Studies in the Italian Baroque Rudolf Wittkower, 1975 *Studies in the Italian Baroque* Rudolf Wittkower, 1975

The Oxford Illustrated History of Italy George Holmes, 1997 Traces the history of Italy from the Roman Empire to the present and examines the connections between Italian society politics and culture *Baroquemanía* Laura Moure Cecchini, 2022-01-11 Baroquemanía explores the intersections of art architecture and criticism to show how reimagining the Baroque helped craft a distinctively Italian approach to modern art Offering a bold reassessment of post unification visual culture the book examines a wide variety of media and ideologically charged discourses on the Baroque both inside and outside the academy Key episodes in the modern afterlife of the Baroque are addressed notably the Decadentist interpretation of Gianlorenzo Bernini the 1911 universal fairs in Turin and Rome Roberto Longhi's historically grounded view of Futurism architectural projects in Fascist Rome and the interwar reception of Adolfo Wildt and Lucio Fontana's sculpture Featuring a wealth of visual materials Baroquemanía offers a fresh look at a central aspect of Italy's modern art

Transnational Italian Studies Charles Burdett, Loredana Polezzi, 2020-07-17 Transnational Italian Studies is specifically targeted at a student audience and is designed to be used as a key text when approaching the disciplinary field of Italian studies It allows the study of Italian culture to be construed and practised not simply as the inquiry into a national tradition but as the study of the interaction of cultural practices both within Italy itself and in those parts of the world that have witnessed the extent of Italian mobility The text argues that Italian culture needs to be considered in a transnational transcultural perspective and that an understanding of linguistic and cultural translation underlies all approaches to the study of Italian culture in a global context Contributions deploy a range of methodological approaches to understand and illustrate how language operates how culture inhabits and constitutes public and private space how notions of time operate within people's lives and the multiple ways in which people experience a sense of personhood Chapters stretch from the medieval period to the present and demonstrate how transnational Italian culture can be critically addressed through the examination of carefully chosen examples Contributors Alessandra Diazzi Andrea Rizzi Barbara Spadaro Charles Burdett Clorinda Donato David Bowe Derek Duncan Donna Gabaccia Eugenia Paulicelli Fabio Camilletti Giuliana Muscio Jennifer Burns Loredana Polezzi Marco Santello Monica Jansen Naomi Wells Nathalie Hester Serena Bassi Stefania Tufi Teresa Fiore and Tristan Kay **The Architecture of Ruins** Jonathan Hill, 2019-03-25 **The Architecture of Ruins** Designs on the Past Present and Future identifies an alternative and significant history of architecture from the sixteenth century to the twenty-first century in which a building is designed occupied and imagined as a ruin This design practice conceives a monument and a ruin as creative interdependent and simultaneous themes within a single building dialectic addressing temporal and environmental questions in poetic psychological and practical terms and stimulating questions of personal and national identity nature and culture weather and climate permanence and impermanence and life and death Conceiving a building as

a dialogue between a monument and a ruin intensifies the already blurred relations between the unfinished and the ruined and envisages the past the present and the future in a single architecture Structured around a collection of biographies this book conceives a monument and a ruin as metaphors for a life and means to negotiate between a self and a society Emphasising the interconnections between designers and the particular ways in which later architects learned from earlier ones the chapters investigate an evolving interdisciplinary design practice to show the relevance of historical understanding to design Like a history a design is a reinterpretation of the past that is meaningful to the present Equally a design is equivalent to a fiction convincing users to suspend disbelief We expect a history or a novel to be written in words but they can also be delineated in drawing cast in concrete or seeded in soil The architect is a physical novelist as well as a physical historian Like building sites ruins are full of potential In revealing not only what is lost but also what is incomplete a ruin suggests the future as well as the past As a stimulus to the imagination a ruin s incomplete and broken forms expand architecture s allegorical and metaphorical capacity indicating that a building can remain unfinished literally and in the imagination focusing attention on the creativity of users as well as architects Emphasising the symbiotic relations between nature and culture a building designed occupied and imagined as a ruin acknowledges the coproduction of multiple authors whether human non human or atmospheric and is an appropriate model for architecture in an era of increasing climate change

The Origins of Baroque Art in Rome Alois Riegl, Alina Alexandra Payne, 2010 Delivered at the turn of the twentieth century Riegl s groundbreaking lectures called for the Baroque period to be judged by its own rules and not merely as a period of decline

Observations on the Letter of Monsieur Mariette Giovanni Battista Piranesi, 2002 An impassioned plea for a Roman Style eclecticism that draws freely on all artistic forms and traditions Piranesi s Observations anticipates the contemporary debate between devotees of a rational minimal architecture and advocates of an architecture rich in ornament and historical references

