The Literature of the Jewish People in the Period of the Second Temple and the Talmud, Volume 3 The Literature of the Sages Shmuel Safrai, 2014-12-15 The literary creation of the ancient Jewish teachers or Sages also called rabbinic literature consists of the teachings of thousands of Sages many of them anonymous For a long period their teachings existed orally which implied a great deal of flexibility in arrangement and form Only gradually as parts of the amorphous oral tradition became fixed was the literature written down a process that began in the third century CE and continued into the Middle Ages Thus the documents of the rabbinic literature are the result of a remarkably long and complex process of creation and editing This volume gives a careful and succinct analysis both of the content and specific nature of the various documents and of their textual and literary forms paying special attention to the continuing discovery and publication of new textual material The contributors are all engaged in academic teaching and research in Israel Incorporating ground breaking developments in research their essays give a comprehensive presentation published here for the first time Jewish Folklore and Ethnology Newsletter ,1985 *Jewish Cultural Studies* Simon J. Bronner, 2021-05-04 Defines the distinctive field of Jewish cultural studies and its basis in folkloristic psychological and ethnological approaches Jewish Cultural Studies charts the contours and boundaries of Jewish cultural studies and the issues of Jewish culture that make it so intriguing and necessary not only for Jews but also for students of identity ethnicity and diversity generally In addition to framing the distinguishing features of Jewish culture and the ways it has been studied and often misrepresented and maligned Simon J Bronner presents several case studies using ethnography folkloristic interpretation and rhetorical analysis Bronner building on many years of global cultural exploration locates patterns processes frames and themes of events and actions identified as Jewish to discern what makes them appear Jewish and why Jewish Cultural Studies is divided into three parts Part 1 deals with the conceptualization of how Jews in complex heterogeneous societies identify themselves as a cultural group to non Jews and vice versa such as how the Jewish home is socially and materially constructed Part 2 delves into ritualization as a strategic Jewish practice for perpetuating peoplehood and the values that it suggests for example the rising popularity of naming ceremonies for newborn girls simhat bat or zaved habat in the twenty first century Part 3 explores narration including the global transformation of Jewish joking in online settings and the role of Jews in American political culture Bronner reflects that a reason to separate Jewish cultural studies from the fields of Jewish studies and cultural studies is the distinctiveness of Jewish culture among other ethnic experiences As a diasporic group with religious ties and varying local customs Jews present difficulties of categorization He encourages a multiperspectival approach that considers the Jewish double consciousness as being aware of both insider and outsider perspectives participation in ancient tradition and recent modernization and the great variety and stigmatization of Jewish experience and cultural expression Students and scholars in Jewish studies cultural studies ethnic religious studies folklore sociology psychology and ethnology are the

Western world as well as into parts of Africa and Asia until they were crushed by the Holocaust and were forced to find refuge in the United States and the new state of Israel. Because of that horrific event of the estimated 15 million Jews living today, approximately six million reside in Israel with almost the same number living in the United States, making these two countries the main center of Jewish life today. This ready reference tells the history of the Jewish people through a detailed chronology, an introductory essay, an extensive bibliography, and over 200 cross-referenced dictionary entries on significant persons, places, events, institutions, and aspects of culture, society, economy, and politics. The Jewish Community of Acre in Mandatory Palestine Anat Kidron, Shuli Linder Yarkony, 2024-05-20 For a brief moment in the history of Acre, there was a Hebrew community that linked old and new settlements. It had a national Zionist orientation and consisted of Jews of local and Mizrahic origin. This community is no longer visible in the cityscape, and its history has disappeared from the collective Zionist memory, but it played a role in building the Jewish national community in Palestine. The unusual history of Acre shows how it succeeded in attracting new nationalist settlers. The book seeks to illuminate the complexity and diversity of the Zionist enterprise in relation to the Arab and mixed towns of Mandatory Palestine by raising questions about the relationship between the history of a place and national history. By describing the failure of the Hebrew settlement in the Mandate territory of Acre, the book views the Zionist project as a fascinating intersection between the dreams of those who created the leading narratives and between local interests and the unique geographical conditions of the region.

Jews and Judaism in the Rabbinic Era Isaiah Gafni, 2019-01-04 This collection of essays by Isaiah M. Gafni reflects over forty years of research on central issues of Jewish history in one of its formative eras. Questions relating to representations of the past, beginning with Josephus but primarily in rabbinic and post-rabbinic literature, represent an axial theme in this volume. Throughout the collection, the author addresses the tension between realities on the ground and the historiography that shaped the image of that reality for all subsequent generations. Two specific clusters of studies analyze the emergence and development of the Babylonian rabbinic community as well as the complex relationship between the Judean center and the Jewish diaspora in Late Antiquity. A final selection of essays examines the impact of modern ideologies and revised methods of research on the image of Jewish life and rabbinic leadership in late antique Judaism.

Matthew and the Didache H.W.M. van den Sandt, 2021-10-11 The Didache or Doctrine of the Twelve Apostles is an important source for our knowledge of early Christianity The Didache demonstrates that we should understand nascent Christianity and early Judaism as sharing to a large extent the same traditions The volume throws fresh light on the Jewishness of the Two Ways teaching in Didache 1 6 It presents a cautious reconstruction of the Jewish prototype of the Two Ways and traces the Jewish life situation in which the instruction could emerge and flourish This attempt is important as it provides us with a Jewish source and its transmission underlying Christian and Jewish writings For example it is shown how acquaintance with these traditional materials benefits our perception of the antithetical section in Matthew 5 17 48 In the field of liturgical studies a significant contribution is made to the discussion of Didache 7 10 It improves our understanding of the Jewish provenance and historical development of Baptism and the Eucharist The book also presents an intriguing look into the redactional stages behind the materials about church discipline The ministry of itinerant apostles and prophets
