Studies in Insular Art and Archaeology Catherine E. Karkov, Robert T. Farrell, 1991 This volume inaugurates a new series of American Early Medieval Studies Amongst the areas covered are the decoration of wooden architecture Picts and Vikings in northern Scotland Irish medieval lake dwellings Irish and Viking age coinage and metalwork Medieval Iconography John B. Friedman, Jessica M. Wegmann, 2021-11-18 First published in 1998 the present volume aims to help the researcher locate visual motifs whether in medieval art or in literature and to understand how they function in yet other medieval literary or artistic works *Liturgy, Architecture, and Sacred Places in Anglo-Saxon England* Helen Gittos, 2013-02-07 One of the first studies to consider how church rituals were performed in Anglo Saxon England Brings together evidence from written archaeological and architectural sources It will be of particular interest to architectural specialists keen to know more about liturgy and church historians who would like to learn more about architecture Animals and Sacred Bodies in Early Medieval Ireland John Soderberg, 2022-01-04 Clonmacnoise was among the busiest most economically complex and intensely sacred places in early medieval Ireland In *Animals and Sacred Bodies in Early Medieval Ireland* Religion and Urbanism at Clonmacnoise John Soderberg argues that animals are the key to understanding Clonmacnoise's development as a thriving settlement and a sacred space At this sanctuary city on the River Shannon animal bodies were an essential source of food and raw materials They were also depicted extensively on religious objects Drawing from new theories about the intersections between religion and economics John Soderberg explores how transformations emerging from animal encounters made Clonmacnoise a sacred settlement and created the sacred bodies of early medieval Ireland **Roman Infrastructure in Early Medieval Britain** Mateusz Fafinski, 2025-10-01 Early Medieval Britain was more Roman than we think The Roman Empire left vast infrastructural resources on the island These resources lay buried not only in dirt and soil but also in texts laws chronicles charters even churches and landscapes This book uncovers them and shows how they shaped Early Medieval Britain Infrastructures material and symbolic can work in ways that are not immediately obvious and exert an influence long after their creators have gone Infrastructure can also rest dormant and be reactivated with a changed function role and appearance This is not a simple story of continuity and discontinuity It is a story of adaptation and transformation of how the Roman infrastructural past was used and re used and also how it influenced the later societies of Britain **Multiple Perspectives on English Philology and History of Linguistics** Shōichi Watanabe, Tetsuji Oda, Hiroyuki Eto, 2010 This collection of articles covers a wide range of topics in English philology and history of linguistics The volume proceeds from Old English studies offering a unique perspective and approach in literary and linguistic research into Anglo Saxon England Two articles deal with English phonology from both historical and contemporary standpoints and another with a theoretical discussion of etymological inquiry The last section contains three articles focusing on the history of linguistics or the history of ideas The wide range of topics addressed in the 12 chapters of this volume reflects the diversity

of interests in the research efforts of Shoichi Watanabe professor emeritus at Sophia University to whom this volume is dedicated by his former students He is not only highly valued as a distinguished professor of English philology but also acknowledged for his critique of civilization with his unique view of history and culture

**Learned** Elizabeth FitzPatrick, 2023-04-15 Gaelic literati were an elite and influential group in the social hierarchy of Irish lordships between c 1300 and 1600 From their estates they served Gaelic and Old English ruling families in the arts of history law medicine and poetry They farmed kept guest houses conducted schools and maintained networks of learning In other capacities they were involved in political assemblies and memorializing dynastic histories in landscape This book presents a framework for identifying and interpreting the settings and built heritages of their estates in lordship borderscapes It shows that a more textured definition of what this learned class represented can be achieved through the material record of the buildings and monuments they used and where their lands were positioned in the political map Where literati lived and worked are conceived as expressions of their intellectual and political cultures Mediated by case studies of the landscapes of their estates dwellings and schools the methodology is predominantly field based using archaeological investigation and topographic and spatial analyses and drawing on historical and literary texts place names and lore in referencing named people to places More widely the study contributes a landscape perspective to the growing body of work on autochthonous intellectual culture and the exercise of power by ruling families in late medieval and early modern northern European societies

Icons of Irishness from the Middle Ages to the Modern World M. Williams, 2012-12-10 From majestic Celtic crosses to elaborate knotwork designs visual symbols of Irish identity at its most medieval abound in contemporary culture Considering both scholarly and popular perspectives this book offers a commentary on the blending of pasts and presents that finds permanent visualization in these contemporary signs

**Literacy and Identity in Early**

**Medieval Ireland** Elva Johnston, 2013-08-15 Much of our knowledge of early medieval Ireland comes from a rich literature written in a variety of genres and in two languages Irish and Latin Who wrote this literature and what role did they play within society What did the introduction and expansion of literacy mean in a culture where the vast majority of the population continued to be non literate How did literacy operate in and intersect with the oral world Was literacy a key element in the formation and articulation of communal and elite senses of identity This book addresses these issues in the first full interdisciplinary examination of the Irish literate elite and their social contexts between ca 400 1000 AD It considers the role played by Hiberno Latin authors the expansion of vernacular literacy and the key place of monasteries within the literate landscape Also examined are the crucial intersections between literacy and orality which underpin the importance played by the literate elite in giving voice to aristocratic and communal identities

