adorable yet intangible figure found in this world yet revealing the next **Mysticism** Evelyn Underhill, 1990-10-01 First published in 1911 *Mysticism* remains the classic in its field and was lauded by The Princeton Theological Review as brilliantly written and illuminated with numerous well chosen extracts used with exquisite skill *Mysticism* makes an in depth and comprehensive exploration of its subject Part One examines The Mystic Fact explaining the relation of mysticism to vitalism to psychology to theology to symbolism and to magic Part Two The Mystic Way explores the awakening purification and illumination of the self discusses voices and visions and delves into manifestations from ecstasy and rapture to the dark night of the soul Rounding out the book are a useful Appendix an exhaustive Bibliography and an Index *Mysticism* is thoroughly documented with material drawn from such great mystics as St Teresa of Avila Meister Eckhart and St John of the Cross and this new Image Classic features a Foreword by Ira Progoff translator of *Cloud Unknowing* and director of Dialogue House in New York City **The New American Church Monthly** , 1928 Includes section Book reviews *Mysticism* Jess Hollenback, 1996-09-15 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic's interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience as well Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience *The Irish Ecclesiastical Record* , 1927

Comparative Mysticism Steven T. Katz, 2013 This collection of primary texts introduces readers to the mystical literature of the world's great religious traditions Beginning with an introduction by Steven T Katz a leading scholar of mysticism the anthology comprises poetry prayer narrative and other writings from Jewish Christian Muslim Hindu Buddhist Taoist Confucianist and Native American traditions This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition *Comparative Mysticism* shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated The

contextual methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in common Despite the prevailing view that mystical traditions throughout the world are essentially similar the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals The writings collected in *Comparative Mysticism* address the most fundamental and important methodological epistemological and hermeneutical questions regarding the study and interpretation of mysticism and mystical sources across cultures This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come
