**Medievalism, Multilingualism, and Chaucer** M. Davidson,2009-12-21 In new readings of medieval language attitudes and identities this book concludes that multilingualism informed masculinist discourses which were aligned against the vernacular sentiment traditionally attributed to Langland and Chaucer     *History and the Written Word* Henry Bainton,2020-01-24 A thought provoking look at the Angevin aristocracy's literary practices and historical record Coming upon the text of a document such as a charter or a letter inserted into the fabric of a medieval chronicle and quoted in full or at length modern readers might well assume that the chronicler is simply doing what good historians have always done that is citing his source as evidence Such documentary insertions are not ubiquitous in medieval historiography however and are in fact particularly characteristic of the history writing produced by the Angevins in England and Northern France in the later twelfth century In *History and the Written Word* Henry Bainton puts these documentary gestures center stage in an attempt to understand what the chroniclers were doing historiographically socially and culturally when they transcribed a document into a work of history Where earlier scholars who have looked at the phenomenon have explained this increased use of documents by considering the growing bureaucratic state and an increasing historiographical concern for documentary evidence Bainton seeks to resituate these histories together with their authors and users within literate but sub state networks of political power Proposing a new category he designates literate lordship to describe the form of power with which documentary history writing was especially concerned he shows how important the vernacular was in recording the social lives of these literate lords and how they found it a particularly appropriate medium through which to record their roles in history Drawing on the perspectives of modern and medieval narratology medieval multilingualism and cultural memory *History and the Written Word* argues that members of an administrative elite demonstrated their mastery of the rules of literate political behavior by producing and consuming history writing and its documents     **British Qualifications 2016** Philip Kogan,2015-12-03 Now in its 46th edition British Qualifications is the definitive one volume guide to every qualification on offer in the United Kingdom With an equal focus on vocational studies this essential guide has full details of all institutions and organizations involved in the provision of further and higher education and is an essential reference

Ranging across a variety of academic disciplines from art history to cartography and from Anglo Saxon to Hispanic studies this volume highlights the connections between medieval and postcolonial studies through the exploration of a theme common to both areas of study translation as a mechanism of and metaphor for cultures in contact confrontation and competition Drawing upon the widespread medieval trope of the translation of empire and culture this collection engages the concept of translation from its most narrow lexicographic sense to the broader applications of its literal meaning to carry across It carries the multilingual multicultural realities of medieval studies to postcolonial analyses of the coercive and subversive powers of cultural translation offering a set of case studies of translation as the transfer of language culture and power

*Multilingual Practices in Language History* Päivi Pahta, Janne Skaffari, Laura Wright, 2017-12-18 Texts of the past were often not monolingual but were produced by and for people with bi or multilingual repertoires the communicative practices witnessed in them therefore reflect ongoing and earlier language contact situations However textbooks and earlier research tend to display a monolingual bias This collected volume on multilingual practices in historical materials including code switching highlights the importance of a multilingual approach The authors explore multilingualism in hitherto neglected genres periods and areas introduce new methods of locating and analysing multiple languages in various sources and review terminology theories and tools The studies also revisit some of the issues already introduced in previous research such as Latin interacting with European vernaculars and the complex relationship between code switching and lexical borrowing Collectively the contributors show that multilingual practices share many of the same features regardless of time and place and that one way or the other all historical texts are multilingual This book takes the next step in historical multilingualism studies by establishing the relevance of the multilingual approach to understanding language history

*Studies in the Age of Chaucer* Thomas J. Heffernan, 2007-12 *Studies in the Age of Chaucer* is the annual yearbook of the New Chaucer Society publishing articles on the writing of Chaucer and his contemporaries their antecedents and successors and their intellectual and social contexts More generally articles explore the culture and writing of later medieval Britain 1200 1500 Each SAC volume also includes an annotated bibliography and reviews of Chaucer related publications
