taking the right classes it is also about using the right skills and structures to organize and streamline your learning process. This book examines every aspect of student life taking you from the beginning of the class through your final special projects. Students are encouraged to get a planner and are taught how to use it to increase their productivity and success significantly. They are also taught how to take an active part in their education with lessons on the T zone in classrooms and on nine study skills proven effective through experience. Readers are then taught how to write and speak effectively by managing their information and organizational structures and they learn key test taking strategies and tips for managing test anxiety. This book delves into the specifics that every student needs to succeed in their academic ventures giving them the tools and the support they need to be truly successful. Check out HowExpert Guide to Study Skills now. About the Expert Sarah Fantinel has been a tutor of all ages for five years. She enjoys helping students discover their academic potential and has helped many students improve their grades and pass various standardized tests including the ACT and the teacher test. Sarah first started tutoring in college because she wanted to help her peers be successful and tutoring has allowed her to celebrate the little victories of life with her students. Holding degrees in both English and Humanities, Sarah currently lives in Arkansas with her dog and sixteen year old cat. When she is not writing or tutoring students, Sarah likes to take walks and explore new burger restaurants. HowExpert publishes quick how to guides on all topics from A to Z by everyday experts. **Brush Up Your**

Study Skills Kristen J. Amundson, 1995. This booklet offers suggestions to students on how to improve their study skills with a focus on making more efficient and effective use of their study time. Chapter 1 presents tips for identifying one's optimal study conditions and getting organized. Chapter 2 focuses on time management strategies such as finding and using time to study. Ways to make study time more effective are described in the third chapter. Chapter 4 outlines the SQ3R method which is comprised of the following stages: survey, question, read, restate, and review. Suggestions for taking good notes and ways in which parents can help their children study at home are also offered. Tips for preparing for and taking a test are offered in chapter 5 which describes how to match study techniques to one's learning style. For example, visual learners are encouraged to write lists of words and post them, make tables and timelines, and create flash cards. The use of performance portfolios as a multifaceted assessment tool is briefly discussed. In conclusion, students are encouraged to improve their study skills so that not only will they do well in school, they will continue to benefit from good habits throughout life. LMI Study Max
