Excerpt from *Studies of the Eighteenth Century in Italy* This book is at first sight heterogeneous and anomalous heterogeneous because it treats two subjects which are rarely treated by one individual and never treated under one binding literature and music anomalous because it is far from dealing with all that goes to make up the Italian Eighteenth Century while it deals with not a few men and things belonging to the sixteenth and seventeenth centuries Why not deal exclusively and completely with either music or literature Why not study the satirist Parini by the side of the playwright Goldoni rather than study the composer Jommelli who seems to have no connection with him Why examine the comedies of the time of Salvator Rosa and pass over the tragedies of Alfieri Why linger over forgotten composers and singers while scientific and philosophic writers whose works are still read and discussed remain unmentioned The book is seemingly most incoherent in subject and most incomplete and digressive in treatment But the apparent incoherence of subject is in reality unity of treatment and the apparent incompleteness and irrelevance of treatment is in reality completeness and restriction of the subject The book deals both with literature and with music because the point of view of the writer is neither exclusively literary nor exclusively musical but generally aesthetic because the object of the writer has been to study not the special nature and history of any art in its isolation but to study the constitution and evolution of the various arts compared with one another and the arts whose constitution and evolution can be studied in a work on the Italian Eighteenth Century happen to be the drama and music just as the arts which might be studied in a work on the Athenian fifth century B C would be the drama and sculpture The writer of this book is neither a literary historian nor a musical critic but an aesthetician and both literature and music belong to the aesthetician's domain About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Sama,2009 In the age of the Grand Tour foreigners flocked to Italy to gawk at its ruins and paintings enjoy its salons and caf s attend the opera and revel in their own discovery of its past But they also marveled at the people they saw both male and female In an era in which castrati were rock stars men served women as cicisbei and dandified Englishmen became macaroni Italy was perceived to be a place where men became women The great publicity surrounding female poets journalists artists anatomists and scientists and the visible roles for such women in salons academies and universities in many Italian cities also made visitors wonder whether women had become men Such images of course were stereotypes but they were nonetheless grounded in a reality that was unique to the Italian peninsula This volume illuminates the social and cultural landscape of eighteenth century Italy by exploring how questions of gender in music art literature science and medicine shaped perceptions of Italy in the age of the Grand Tour *Translating Italy for the Eighteenth Century* Mirella Agorni,2014-04-08

Translating Italy in the Eighteenth Century offers a historical analysis of the role played by translation in that complex redefinition of women's writing that was taking place in Britain in the second half of the eighteenth century. It investigates the ways in which women writers managed to appropriate images of Italy and adapt them to their own purposes in a period which covers the moral turn in women's writing in the 1740s and foreshadows the Romantic interest in Italy at the end of the century. A brief survey of translations produced by women in the period 1730-1799 provides an overview of the genres favoured by women translators such as the moral novel, sentimental play and a type of conduct literature of a distinctively proto-feminist character. Elizabeth Carter's translation of Francesco Algarotti's *II Newtonianesimo per le Dame* (1739) is one of the best examples of the latter kind of texts. A close reading of the English translation indicates a proto-feminist exploitation of the myth of Italian women's cultural prestige. Another genre increasingly accessible to women, namely travel writing, confirms this female interest in Italy. Female travellers who visited Italy in the second half of the century, such as Hester Piozzi, observed the state of women's education through the lenses provided by Carter Piozzi's image of Italy: a paradoxical mixture of imagination and realistic observation became a powerful symbolic source which enabled the fictional image of a modern, relatively egalitarian British society to take shape.
