**Studies in Idealism** Hugh I. Fausset, 1982-06     *Studies in Idealism* Hugh I'Anson Fausset, 1923     Studies on idealism Hugh I'Anson Fausset, 1965     **Studies in Idealism** Nicholas Rescher, 2013-05-02 set of studies of various ideas and theories that play a key role in contemporary idealism and are important for the pragmatic idealism that Nicholas Rescher long was developing     Studies in Idealism Hugh I'Anson FAUSSET, 1923     *Studies in Idealism* Hugh I'Anson Fausset, 1923     **Studies on Contemporary Chinese Philosophy (1949-2009)** Qiyong GUO, 2018-01-29 Guo Qiyong s edited volume on contemporary Chinese philosophy offers a detailed look at research on Chinese philosophy published from 1949 2009 in Mainland China and Taiwan The chapters in this volume are broken down into either major themes or time periods in the history of Chinese philosophy In each chapter after summarizing significant aspects of a particular theme or time period lists are drawn up of the most important works along with comments on their individual contributions This volume allows readers to both familiarize themselves with specific texts and become immersed in the more general philosophical discourse surrounding the history of Chinese philosophy It provides an in depth look into serious debates and major discoveries in Chinese language philosophical scholarship from 1949 2009     **The Paralysis of Analysis in African American Studies** Stephen Ferguson II, 2023-09-21 Stephen C Ferguson II provides a philosophical examination of Black popular culture for the first time From extensive discussion of the philosophy and political economy of Hip Hop music through to a developed exploration of the influence of the postmodernism poststructuralist ideology on African American studies he argues how postmodernism ideology plays a seminal role in justifying the relationship between corporate capitalism and Black popular culture Chapters cover topics such as cultural populism capitalism and Black liberation the philosophy of Hip Hop music and Harold Cruse s influence on the cultural turn in African American studies Ferguson combines case studies of past and contemporary Black cultural and intellectual productions with a Marxist ideological critique to provide a cutting edge reflection on the economic structure in which Black popular culture emerged He highlights the contradictions that are central to the juxtaposition of Black cultural artists as political participants in socioeconomic struggle and the political participants who perform the rigorous task of social criticism Adopting capitalism as an explanatory framework Ferguson investigates the relationship between postmodernism as social theory current manifestations of Black popular culture and the theoretical work of Black thinkers and scholars to demonstrate how African American studies have been shaped     **Hypotyposis in Kant's Metaphysics of Judgment** Byron Ashley Clugston, 2019-10-03 Hypotyposis is for Kant the a priori presentation of some concept or a presentation of an a priori concept The focused discussion of hypotyposis and associated themes in Hypotyposis in Kant s Metaphysics of Judgment leads to an exploration of 1 the idea of a priori presentation the idea of something being represented in thought which is not found in the world but found in us in the structure of our thought and correlatively 2 the idea of our taking something to be presented in the world which symbolizes

something found in us Byron Ashley Clugston's analysis takes as its central concern the structure of thought though his exploration of this topic is not conventional to the extent that it does not adhere strictly and only to Kant's own pronouncements Clugston focuses instead on extending and connecting certain major themes in Kant's thinking the idea of an inner and outer to thought the idea of limit cases and best cases which guide our thinking the idea of our thinking being constrained or shaped by certain conditions the idea of there being something which is unconditioned or hidden from us and the idea of our being inaccessible to ourselves

*Aberrations in Black* Roderick A. Ferguson, 2013-11-30 A hard hitting look at the regulation of sexual difference and its role in circumscribing African American culture The sociology of race relations in America typically describes an intersection of poverty race and economic discrimination But what is missing from the picture sexual difference can be as instructive as what is present In this ambitious work Roderick A Ferguson reveals how the discourses of sexuality are used to articulate theories of racial difference in the field of sociology He shows how canonical sociology Gunnar Myrdal Ernest Burgess Robert Park Daniel Patrick Moynihan and William Julius Wilson has measured African Americans's unsuitability for a liberal capitalist order in terms of their adherence to the norms of a heterosexual and patriarchal nuclear family model In short to the extent that African Americans's culture and behavior deviated from those norms they would not achieve economic and racial equality *Aberrations in Black* tells the story of canonical sociology's regulation of sexual difference as part of its general regulation of African American culture Ferguson places this story within other stories the narrative of capital's emergence and development the histories of Marxism and revolutionary nationalism and the novels that depict the gendered and sexual idiosyncrasies of African American culture works by Richard Wright

Ralph Ellison James Baldwin Audre Lorde and Toni Morrison In turn this book tries to present another story one in which people who presumably manifest the dysfunctions of capitalism are reconsidered as indictments of the norms of state capital and social science Ferguson includes the first ever discussion of a new archival discovery a never published chapter of Invisible Man that deals with a gay character in a way that complicates and illuminates Ellison s project Unique in the way it situates critiques of race gender and sexuality within analyses of cultural economic and epistemological formations Ferguson s work introduces a new mode of discourse which Ferguson calls queer of color analysis that helps to lay bare the mutual distortions of racial economic and sexual portrayals within sociology      Book Review Digest ,1927
