factors such as medieval modes of dialectical thought the problem of representing time the movement of the viewer in space the fragmentation and injury of both image and subject and the complex strategy of comparing distant cultural paradigms The contributions are linked by a commitment to understanding how medieval images made meaning to highlighting the heuristic value of new perspectives and methods in exploring the work of the image in both the Middle Ages and our own time and to recognizing how subtle entanglements between scholarship and society can provoke mutual and unexpected transformations in both Collectively the essays demonstrate the expansiveness flexibility and dynamism of iconographic studies as a scholarly field that is still heartily engaged in the challenge of its own remaking Along with the volume editors the contributors include Madeline H Caviness Beatrice Kitzinger Aden Kumler Christopher R Lakey Glenn Peers Jennifer Purtle and Elizabeth Sears

A General Theory of Visual Culture Whitney Davis, 2022-06-14 What is cultural about vision or visual about culture In this ambitious book Whitney Davis provides new answers to these difficult and important questions by presenting an original framework for understanding visual culture Grounded in the theoretical traditions of art history A General Theory of Visual Culture argues that in a fully consolidated visual culture artifacts and pictures have been made to be seen in a certain way what Davis calls *visuality* is the visual perspective from which certain culturally constituted aspects of artifacts and pictures are visible to informed viewers In this book Davis provides a systematic analysis of *visuality* and describes how it comes into being as a historical form of vision Expansive in scope A General Theory of Visual Culture draws on art history aesthetics the psychology of perception the philosophy of reference and vision science as well as visual cultural studies in history sociology and anthropology It provides penetrating new definitions of form style and iconography and draws important and sometimes surprising conclusions for example that vision does not always attain to visual culture and that visual culture is not always wholly visible The book uses examples from a variety of cultural traditions from prehistory to the twentieth century to support a theory designed to apply to all human traditions of making artifacts and pictures that is to visual culture as a worldwide phenomenon
