Studies in the Economic History of the Pacific Rim Sally Mae Miller,1998      *Studies in the Economic History of the Pacific Rim* Sally M. Miller,A. J. H. Latham,Dennis Owen Flynn,1998 Trade across the Pacific will become one of the dominant forces in the economy of the next century This book covers its history over four centuries and subjects as diverse as trade with Hong Kong and British overseas banking      **Studies in the Economic History of the Pacific Rim** Dennis O. Flynn,A.J.H. Latham,Sally M. Miller,2002-09-11 Trade across the Pacific will be one of the dominant forces in the economy of the next century This collection reflects the birth of Pacific Rim history until recently largely neglected It addresses the development of the Pacific Rim over four centuries combining broad historical syntheses with a range of essays on specific topics from trade with Hong Kong to British overseas banking It will form a major contribution to this rapidly expanding new field      **Coming Full Circle** Eric Jones,Lionel Frost,Colin White,1993-11-25 Analyzing the long term historical development of the major economies around the Pacific Rim in language aimed at the general reader Coming Full Circle throws light on the most important relationships in the region today as well as on the prospects for future economic development and political cooperation The authors begin with a critique of the popular notion of a Pacific region paying particular attention to the influence of geography and environment on population distribution and patterns of regional economic activity They address the diverse indigenous development of pre European times later periods of direct European influence and the evolution of modern day urban societies in the region Finally they track the rise of the United States and Japan as the dominant regional economic powers and forecast changes we can expect to see in the years ahead noting in particular the increasing importance of China      *The Pacific in the Age of Early Industrialization* Kenneth Pomeranz,2017-05-15 The essays selected for this volume show how the Pacific rapidly became part of an industrializing world Its raw materials notably rubber and copper were critical some of its handicraft industries were devastated by mechanized competition others survived and adapted contributing to distinctive patterns of industrialization that made Japan a new center of power and also laid the groundwork for later growth in Taiwan Korea and coastal China The Pacific coast of the Americas was also first drawn into an industrial world largely as an exporter of raw materials but North and South diverged rapidly portending futures even more different than those of Northeast and Southeast Asia By the 1930s when the uneven effects of industrialization would have much to do with plunging the Pacific into war one can already glimpse in outline the structural bases for many of the region s contemporary characteristics All this is set in context in the important introduction by Kenneth Pomeranz

Coming Full Circle Eric Jones,2019-03-04 Analyzing the long term historical development of the major economies around the Pacific Rim in language aimed at the general reader Coming Full Circle throws light on the most important relationships in the region today as well as on the prospects for future economic development and political cooperation The authors begin with a critique of the popular notion of an integrated Pacific region paying particular attention to the influence of geography

and environment on population distribution and patterns of regional economic activity Their study covers the diverse indigenous development of pre European times later periods of direct European influence and the evolution of modern day urban societies in the region Finally they track the rise of the United States and Japan as the dominant regional economic powers and forecast changes we can expect to see in the years ahead noting in particular the increasing importance of China

**Agriculture and Rural Connections in the Pacific** Lei Guang, 2017-05-15 Agriculture and Rural Connections in the Pacific brings together key studies from across several disciplines to examine the history of trans Pacific rural and agricultural connections and to show an agriculturally oriented Pacific World in the making since the 1500s Historical globalization is commonly understood as a process that is propelled by industry or commerce yet the seeds of global integration literally as well as metaphorically were sown much earlier when crops and plants dispersed agricultural systems proliferated and rural people migrated across oceans One goal of this volume is to demonstrate that the historical processes of globalization contained an agrarian dimension in which sub national and national spaces were shaped in part through the influence of forces that originated in distant lands Social and economic trends emanating from outside local territories had large impacts on demographic change choices of agrarian systems and the cropping patterns in many domestic settings A second goal is to encourage readers to abandon the traditional Euro centric view of events that shaped the Pacific region The modern history of the Pacific World was undoubtedly shaped by Western imperialism colonialism and European trade and migration but the present volume seeks to balance the interpretation of those forces with an emphasis on the increasing intensity of trans Pacific interactions through rural labor migration and agricultural production Exchange Rate Regimes

