Studies On The Humanization Of Transcendental Philosophy:

The Humanization of Transcendental Philosophy R. Sundara Rajan, 1997-01-01 This is a collection of three studies of both retrospective and prospective significance for the author's preoccupation with the philosophical problems arising out of the transcendentalist orientation. The aim of the present work is to focus on the notion of the paradoxical alliance of unity and difference of the transcendentalist ego and the human subject. To think this notion through in terms of its implications and consequences and to rethink the nature and method of philosophy its relation to language and to the sciences is what the author means by the humanization of transcendental philosophy. The first study addresses the genesis of the problematic of humanization in Husserl's phenomenology of the life world; the second seeks to understand the presuppositions and consequences of Heidegger's transformation of phenomenology into fundamental ontology; and the third takes up the themes explored by Husserl and Heidegger as they enter into Merleau-Ponty's thought. In the Epilogue the author seeks to balance the logocentrism of phenomenology with the biocentrism of a philosophy of life. The late R. Sundara Rajan was Professor of Philosophy at the University of Poona, Pune; Fellow at the Indian Institute of Advanced Study, Shimla; and Senior Fellow at the Indian Council of Philosophical Research, New Delhi, India.

India, Habermas and the Normative Structure of Public Sphere Muzaffar Ali, 2023-05-19 This book examines how the contemporary Indian situation poses a strict theoretical challenge to Habermas's theorization of the public sphere and employs the method of *samvada* to critically analyse and dissect its universalist claims. It invites the reader to consider the possibility of imagining a normative Indian public sphere that is embedded in the Indian context in a native and not nativist sense to get past the derivative language of philosophical and political discourses prevalent within Indian academia. The book proposes that the dynamic cooperative space between Indian political theory and contemporary Indian philosophy is effectively suited to theorize the native idea of the Indian public sphere. It underlines the normative need for a natively theorized Indian public sphere to further the multilayered democratization of public spheres within diverse communities that constitute Indian society. The book will be a key read for contemporary studies in philosophy, political theory, sociology, postcolonial theory, history, and media and communication studies.

Journal of Indian Council of Philosophical Research, 1996 *Historical Dictionary of Heidegger's Philosophy* Frank Schalow, Alfred Denker, 2010-08-20 By the time Martin Heidegger passed away on May 26th, 1976, he had become the most important and controversial philosopher of his age. While many of his former students had become important philosophers and thinkers in their own right, Heidegger also inspired countless others like Jacques Derrida, Michel Foucault, and Jean-Paul Sartre. The second edition of the *Historical Dictionary of Heidegger's Philosophy* is an historical perspective on the development of Heidegger's thought in all its nuances and facets. Schalow and Denker cast light on the historical influences that shaped the thinker and his time through a chronology, an introductory essay, a bibliography, appendixes that include German and Greek to English glossaries of terms, and a complete listing of Heidegger's writings.

Ames, Jinhua Jia, 2018-07-31 For more than a century scholars both inside and outside of China have undertaken the project of modernizing Confucianism but few have been as successful or influential as Li Zehou b 1930 Since the 1950s Li's extensive efforts in this

regard have in turn exerted a profound influence on Chinese modernization and resulted in his becoming one of China's most prominent social critics. To transform Confucianism into a contemporary resource for positive change in China and elsewhere, Li has reinterpreted major ideas and concepts of classical Confucianism, including a rereading of the entire Analects replete with his own philosophical speculations derived from other Chinese and Western traditions, most notably the ideas of Kant and Marx, and developed an aesthetical theory that has proved especially far-reaching. Although the authors of this volume hail from East Asia, North America, and Europe and a wide variety of academic backgrounds and fields of study, they are unanimous in their appreciation of Li's contributions to not only an evolving Confucian philosophy but also world philosophy. They view Li first and foremost as a *sui generis* thinker with broad global interests and not one who fits neatly into any one philosophical category, Chinese or Western. This is clearly reflected in the chapters included here, which are organized into three parts: Li Zehou and the Modernization of Confucianism; Li Zehou's Reconceptualization of Confucian Philosophy; and Li Zehou's Aesthetical Theory and Confucianism. Together, they form a coherent narrative that reveals how Li has for more than half a century creatively studied, absorbed, and reconceptualized the Confucian ideational tradition to integrate it with Western philosophical elements and develop his own philosophical insights and original theories. At the same time, he has transformed and modernized Confucianism for the purpose of both coalescing with and reconstructing a new world cultural order.
