Marriages and Families Naima Cherie Prince, 2008 *Marriages and Families* Lee Frank, 1999 *Marriages and Families* Nijole V. Benokraitis, 1996 This is the study guide to accompany a textbook which introduces students to the study of marriage and the family in ways to which they can easily relate Giving equal attention to people of all racial ethnic and other societal groups the author shows students that as families continue to change they have more and more choices but that those choices are also subject to often serious constraints on both the macro and micro level The author's approach encourages students to think for themselves and practical guidelines in every chapter encourage them to go beyond thought to action to become part of the effort to resolve some of the crucial issues that confront all 21st century families

Marriages and Families Nijole Vaicaitis Benokraitis, 2015 *Marriages & Families* Nijole Vaicaitis Benokraitis, Karen Secombe, 2025 Welcome to the ninth edition of *Marriages Families Changes Choices and Constraints* As in the past this text's basic premise is that up to date research and statistics can help us better understand the families in which we were raised and are forming ourselves The significance of families extends beyond personal experience however Our marriages and families affect and are affected by larger social structures such as the economy politics education religion health care systems and military organizations Scholarly Work Comprehensiveness and Readability This new edition incorporates information from almost 1 400 new books scholarly articles and reports Providing students with the most up to date material and emerging issues on family behavior enhances their pool of knowledge as one of our undergraduate sociology professors used to say and helps them make better decisions in their everyday lives *Marriages Families* offers students a comprehensive introduction to many issues facing families in the twenty first century Although written from a sociological perspective the book incorporates material from other disciplines history economics social work psychology human development family science law biology medicine and anthropology The material also encompasses women's studies and gay and lesbian studies as well as both quantitative and qualitative studies Nationally representative and longitudinal data are supplemented by insights from clinical case and observational studies Readability continues to be one of this text's most attractive features A major reason for this book's success is that it discusses theories and recent studies in ways that students find interesting As one of our students once said This is the first textbook I've had where I don't count how many more pages I have to read while I'm still on the first page In addition faculty reviewers consistently describe writing as very clear and excellent According to one reviewer for example The interesting anecdotes and quotes help to maintain the student's interest while also providing realistic examples of the topic under discussion **Marriages and Families** Nijole V. Benokraitis, 1998-11 This carefully written guide helps students better understand the material presented in the text Each chapter consists of chapter summaries definitions of key terms concepts critical thinking exercises geared to the questions in the text and a self test questions page referenced to the text **Marriages and Families** Benokraitis, Nijole Vaicaitis Benokraitis, 2015