in East Asia Masahiro Kawai, Gordon de Brouwer, 2004-08-02 There is a deepening debate in East Asia about the prospects for common exchange rate arrangements even including the formation of a common currency in the longer term This raises a complex set of issues and this volume provides a detailed yet comprehensive examination of key issues in the debate It looks for example at the nature and extent of linkages in East Asia in terms of trade and foreign investment finance labour and consumption investment and output It examines how the exchange rate affects various aspects of economies And it critically analyzes various proposals for currency regimes for the region including floating exchange rates basket pegs and currency union

Impediments to Trade in Services Christopher Findlay, Tony Warren, 2013-03-01 First Published in 2004 The economic impact of barriers to world trade and investment in services has been thought impossible to measure As a consequence significant global policy initiatives such as the General Agreement on Trade in Services have been concluded in an information void This book challenges the view that impediments to services trade cannot be quantified detailing how these barriers can be measured and their significance estimated The book contains studies measuring impediments to trade and investment in a variety of sectors including telecommunications finance shipping education and air transport The authors explain how the measures were calculated and show how the results could be used in sophisticated economic models The

final part of the book looks at current issues in services negotiations in the World Trade Organisation and the Asia Pacific Economic Cooperation forum The measurements and methods detailed in this work have clear relevance to policymaking on services liberalisation and could be used by both international and regional organisations in services negotiations This work will consequently prove to be an extremely valuable addition to the literature of the field *Corporatism and Korean Capitalism* Dennis L. McNamara, 2012-10-02 Corporatism and Korean Capitalism employs corporatist theory to examine the Korean experience of state business ties It includes theoretical chapters on Asian and Korean corporatism case studies of agriculture industry and industrial relations and an introduction to comparative corporatism It helps to push the study of Korean political and economic change from description on to theoretical analysis This volume will challenge researchers and students of Asian studies economics and politics to extend and refine their understanding of both corporatism and Korea Moreover this book offers a guide to policymakers confounded by the curious mix of collusion and competition in Korean political economy **Japan's War Economy** Erich Pauer, 2002-01-31 This book explores the substantial and dynamic innovations of the wartime era identifying this period as the most influential for Japan's post war economic structure Erich Pauer and a team of leading Japanese and German scholars discuss important aspects of the Japanese wartime economy including ideological background the Japanese planned economy technical mobilization women and the war economy socio economic change food shortages the black market and economic crime national policy companies financial reforms Risk Management and Innovation in Japan, Britain and the USA Ruth Taplin, 2005-11-16 Assessing and managing risk is vitally important and is increasingly studied in a range of areas including politics and international relations finance and insurance and innovation and the valuing of intangible assets such as patents and intellectual property The degree to which innovation is encouraged or otherwise a key factor for many businesses depends in part on the attitude towards risk in the context in which it takes place Taplin considers the different attitudes towards risk and innovation and the different ways in which risk and innovation are handled in Japan Britain the USA Providing a broad and detailed examination of the subject she discusses topics including risk management standards managing risk in marketing the insurance industry patents and in venture capital and of how risk management in organizations has evolved China and the Birth of Globalization in the 16th Century Dennis O. Flynn, Arturo Giráldez, 2024-10-28 Including 11 essays published over the last 15 years this volume by Dennis O Flynn and Arturo Giráldez concerns the origins and early development of globalization It opens with their 1995 Silver Spoon essay and a theoretical essay published in 2002 Subsequent sections deal with Pacific Ocean exchanges interconnections between the Spanish Ottoman Japanese and Chinese empires and the necessity of multidisciplinary approaches to global history The volume follows the evolution of the authors thinking concerning the central role of China in the global silver trade as well as interrelations among silver and non silver markets Research before 2002 paved the way for development of a coherent Birth of Globalization narrative that portrays economic factors in the context of powerful

