Studies In Slavic Morphophonemics And Accentology:

Studies in Slavic Morphophonemics and Accentology Edward Stankiewicz, 1979 *Studies in Slavic Morphophonemics and Accentology* Edward Stankiewicz, 1979 **Slavic Prosody** Christina Y. Bethin, 1998-07-13 In *Slavic Prosody* first published in 1998 Professor Bethin gives a coherent account of the Slavic languages at the time of their differentiation and relates these developments to issues in phonological theory First Professor Bethin argues that the syllable structure of Slavic changed before the fall of the jers and suggests that intrasyllabic and intersyllabic reorganization in Late Common Slavic was far more significant for Slavic prosody than the loss of weak jers She then makes a case for the existence of a bisyllabic prosodic domain in Late Common Slavic and trochaic metrical organization Finally she explores the implications of Slavic data for phonological theory discussing sonority skeletal structure the representation of length and prominence and language typology in some detail **Introduction to Proto-Indo-European and Balto-Slavic Accentology** Roman Sukac, 2014-07-03 This book offers a comprehensive introduction to Proto Indo European Balto Slavic and Proto Slavic accentology a branch of diachronic linguistics dealing with the development of syllable stress intonation and quantity at the word level Of particular interest in the book is its detailed summary of the major approaches and solutions to accentology of the last thirty years Furthermore the book provides a comprehensive overview of the current state of research on accentuation of the Indo European proto language and the accentuation of Balto Slavic languages Such research is integral to our knowledge of how accentual patterns developed from the reconstructed proto language to the modern Indo European languages Morphophonemic Variability, Productivity, and Change Marta Harasowska, 2011-05-03 *TRENDS IN LINGUISTICS* is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science *TRENDS IN LINGUISTICS* considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language *TRENDS IN LINGUISTICS* publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing Balto-Slavic Accentual Mobility Thomas Olander, 2009-03-26 Why does the accent jump back and forth in Russian words like golov head acc g lov u gen golov dat golov etc How come we find similar alternations in other Slavic languages and in a Baltic language like Lithuanian The quest for the origin of the so called mobile accent paradigms of Baltic and Slavic leads the reader through other Indo European language branches such as Indo Iranian Greek and Germanic all of which are relevant to the reconstruction of the Proto Indo European accentuation system

After the examination of the evidence for the reconstruction of the Proto Indo European accentuation system focus is moved to the Baltic and Slavic accentuation systems and their relationship to each other and to Proto Indo European A comprehensive history of research and numerous bibliographical references to earlier pieces of scholarship throughout the book make it a useful tool for anybody who is interested in Balto Slavic and Indo European accentology Written in a simple style and constantly aiming at presenting old and new opinions on the various problems the volume may serve as an introduction to this complicated field California Slavic Studies Henrik Birnbaum,1992 This volume completes a program of publishing distinguished essays on a wide range of Slavic topics *Phonological Studies* Roman Jakobson,2012-01-02 No detailed description available for Phonological Studies **California Slavic Studies, Volume XIV** Henrik Birnbaum,Thomas Eekman,Hugh McLean,Nicholas V.