The Macregol Gospels or The Rushworth Gospels

Kenichi Tamoto, 2013-05-29 This work is composed of two parts The first or introductory part contains a palaeographical

discussion about Bodleian Library MS Auctarium D 2 19 that is to say the MacRegol Gospels or the Rushworth Gospels edited by Kenichi Tamoto and which forms the second and main part of this book The provenience of the MS the Latin text the use of the MS and the Old English gloss are discussed in detail in the introductory part The chief aim that the author set himself is firstly to survey preceding printed versions of the MS such as Stevenson Waring 1856 65 and W W Skeat 1871 87 and secondly to publish the complete edition of the MS with the whole Latin text interlineally glossed in Old English This work will stimulate further research into the MS in particular the comparative study of Old English glosses such as those of the Lindisfarne Gospels

*A New History of Ireland, Volume I* Dáibhí Ó Cróinín, 2005-02-24 *A New History of Ireland* is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day Volume I begins by looking at geography and the physical environment Chapters follow that examine pre 3000 neolithic bronze age and iron age Ireland

and Ireland up to 800 Society laws church and politics are all analysed separately as are architecture literature manuscripts language coins and music The volume is brought up to 1166 with chapters amongst others on the Vikings Ireland and its neighbours and opposition to the High Kings A final chapter moves further on in time examining Latin learning and literature in Ireland to 1500 Life in Early Medieval Wales Nancy Edwards,2023 The period AD300 1050 spanning the collapse of Roman rule to the coming of the Normans was formative in the development of Wales This book uses archaeology and other evidence to uncover how people lived in late Roman and early medieval Wales and how their lives changed over time as well as drawing comparisons with Britain and the wider world **Between earth and heaven** Johanna Kramer,2016-05-16 Between earth and heaven examines the teaching of the theology of Christ s ascension in Anglo Saxon literature offering the only comprehensive examination of how patristic ascension theology is transmitted adapted and taught to Anglo Saxon audiences This book argues that Anglo Saxon authors recognise the Ascension as fundamentally liminal in nature as concerned with crossing boundaries and inhabiting dual states In their teaching authors convert abstract theology into concrete motifs reflecting this liminality such as the gates of heaven and Christ s footprints By examining a range of liminal imagery Between earth and heaven demonstrates the consistent sophistication and unity of Ascension theology in such diverse sources as Latin and Old English homilies religious poetry liturgical practices and lay popular beliefs and rituals This study not only refines our evaluation of Anglo Saxon authors knowledge of patristic theology and their process of source adaptation but also offers a new understanding of the methods of religious instruction and uses of religious texts in Anglo Saxon England capturing their lived significance to contemporary audiences *Irish and Scottish Art, c. 900-1900* Heather Pulliam,Rachel Moss,2024-11-30 As evidenced by the famed Book of Kells and monumental high crosses Scotland and Ireland have long shared a distinctive artistic tradition The story of how this tradition developed and flourished for another millennium through survival adaptation and revival is less well known Some works were preserved and repaired as relics objects of devotion believed to hold magical powers Respect for the past saw the creation of new artefacts through the assemblage of older parts or the creation of fakes and facsimiles Meanings and values attached to these objects and to places with strong early Christian associations changed over time but their Celtic and or Gaelic character has remained to the forefront of Scottish and Irish national expression Exploring themes of authenticity imitation heritage conservation and nationalism these interdisciplinary essays draw attention to a variety of understudied artworks and illustrate the enduring link that exists between Scottish and Irish cultures **The Church in Anglo-Saxon Society** John Blair,2005-01-20 From the impact of the first monasteries in the seventh century to the emergence of the local parochial system five hundred years later the Church was a force for change in Anglo Saxon society It shaped culture and ideas social and economic behaviour and the organization of landscape and settlement This book traces how the widespread foundation of monastic sites minsters during c 670 730 gave the recently pagan English new ways of living of exploiting their resources and of absorbing European

culture as well as opening new spiritual and intellectual horizons Through the era of Viking wars and the tenth century reconstruction of political and economic life the minsters gradually lost their wealth their independence and their role as sites of high culture but grew in stature as foci of local society and eventually towns After 950 with the increasing prominence of manors manor houses and village communities a new and much larger category of small churches were founded endowed and rebuilt the parish churches of the emergent eleventh and twelfth century local parochial system In this innovative study John Blair brings together written topographical and archaeological evidence to build a multi dimensional picture of what local churches and local communities meant to each other in early England **English Medieval Shrines** John Crook, 2011

The cult of saints is one of the most fascinating manifestations of medieval piety It was intensely physical saints were believed to be present in the bodily remains that they had left on earth Medieval shrines were created in order to protect these relics and yet to show off their spiritual worth at the same time allowing pilgrims limited access to them English Medieval Shrines traces the development of such structures from the earliest cult activities at saintly tombs in the late Roman empire through Merovingian Gaul and the Carolingian Empire via Anglo Saxon England to the great shrines of the fourteenth and fifteenth centuries The greater part of the book is a definitive exploration on a basis that is at once thematic and chronological of the major saints cults of medieval England from the Norman Conquest to the Reformation These include the famous cults of St Cuthbert St Swithun and St Thomas Becket and lesser known figures such as St Eanswyth of Folkestone or St Ecgwine of Evesham John Crook an independent architectural historian archaeological consultant and photographer is the foremost authority on English shrines He has published numerous books and papers on the cult of saints
