Publishing Romance John Markert,2016-03-15 Romance novels have attracted considerable attention since their mass market debut in 1939 yet seldom has the industry itself been analyzed Founded in 1949 Harlequin quickly gained market domination with their contemporary romances Other publishers countered with historical romances leading to the rise of bodice ripper romances in the 1970s The liberation of the romance novel s content during the 1980s brought a vitality to the market that was dubbed a revolution but the real romance revolution began in the 1990s with developments in the mainstream publishing industry and continues today This book traces the history and evolution of the romance industry covering successful and not so successful trends and describing changes in romance publishing that paved the way for the many popular subgenres flooding the market in the 21st century **Ethnopornography** Pete Sigal,Zeb Tortorici,Neil L.

Whitehead,2019-12-13 With topics that span the sixteenth century to the present in Latin America the United States Australia the Middle East and West Africa the contributors show how ethnopornography the eroticized observation of the Other for supposedly scientific or academic purposes is fundamental to the creation of race colonialism and archival and ethnographic knowledge Professional Translators in Nineteenth-Century France Susan Pickford,2024-12-26 This book shines a light on the practices and professional identities of translators in nineteenth century France speaking to the translatorial turn in translation studies which spotlights translators as active agents in the international circulation of texts The volume charts the sociocultural legal and economic developments which paved the way for the development of the professional translation industry in France in the period following the French Revolution through to the First World War Drawing on archival material from French publishers institutional archives and translators own discourses and applying historiographical methodologies Pickford explores the working conditions of professional translators during this time and the subsequent professional identities which emerged from the collective practice of translation across publishing business and government In its diachronic approach to translators practices and identities the book aims to recover the collective contributions of these translators and in turn paves the way for a new approach to translator history from below The volume
