## **Studies In Late Mediaeval Italian Art:**

**Studies in Late Medieval Italian Art** John White, 1984 In this second volume of Professor White's studies the emphasis shifts to Italian art in the thirteenth and fourteenth centuries and the major figures who were responsible for the decisive changes in painting and sculpture that were to lead on to the Renaissance Here again however there is the same concern with the actual monuments The author devotes two major studies to the reconstruction of the original appearance of Duccio's Maesta and of Nicola Pisano's Perugia Fountain An important new study of the physical evidence for Cimabue's work at Assisi shows the value of an understanding of the working processes involved there This conviction that the starting point in a thorough investigation into the original appearance or development of any work of art lies in the observation of the physical evidence is central to Professor White's approach whether this may be the arrangement of panels on a polyptych or the scrutiny of giornate on a painted ceiling

*Late Medieval Italian Art and Its Contexts* Joanna Cannon, 2022 Joanna Cannon's scholarship and teaching have helped shape the historical study of thirteenth and fourteenth century Italian art this essay collection by her former students is a tribute to her work The essays collected here form a tribute to Joanna Cannon whose scholarship and teaching have done so much to shape the historical study of thirteenth and fourteenth century Italian art Her teaching lies at the heart of this book as its chapters are all written by those who gained their doctorates under her supervision The reach of her interests and expertise is also reflected in its range of subjects The book is unified by its concentration on Italian art history and material culture spanning the thirteenth to the fifteenth centuries but within that scope the individual essays focus on an impressive variety of subjects across many media including panel painting wall painting architecture sculpture metalwork manuscripts and gilded glass Ranging across Italy from Bologna to Siena to Assisi to Florence they address key themes in the field such as artistic patronage sainthood and sanctity the visual culture of the mendicant orders devotional practice and civic religion Some essays bring fresh approaches to familiar material Ambrogio Lorenzetti's Saint Nicholas panels the frescoes in Siena's Palazzo Pubblico Simone Martini's Holy Family while others illuminate objects and images that are less well known the central panel of the Santa Chiara triptych in Trieste and the statue of Saint Francis in San Francesco in Siena As a collection they combine to make an important contribution to the study of Early Italian art seeking thereby to echo the extraordinary contribution of Joanna Cannon's own work to that field

Mary of Mercy in Medieval and Renaissance Italian Art Katherine T. Brown, 2017-07-05 Mater Misericordiae Mother of Mercy emerged as one of the most prolific subjects in central Italian art from the late thirteenth through the sixteenth centuries With iconographic origins in Marian cult relics brought from Palestine to Constantinople in the fifth century the amalgam of attributes coalesced in Armenian Cilicia then morphed as it spread to Cyprus An early concept of Mary of Mercy the Virgin standing with outstretched arms and a wide mantle under which kneel or stand devotees entered the Italian peninsula at the ports of Bari and Venice during the Crusades eventually converging in central Italy The mendicant orders adopted the image

as an easily recognizable symbol for mercy and aided in its diffusion In this study the author's primary goals are to explore the iconographic origins of the Madonna della Misericordia as a devotional image by identifying and analyzing key attributes to consider circumstances for its eventual overlapping function as a secular symbol used by lay confraternities and to discuss its diaspora throughout the Italian peninsula Western Europe and eastward into Russia and Ukraine With over 100 illustrations the book presents an array of works of art as examples including altarpieces frescoes oil paintings manuscript illuminations metallurgy glazed terracotta stained glass architectural relief sculpture and processional banners *Progress of Mediaeval and Renaissance Studies in the United States and Canada*, 1924 Each number contains a List of medievalists and their publications and a List of doctoral dissertations Nos 6-10 include also the report of the academy The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *New Saints in Late-Mediaeval Venice, 1200-1500* Karen E. McCluskey, 2019-10-08 This book focuses on the comparatively unknown cults of new saints in late mediaeval Venice These new saints were near contemporary citizens who were venerated by their compatriots without official sanction from the papacy In doing so the book uncovers a sub culture of religious expression that has been overlooked in previous scholarship The study highlights a myriad of hagiographical materials both visual and textual created to honour these new saints by members of four different Venetian communities The Republican government the monastic orders mostly Benedictine the mendicant orders and local parishes By scrutinising the hagiographic portraits described in painted vita panels written vitae passiones votive images sermons and sepulchre monuments as well as archival and historical resources the book identifies a specifically Venetian typology of sanctity tied to the idiosyncrasies of the city's site and history By focusing explicitly on local typological traits the book produces an intimate and complex portrait of Venetian society and offers a framework for exploring the lived religious experience of late mediaeval societies beyond the lagoon As a result it will be of keen interest to scholars of Venice lived religion hagiography mediaeval history and visual culture **Art as Politics in Late Medieval and Renaissance Siena** Timothy B. Smith, 2017-07-05 In *Art as Politics in Late Medieval and Renaissance Siena* contributors explore the evolving relationship between image and politics in Siena from the time of the city state's defeat of Florence at the Battle of Montaperti in 1260 to the end of the Sienese Republic in 1550 Engaging issues of the politicization of art in Sienese painting sculpture architecture and urban design the volume challenges the still prevalent myth of Siena's cultural and artistic conservatism after the mid fourteenth century Clearly establishing uniquely Sienese artistic agendas and vocabulary these essays broaden our understanding of the intersection of art politics and

