Studs And Nogs:

Studs and Nogs David Foster, 1999 David Foster Susan Lever, 2008 David Foster is the most original challenging contradictory risk taking and infuriating Australian novelist of his generation To date he has published twelve novels three collections of novellas and short stories two books of poetry and a collection of essays with several produced radio plays Foster writes in an Australian tradition of idiosyncratic satire and comedy that may be traced through the work of Joseph Furphy Miles Franklin Xavier Herbert and David Ireland His novels are the most wide ranging and fearless of the Australian novels that have contributed to the late twentieth century re examination of Western ideologies and the literary forms in which they are expressed In this first critical study of David Foster s works Professor Susan Lever steers us into penetrating the mysteries of Foster s fiction and provides guidance to readers willing to approach them The book examines the contradictory nature of his commitments and interests as expressed mainly in his novels Each of his works of fiction and poetry in the order of publication except for *The Adventures of Christian Rosy Cross* and *The Pale Blue Crochet Coathanger* Cover which are discussed with similar novels are discussed The development of Foster s philosophical ideas and technique as a novelist over the 35 years of his writing life to date is followed The book also examines Foster s letters to Geoffrey Dutton early in his career his interviews and essays provide some of the background to these novels The book also furnishes a sense of the Australian context for his work A brief biography of Foster s early life and a discussion of his approach to satire is also included *The Taken Land (Riro Te Whenua)* Robin O'Reilly, 2012-03-06 In South Auckland New Zealand Mannie and his wife Jo have finally achieved stability Mannies successful job as a carpenter gives the couple hopes for a future home and children But its all about to come tumbling down When Wall Street crashes in 2005 the New Zealand economy plunges into a recession Mannie loses his job and is forced to apply for the unemployment benefit to survive Worse he and Jo must take in boarders in order to make the rent But Mannie soon sees his misfortune as an opportunity to reclaim land in the Tongariro National Park that belonged to his Maori tribe more than one hundred and thirty years ago Mannie persuades a small disillusioned group of young Maori into claiming sovereignty over a small block of land on the side of a mountain offering freedom and peace in protest against the government They build huts and live off the land Mannie and Jo try to find their former happiness but then tragedy strikes and Mannie suddenly finds himself in a deadly game of survival

Rethinking Wilderness and the Wild Robyn Bartel, Marty Branagan, Fiona Utey, Stephen Harris, 2020-10-29
Rethinking Wilderness and the Wild Conflict Conservation and Co existence examines the complexities surrounding the

concept of wilderness Contemporary wilderness scholarship has tended to fall into two categories the so called fortress conservation and co existence schools of thought This book contending that this polarisation has led to a silencing and concealment of alternative perspectives and lines of enquiry extends beyond these confines and in particular steers away from the dilemmas of paradise or paradox in order to advance an intellectual and policy agenda of plurality and diversity rather than of prescription and definition Drawing on case studies from Australia Aotearoa New Zealand the United States and Iceland and explorations of embodied experience creative practice philosophy and First Nations land management approaches the assembled chapters examine wilderness ideals conflicts and human nature dualities afresh and examine co existence and conservation in the Anthropocene in diverse ontological and multidisciplinary ways By demonstrating a strong commitment to respecting the knowledge and perspectives of Indigenous peoples this work delivers a more nuanced ethical and decolonising approach to issues arising from relationships with wilderness Such a collection is immediately appropriate given the political challenges and social complexities of our time and the mounting threats to life across the globe The abiding and uniting logic of the book is to offer a unique and innovative contribution to engender transformations of wilderness scholarship activism and conservation policy This text refutes the inherent privileging and exclusionary tactics of dominant modes of enquiry that too often serve to silence non human and contrary positions It reveals a multi faceted and contingent wilderness alive with agency diversity and possibility This book will be of great interest to students and scholars of conservation environmental and natural resource management Indigenous studies and environmental policy and planning It will also be of interest to practitioners policymakers and NGOs involved in conservation protected environments and environmental governance

A Dictionary of Writers and their Works Christopher Riches, Michael Cox, 2015-01-29 Over 3 200 entries An essential guide to authors and their works that focuses on the general canon of British literature from the fifteenth century to the present There is also some coverage of non fiction such as biographies memoirs and science as well as inclusion of major American and Commonwealth writers This online exclusive new edition adds 60 000 new words including over 50 new entries dealing with authors who have risen to prominence in the last five years as well as fully updating the entries that currently exist Each entry provides details of a writer s nationality and birth death dates followed by a listing of their titles arranged chronologically by date of publication

Technical Terms Used in Architecture and Building and Their Allied Trades and Subjects Augustine C. Passmore, 1904

Loft Conversions John Coutts, 2012-12-21 Pressure on space and changes in planning law mean that loft conversions are now at the forefront in the race to improve the performance of Britain's ageing housing stock. Since 1990, roof space conversions have increased UK housing capacity by more than 200 million square feet, a living area equivalent to a medium-sized city without the loss of a single square foot of greenfield land. *Loft Conversions* is the definitive technical guide to the conversion of roof spaces in single family dwellings. It brings together a wealth of practical and regulatory guidance in a form that is easy to read and comprehensively illustrated. This fully revised and updated second edition is intended primarily for architects, builders, surveyors and others professionally involved in the process of loft conversion. The insights it provides are also invaluable to self-builders and to householders wishing to achieve a deeper understanding of what a loft conversion involves.

Sustainability and Toxicity of Building Materials Emina K. Petrović, Morten Gjerde, Fabricio Chicca, Guy Marriage, 2024-02-10 Sustainability and Toxicity of Building Materials: Manufacture, Use and Disposal Stages provides a review of toxicity impacts from building materials, including the consideration of the toxicity in the extraction and manufacture of the materials and eventual dismantling and disposal. This book also offers the potential to stimulate future developments in this area, both in terms of knowledge, building and methods for future research. With the increasing emphasis on sustainable construction, it has become important to better understand the impacts of common materials. Civil and structural engineers, postgraduates, researchers, as well as architects, will find this book to be useful in selecting sustainable building materials. While many building and furnishing materials are safe to use in recent decades, some have had to be redesigned due to recognition that they contained problem chemicals like formaldehyde. Unfortunately, there is still limited understanding of the toxic impacts of many synthetic chemicals, which means that the risks in this area are not well recognized. With increasing interest in using limited resources more sustainably, definitions of what is sustainable should be expanded to move from the focus on energy and carbon impacts to also include more explicit consideration of toxicity impacts. Examines toxicity in the extraction and manufacturing of materials. Presents the short and long-term toxicity effects of natural and man-made building materials. Guides readers in selecting building materials that have a positive impact on the health of occupants and the environment.