BOOK JACKET **Bernini** Claude Douglas Dickerson (III), Gian Lorenzo Bernini, Anthony Sigel, Ian Wardropper, 2012 The brilliantly expressive clay models created by Gian Lorenzo Bernini 1598 1680 as sketches for his works in marble offer extraordinary insights into his creative imagination Although long admired the terracotta models have never been the subject of such detailed examination This publication presents a wealth of new discoveries including evidence of the artist s fingerprints imprinted on the clay resolving lingering issues of attribution while giving readers a vivid sense of how the artist and his assistants fulfilled a steady stream of monumental commissions Essays describe Bernini s education as a modeler his approach to preparatory drawings his use of assistants and the response to his models by 17th century collectors Extensive research by conservators and art historians explores the different types of models created in Bernini s workshop Richly illustrated Bernini transforms our understanding of the sculptor and his distinctive and fascinating working methods

Publisher s website Art History W. McAllister Johnson, 1990-01-01 These essays discuss major questions that should arise in courses in bibliography methodology and historiography once the survey courses are left behind

Eighteenth-Century Geology Rhoda Rappaport, edited by Kenneth L. Taylor, 2023-04-21 In a scholarly career spanning five decades Rhoda Rappaport published perceptive analyses of science in the culture of early Modern Europe France in particular with strong emphasis on geology's early development Of the sixteen papers in this volume most focus on aspects of geology's cultivation during the long 18th century from the times of Hooke Leibniz and Fontenelle to those of Lavoisier Werner and Cuvier Among the topics most closely treated here are the French mineralogical mapping project initiated by Guettard contemporary efforts to interpret the earth historically such as through Noah's Flood and difficulties presented by the vocabulary often used in traditional histories of geology Much of Rappaport's research addressed two problems prevalent within 18th century earth science the proper understanding of petrifications or fossil objects and struggles to establish reliable knowledge of the earth's past She also examined the chemistry of G F Rouelle which she saw as effectively an attempt at systematic comprehension of the entire mineral realm trans national features of scientific pursuits as illustrated in the careers of the naturalist Vallisneri and the mineralogist and philosophe d Holbach and aspects of science's promotion in France through government patronage and academic privilege *The Artist as Reader: On Education and Non-Education of Early Modern Artists*, 2012-12-03 Reading is apparently the greatest proof of refinement when viewed within the context of the social climb of the visual artist It is only as reader that the artist can participate in the exclusive culture of clerics humanists rulers and courtiers How did it come about that such a figure was integrated into the general history of knowledge context of research on the early modern period in order to outline what artists reading specifically entails Based on the history of knowledge the contributions to this volume will then correspondingly elucidate various aspects of how in the early modern period artists education knowledge reading and libraries were related to the ways in which they presented themselves The volume endeavours at long last to go beyond merely publishing inventories by investigating the problem of artists libraries with a fundamentally stronger emphasis on a discourse analytical and history of knowledge approach Contributors include Rainer Bayreuther Maria Berbara Cile Beuzelin Heiko Damm Annette de Vries Kelly Donahue Wallace Angela Dressen Lex Hermans Eckhard Leuschner Alexander Marr Martin Papenbrock Tico Seifert Eva Struhal Michael Thimann Huub van der Linden Elsje van Kessel Iris Wenderholm and Claus Zittel Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1977 Rome in the Age of Enlightenment Hanns Gross, 2004-04-22 This is the only scholarly work in the English language on the city of Rome in the Age of the Enlightenment and the only book in any language to treat this fascinating city in all its multifarious aspects Professor Gross combines extensive archival research with the latest findings of other scholars to produce a uniquely rounded portrait of the papal capital elegantly illustrated with contemporary engravings by Piranesi and others The book is divided into two sections in the first of which Professor Gross discusses the material and institutional structures of the city including its demography economy food supply and judicial systems The second section considers aspects of intellectual cultural and artistic life Professor Gross contends not only that

ancien regime Rome witnessed a decline in Counter Reformation fervour but that this decay resulted in a marked dissonance in the political social and cultural life of the city

'To fill, forbear, or adorne' Rebecca Herissone,2017-07-05 This is the first study to provide a systematic and thorough investigation of continuo realization styles appropriate to Restoration sacred music an area of performance practice that has never previously been properly assessed Rebecca Herissone undertakes detailed analysis of a group of organ books closely associated with the major Restoration composers Purcell Blow and Humfrey and the London institutions where they spent their professional lives By investigating the relationship between the organ books two stave arrangements and full scores of the same pieces Herissone demonstrates that the books are subtle sources of information to the accompanist not just short or skeleton scores Using this evidence she formulates a model for continuo realization of this repertory based on the doubling of vocal parts an approach that differs significantly from that adopted by most modern editors and which throws into question much of the accepted continuo practice in modern performance of this repertory
