**God's Inerrant Word** John Warwick Montgomery, 2018-01-27 Editor John Warwick Montgomery b 1931 is one of the major philosophical apologists of the 20th century He is also a trained lawyer which influenced his historical legal approach to Christian apologetics He is perhaps best known as a writer for his books History and Christianity How Do We Know There is a God Faith Founded on Fact Evidence for Faith Where is History Going The Shape of the Past The Quest for Noah s Ark as well as for his debates with the infamous atheist Madalyn Murray O Hair 1967 with Joseph Fletcher reprinted in Situation Ethics True or False with Death of God theologian Thomas Altizer reprinted in The Suicide of Christian Theology R C Sproul wrote in the Foreword to this 1974 book The essays in this book were written as research articles for delivery at the Conference on the Inspiration and Authority of Scripture in the fall of 19763 The Conference was sponsored by the Ligonier Valley Study Center a facility developed to make the resources of Christian scholarship available to today s laymen and pastors The eleven essays comprising the text of this book were all publicly delivered at the Ligonier Conference Pg 9 Essays are included by authors such as Montgomery J I Packer John Gerstner Clark

Pinnock John Frame Sproul etc Montgomery states in his own Introduction that The Ligonier Conference was designed specifically to serve as an adrenal injection for the faint of heart who question the place of inerrancy in historic Christian theology or doubt that modern research is compatible with an errorless Bible The essayists may differ from each other in a number of respects but they hold in common the historic Christian confidence in an entirely trustworthy Bible They would impart that confidence to the readers of this volume Pg 14 Montgomery states in his first essay Embedded in the liberal evangelical s attempt to preserve an infallible Bible in spite of errors is a further and even more serious fallacy We invariably find that the non revelational areas are the areas of science and history the areas of prime testability The result if one carries this line of reasoning to its logical conclusion is Where the Bible errs it is non revelatory when it is capable of being tested it is precariously revelatory only until proven wrong and where it cannot be tested it always remains revelatory and inerrant This is just like believers in sea serpents claiming that they appear only when no scientists are present Pg 31 32 Pinnock observes If we say as Vatican II does that inspiration guarantees only those truths necessary for salvation the question arises how much we need to know to be saved The way is open for someone to come along with the opinion that he need know very little Very little then is inerrantly taught in Scripture Pg 150 Sproul says in an essay Jesus understanding of the Old Testament Scriptures casts a shadow over his own sinlessness Jesus does not have to be omniscient to be infallible But he must be infallible to be sinless That is to say if Jesus claiming to be sent from God and invoking the authority of God in his teaching errs in that teaching he is guilty of sin The one who claims to be the truth cannot err and be consistent with that claim Anyone claiming absolute authority in his teaching must be absolutely trustworthy in what he teaches in order to merit absolute authority In light of his claims Jesus cannot plead invincible ignorance as an excuse for error Pg 253 These essays will be of great interest to any Christians studying the doctrine of biblical inerrancy by Steven H Propp Top 100 Reviewer

**Describing the Hand of God** Robert Brennan, 2016-04-28. The question of divine agency in the world remains one important unresolved underlying obstacle in the dialogue between theology and science. Modern notions of divine agency are shown to have developed out of the interaction of three factors in early modernity. Two are well known: late medieval perfect being theology and the early modern application of the notion of the two books of God's revelation to the understanding of the natural order. It is argued the third is the early modern appropriation of the Augustinian doctrine of inspiration. This assumes the soul's existence and a particular description of divine agency in humans, which became more generally applied to divine agency in nature. Whereas Newton explicitly draws the parallel between divine agency in humans and that in nature, Darwin rejects its supposed perfection, and Huxley raises serious questions regarding the traditional understanding of the soul. This book offers an alternative incarnational description of divine agency, freeing consideration of divine agency from being dependent on resolving the complex issues of perfect being theology and the existence of the soul. In conversation with Barth's pneumatology, this proposal is shown to remain theologically coherent and plausible while resolving or avoiding a range of known difficulties in the science-theology dialogue.

**Augustine and Nicene Theology** Rene Barnes, 2024-01-25.

In this collection of essays, Michel Rene Barnes offers a new reading of the character and development of Latin Trinitarian theology in the fourth and fifth centuries. Although Augustine is the principal focus, he is treated here as an inheritor of an earlier Latin tradition. Antecedent theologians, most notably including Marius Victorinus, are given a revised interpretation, and Augustine himself is explored from multiple angles. At every turn, developments in Augustine's thought are shown to be a response to the anti-Nicene theologies of the period. Most significantly, this view decries the modern systematic tendency to engage with Augustine only through a simplified version of late nineteenth-century categories. This accusation invites the question of how far modern theology can actually engage with Patristic theology at all, but Barnes offers a way forward.

**Augustine and Tradition** David G. Hunter, Jonathan P. Yates, 2021-11-23. An indispensable resource for those looking to understand Augustine's place in religious and cultural heritage. Augustine towers over Western life, literature, and culture, both sacred and secular. His ideas permeate conceptions of the self from birth to death and have cast a long shadow over

subsequent Christian thought But as much as tradition has sprung from Augustinian roots so was Augustine a product of and interlocutor with traditions that preceded and ran contemporary to his life This extensive volume examines and evaluates Augustine as both a receiver and a source of tradition The contributors all distinguished Augustinian scholars influenced by J Patout Burns and interested in furthering his intellectual legacy survey Augustine s life and writings in the context of North African tradition philosophical and literary traditions of antiquity the Greek patristic tradition and the tradition of Augustine s Latin contemporaries These various pieces when assembled tell a comprehensive story of Augustine s significance both then and now Contributors Alden Bass Michael Cameron John C Cavadini Thomas Clemmons Stephen A Cooper Theodore de Bruyn Mark DelCogliano Geoffrey D Dunn John Peter Kenney Brian Matz Andrew McGowan William Tabbernee Joseph W Trigg Dennis Trout and James R Wetzel     *Reorienting Rhetoric* John D. O'Banion,2010-11-01     *Augustine's City of God* Gerard O'Daly,2020-10-22 The most influential of Augustine s works City of God played a decisive role in the formation of the Christian West Augustine wrote City of God in the aftermath of the Gothic sack of Rome in AD 410 at a time of rapid Christianization across the Roman Empire Gerard O Daly s book remains the most comprehensive modern guide in any language to this seminal work of European literature In this new and extensively revised edition O Daly takes into account the abundant scholarship on Augustine in the twenty years since its first publication while retaining the book s focus on Augustine as a writer in the Latin tradition He explores the many themes of City of God which include cosmology political thought anti pagan polemic Christian apologetic theory of history and biblical interpretation This guide therefore is about a single literary masterpiece yet at the same time it surveys Augustine s developing views through the whole range of his thought As well as a running commentary on each part of the work O Daly provides chapters on the themes of the work a bibliographical guide to research on its reception translations of any Greek and Latin texts discussed and detailed suggestions for further reading     **Iustitia Dei** Alister E. McGrath,2020-02-13 A substantially rewritten edition of a work that has already established itself as the leading authority in its field     *Tertullian's Theology of Divine Power* Roy Kearsley,1998 This book traces Tertullians handling of key doctrines and draws implications for some of todays crucial issues Trinitarian faith the status of creation gender authority and power abuse It takes the agenda of early Christian thought seriously and finds it profoundly relevant today