epidemiological ecological demographic and cultural forces In the final essay Flynn and Gir ldez argue for incorporating the work of all academic disciplines when attempting to understand the history of globalization advocating an inclusive historical data base which recognizes contextual realities and an inductive process of reasoning      **Oceanic Histories** David Armitage, Alison Bashford, Sujit Sivasundaram, 2018 Freshly presents world history through its oceans and seas in uniquely wide ranging original chapters by leading experts in their fields      **State**, 1994      **Newsletter** United States. Department of State, 1994      **Japan and the Pacific, 1540-1920** Matsuda Koichiro, 2017-05-15 This volume seeks to capture the rich array of images that define Japan s encounters with the Pacific Ocean Contemporary Japanese most readily associate Pacific with the devastating war that their country fought over a half century ago The ensuing occupation realized a situation that this people had striven to avoid ever since the Portuguese first arrived in 1543 their subjugation by a foreign power But the Pacific Ocean also extended Japan s overseas contacts From antiquity Japanese and their neighbours crossed it to trade ideas and products From the mid 16th century it carried people from more distant lands Europe and America and thus expanded and diversified Japan s cultural and economic exchange networks From the late 19th century it provided the highway to transport Japanese imperial expansion in Northeast Asia and later to encourage overseas migration into the Pacific and the Americas The studies selected for inclusion in this volume along with the introduction explain how the Pacific Ocean thus nurtured images of both threat and opportunity to the island nation that it surrounds      **British Imperial Strategies in the Pacific, 1750-1900** Jane Samson, 2021-02-28 The focus of this volume is Britain s trans Pacific empire This began with haphazard challenges to Spanish dominion but by the end of the 18th century the British had established a colony in Australia and had gone to the brink of war with Spain to establish trading rights in the north Pacific These rights led to formal colonies in Vancouver Island and British Columbia when Britain sought to maintain a north Pacific presence despite American expansionism In the later 19th century the international scramble for the Pacific resulted in new British colonies and protectorates in the Pacific islands The result was a complex imperial presence created from a variety of motives and circumstances The essays selected here take account of the wide range of economic political and cultural factors which prompted British expansion creating tension in Britain s imperial identity in the Pacific and leaving Pacific peoples with a complicated and challenging legacy Along with the important new introduction they provide a basis for the reassessment of British imperialism in the Pacific region      **Urbanization and the Pacific World, 1500-1900** Lionel Frost, 2017-05-15 Between 1500 and 1900 there was a constant growth in the numbers of large cities and networks of smaller towns throughout the Pacific world in which traders and primary producers did business The essays in Urbanization and the Pacific World explore the increasingly complex economic relationships that connected cities in and around the Pacific world to each other and pay particular attention to the impact that growing cities had on the economies of their hinterlands The volume also contains articles that examine the problems that city growth created and the ways in which people were able to cope

with them Along with the new introduction the essays cover all of the regions of the Pacific world in which city growth took place and will allow the reader to consider a wide range of common and contrasting urban experiences      **Pathways to the Present** Mansel G. Blackford, 2007-02-28 Ranging from the Hawaiian Archipelago to the Aleutian Islands from Silicon Valley to Guam Pathways to the Present is a thoroughly researched and concisely argued account of economic and environmental change in the postwar American Pacific Following a brief survey of the history of the Pacific the author takes the Hawaiian Islands as the center of American activities in the region and looks at interactions among native Hawaiian developmental military and environmental issues in the archipelago after World War II He then turns to land and water use problems that have intersected with more nebulous quality of life concerns to generate policy controversies in the Seattle region and the San Francisco Bay area especially Silicon Valley Economic expansion and environmentalism in Alaska are examined through the lens of changes occurring along the Aleutians From there the study considers Hiroshima after its destruction by the atomic bomb in 1945 looking at residents desire to combine urban planning concepts The author investigates the effort to remake Hiroshima as a high tech city in the 1990s an attempt inspired by the perceived success of Silicon Valley and postwar planning on Okinawa where American influences were particularly strong The final chapter takes into account issues raised on Guam regarding the growth of tourism and the use of the island for military purposes and links these to developments in the Philippines to the west and American Samoa to the south
