**Introduction to Altaic Philology** Igor de Rachewiltz, Volker Rybatzki, 2010-05-31 There are many excellent books dealing with Old Turkic Preclassical and Classical Mongolian and Literary Manchu individually but none providing in a single volume a comprehensive survey of all the three major Altaic languages The present volume attempts to fill this gap at the same time it reviews also the much debated Altaic Hypothesis The book is intended for use by students at university level as well as by general readers with a basic knowledge of linguistics The 39 language texts analysed in the

volume are discussed within their historical and cultural context thus vastly enlarging the scope of the purely linguistic investigation

**The Turkic Languages and Peoples** Karl Heinrich Menges,1995

**Scholars' Guide to Humanities and Social Sciences in the Soviet Union and the Baltic States** Tigran Martirosyan,Silvia Maretti,S. Frederick Starr,2019-11-21

In the years since the first edition of the Guide was published the research institutions of the academies of sciences of the USSR and the republics have undergone several sometimes radical reorganizations and reaffiliations This guide to academy institutions supplies names addresses and historical research and organizational profiles for each institution with summary information on staffing current projects special facilities and libraries The end of the Cold War has brought with it many changes of attitude and policy in the political arena however nowhere has change been so emotionally charged as in the area of politically based emigration Refugee policy is the driving force behind many of today s headlines influencing both foreign and domestic policy In *Desperate Crossings* authors Norman L and Naomi Flink Zucker chronicle and analyze the phenomenon of mass escape that began with the Haitians but exploded into the American consciousness in the spring of 1980 with the Mariel boatlift and the subsequent mass exodus from Central America and was most recently manifested in the Haitian and Cuban exoduses of 1994 In a compelling and carefully documented narrative they identify the troika of interests foreign policy domestic pressures and costs that have controlled and determined the American response to refugees since before the Second World War continuing until today *Desperate Crossings* concludes by proposing a comprehensive and politically palatable approach to future refugee flows both in our hemisphere and for the world community at large including Europe and Asia The authors suggest how by changing the course of its refugee policies and programs the United States can better respond to both the needs of refugees and the demands of its citizens

**The Languages and Linguistics of Northern Asia** Edward Vajda,2024-03-04 The Languages and Linguistics of Northern Asia A Comprehensive Guide surveys the

indigenous languages of Asia's North Pacific Rim Siberia and adjacent portions of Inner Eurasia. It provides in depth descriptions of every first order family of this vast area with special emphasis on family internal subdivision and dialectal differentiation. Individual chapters trace the origins and expansion of the region's widespread pastoral based language groups as well as the microfamilies and isolates spoken by northern Asia's surviving hunter gatherers. Separate chapters cover sparsely recorded languages of early Inner Eurasia that defy precise classification and the various pidgins and creoles spread over the region. Other chapters investigate the typology of salient linguistic features of the area including vowel harmony noun inflection verb indexing also known as agreement complex morphologies and the syntax of complex predicates. Issues relating to genealogical ancestry areal contact and language endangerment receive equal attention. With historical connections both to Eurasia's pastoral based empires as well as to ancient population movements into the Americas the steppes taiga forests tundra and coastal fringes of northern Asia offer a complex and fascinating object of linguistic investigation.

**Embodiment in Cross-Linguistic Studies**, 2021-11-29 The volume explores the body part eye as a source domain in conceptualization and a vehicle of embodied cognition. It includes in depth case studies of languages situated in different cultural contexts in Europe Asia Africa America and Oceania. It also provides insights into cross linguistic comparison of conceptualization patterns and semantic extension of the term eye on various target domains. The contributions in the volume present a range of cultural models associated with the visual organ which take into account socio cultural factors and language usage practices. The book offers new material and novel analyses within the subject of polysemy of body part terms. It also adds to studies on metaphor metonymy and cultural conceptualizations within a cognitive linguistic paradigm.
