

CAMBRIDGE CLASSICAL STUDIES

# Studies in the Language of Homer

By G. P. Shipp

*These studies examine in as much detail as possible the development of the language of the Iliad in some of its typical features, with careful attention to the spoken dialects involved and to the influence of metre. Mr Shipp has also put forward those views on the development of the poem itself which were suggested to him by these linguistic problems.*

*The book contains three main studies: of the suffix -φι in Homer, the language of similes in the Iliad, and contraction in the Iliad. There are briefer studies of Homer's use of the short forms of prepositions and the masculine and neuter stem of the perfect active.*
