Information and Inference Jaakko Hintikka,Patrick Suppes,2012-12-06 In the last 25 years the concept of information has played a crucial role in communication theory so much so that the terms information theory and communication theory are sometimes used almost interchangeably It seems to us however that the notion of information is also destined to render valuable services to the student of induction and probability of learning and reinforcement of semantic meaning and deductive inference as well as of scientific method in general The present volume is an attempt to illustrate some of these