religion in Siena by revisiting its medieval origins and exploring its continuing role in the Renaissance

Popular Opinion in the Middle Ages Charles W. Connell, 2016-10-24 This book provides a needed overview of the scholarship on medieval public culture and popular movements such as the Peace of God heresy and the crusades and illustrates how a changing sense of the populus the importance of publics and public opinion and public spheres was influential in the evolution of medieval cultures Public opinion did play an important role even in the Middle Ages it did not wait until the era of modern history to do so Using modern research on such aspects of culture as textual communities large and small publics cults crowds rumor malediction gossip dispute resolution and the European popular revolution the author focuses on the Peace of God movement the era of Church reform in the tenth and eleventh centuries the rise and combat of heresy the crusades and the works of fourteenth century political thinkers such as Marsiglio of Padua regarding the role of the populus as the basis for the analysis The pattern of changes reflected in this study argues that just as in the modern world the simplistic idea of the public was a phantom Instead there were publics large and small that were influential in shaping the cultures of the era under review

**Touching the Passion — Seeing Late Medieval Altarpieces through the Eyes of Faith** Donna L. Sadler, 2018-03-06 In *Touching the Passion Seeing Late Medieval Altarpieces through the Eyes of Faith* Donna Sadler explores the manner in which worshipers responded to the carved and polychromed retables adorning the altars of their parish churches Framed by the symbolic death of Christ re enacted during the Mass the historical account of the Passion on the retable situated Christ s suffering and triumph over death in the present The dramatic gestures contemporary garb and wealth of anecdotal detail on the altarpiece invited the viewer s absorption in the narrative As in the

Imitatio Christi the worshiper imaginatively projected himself into the story like a child before a dollhouse The five senses the sculptural medium the small scale and the rhetoric of memory foster this immersion      **Orders and Hierarchies in Late**

**Late-Medieval Religious Drama and Art** Gabriella Mazzon,2018-05-23 Pathos as Communicative Strategy in Late Medieval Religious Drama and Art explores the strategies employed to trigger emotional responses in late medieval dramatic texts from several Western European traditions and juxtaposes these texts with artistic productions from the same areas with an emphasis on Britain The aim is to unravel the mechanisms through which pathos was produced and employed mainly through the representation of pain and suffering with mainly religious but also political aims The novelty of the book resides in its specific linguistic perspective which highlights the recurrent use of words structures and dialogic patterns in drama to reinforce messages on the salvific value of suffering in synergy with visual messages produced in the same cultural milieu

The Viewer and the Printed Image in Late Medieval Europe David S. Areford,2017-07-05 Structured around in depth and interconnected case studies and driven by a methodology of material contextual and iconographic analysis this book argues that early European single sheet prints in both the north and south are best understood as highly accessible objects shaped and framed by individual viewers Author David Areford offers a synthetic historical narrative of early prints that stresses their unusual material nature as well as their accessibility to a variety of viewers both lay and monastic This volume represents a shift in the study of the early printed image one that mirrors the widespread movement in art history away from issues of production style and the artist toward issues of reception function and the viewer Areford s approach is intensely grounded in the object especially the unacknowledged material complexity of the print as a portable malleable and accessible image that depended on a response that was not only visual but often physical emotional and psychological Recognizing that early prints were not primarily designed for aesthetic appreciation the author analyzes how their meanings stemmed from specific functions involving private devotion protection indulgences the cult of saints pilgrimage exorcism the art of memory and anti Semitic propaganda Although the medium s first century was clearly transitional and experimental Areford explores how its potential to impact viewers in new ways both positive and negative was quickly realized      Studies in the Imagery of
