Structure in Milton's Poetry Ralph W. Condee, 1991-02-07 Milton's skill in constructing poems whose structure is determined not by rule or precedent but by the thought to be expressed is one of his chief accomplishments as a creative artist. Professor Condee analyzes seventeen of Milton's poems both early and late, well and badly organized in order to trace the poet's developing ability to create increasingly complex poetic structures. Three aspects of Milton's use of poetic structure are stressed: the relation of the parts to the whole and parts to parts; his ability to unite actual events with the poetic situation; and his use and variation of literary tradition to establish the desired structural unity. International Handbook of Research in Arts Education Liora Bresler, 2007-09-04 Providing a distillation of knowledge in the various disciplines of arts education—dance, drama, music, literature, and poetry, and visual arts—the Handbook synthesizes existing research literature, helps define the past, and contributes to shaping the substantive and methodological future of the respective and integrated disciplines of arts education. While research can at times seem distant from practice, the Handbook aims to maintain connection with the lived practice of art and of education, capturing the vibrancy and best thinking in the field of theory and practice. The Handbook is organized into 13 sections, each centering on a major area or issue in arts education research. These areas include: History of arts education; curriculum; evaluation; cultural centers; appreciation; composition; informal learning; child culture; creativity; the body; spirituality; and technology. The individual chapters address cross-cultural research related to the central theme of the section from the perspectives of the particular arts discipline. Interludes provide reflective thoughts on the theme. **Poetry in Pedagogy** Dean A. F. Gui, Jason S. Polley, 2021-03-30 The essays compiled in *Poetry in Pedagogy: Intersections Across and Between the Disciplines* offer praxes of poetry that cultivate a community around students' language and writing while presenting opportunities to engage with new texts, new textual forms, and new forms of text-mediated learning. The volume considers, combines, and complements multiform poetry within and beyond existing Teaching/Learning paradigms as it traverses Asia, The Atlantic, and Virtual Space. By virtue of its m-lange of intersecting trajectories across and between oceans, genres, disciplines, and sympathies, *Poetry in Pedagogy* informs interdisciplinary educators and practitioners of creative writing poetry involved in examining the multiform through international cross-disciplinary contexts. **The Cambridge Companion to Eighteenth-Century Poetry** John Sitter, 2001-03-26 *The Cambridge Companion to Eighteenth-Century Poetry* analyzes major premises, preoccupations, and practices of English poets writing from 1700 to the 1790s. These specially commissioned essays avoid familiar categories and single-author approaches to look at the century afresh. Chapters consider such large poetic themes as nature, the city, political passions, the relation of death to desire, and dreams; appeals to an imagined future; and the meanings of sensibility. Other

chapters explore historical developments such as the connection between poetic couplets and conversation the conditions of publication changing theories of poetry and imagination growing numbers of women poets and readers the rise of a self consciously national tradition and the place of lyric poetry in thought and practice The essays are well supported by supplementary material including a chronology of the period and detailed guides to further reading Altogether the volume provides an invaluable resource for scholars and students

Conversations with Sterling Plumpp John Zheng, 2016-06-28
 Conversations with Sterling Plumpp is the first collection of interviews with the renowned poet of Home Bass and other much admired works Spanning thirty years and drawn from literary and scholarly journals and other media these interviews offer insights into his poetic innovation of blues and jazz and his mastery of black vernacular in poetry This collection seems fundamental to an understanding of the life and work of an African American poet who has been innovative in fusing blues and jazz rhythms with poetic insight and in vivifying the vernacular landscape of African American poetry Born in 1940 in Clinton Mississippi Plumpp has been living in Chicago since 1962 Home Bass received the 2014 American Book Award The finest blues poet of his generation Plumpp became a model for contemporary poetry and poetics and a leading figure in the tradition of blues jazz poetry He continues to reinvent the language while exploring the registers of individual and communal memory and of local national and global history His poetry is important in attempts to define the black aesthetic from the era of the Harlem Renaissance to the seminal Black Arts Movement It is also important for its re articulation of the Great Migration especially expressed by blues musicians who left Mississippi for Chicago

The Constitution of Shelley's Poetry Edward T. Duffy, 2011-07
 The Constitution of Shelley s Poetry is a close philosophical reading of Prometheus Unbound and other Shelley works from the perspective of the argument or drama of language played out in its pages The book urges and practises close reading but in the thought of Stanley Cavell it finds and develops philosophical grounds for this ostensibly old fashioned approach and it implicitly proposes an understanding of language very different from those currently assumed in literary studies

Introduction to African American Studies Talmadge Anderson,James Benjamin Stewart,2007 There is an ongoing debate as to whether African American Studies is a discipline or multidisciplinary or interdisciplinary field Some scholars assert that African American Studies use a well defined common approach in examining history politics and the family in the same way as scholars in the disciplines of economics sociology and political science Other scholars consider African American Studies multidisciplinary a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses be they anthropological psychological historical etc to study the African world experience In this model the boundaries between traditional disciplines are accepted and researches in African American Studies simply conduct discipline based an analysis of particular topics Finally another group of scholars insists that African American Studies is interdisciplinary an enterprise that generates distinctive analyses by combining perspectives from d **Dictionary of**
