Study In The Theory And Practice Of German Liberalism

Amel Ahmed

Study In The Theory And Practice Of German Liberalism:

A Study in the Theory and Practice of German Liberalism James F. Harris, 1984 This is the only study in English of Eduard Lasker's role in the development of German Liberalism in the 1860s, 1870s and 1880s. Through both original sources and quantitative analysis, the book assesses Lasker's importance in relation to the political movement of German Liberalism. Particularly useful to students of modern history, especially that of Germany.

Liberal Imperialism in Germany Matthew P. Fitzpatrick, 2008-09-01 In a work based on new archival press and literary sources, the author revises the picture of German imperialism as being the brainchild of a Machiavellian Bismarck or the conservative revolutionaries of the twentieth century. Instead, Fitzpatrick argues for the liberal origins of German imperialism by demonstrating the links between nationalism and expansionism in a study that surveys the half century of imperialist agitation and activity leading up to the official founding of Germany's colonial empire in 1884.

The Regime Question Amel Ahmed, 2025-07-08 Ongoing struggles over core principles of democratic governance. The regime question often boiled down to democracy or autocracy, has been central to democratic politics from the start. This has entailed not only fights over the extent of the franchise but also crucially ongoing struggles over core principles of democracy, the rules of the game. In this timely study, Amel Ahmed examines the origins and development of the regime question in Western democracies and considers the implications for regime contention today. She argues that battles over the regime question were so foundational and so enduring that they constitute a dimension of politics that polarized political opponents across the regime divide. Ahmed investigates four historical cases in the study of democratic development: the United Kingdom between the Reform Act of 1832 and World War II, 1832-1939; Imperial and Weimar era Germany, 1876-1933; the French Third Republic, 1870-1939; and the United States before World War II, 1789-1939. Focusing on legislative politics as an essential site of democratic governance and key to understanding long-term democratic endurance, she shows that when the regime question became salient, it hindered the formation of viable legislative coalitions along the left-right policy spectrum. This failure opened the door to executive encroachment, destabilizing the regime. Ahmed shows that the resurgence of the regime question today is not, as is often assumed, a break with prior trajectories of political development but a new instantiation of battles fought in previous eras.

The Man who Sold America Jeffrey L. Cruikshank, Arthur W. Schultz, 2010 Life who shaped not only an industry but also a century.

Jews and the German State Peter G. J. Pulzer, 2003 Now available in paperback, this book delivers a comprehensive one-volume account of the political history of Jews as a significant minority within Imperial Germany.

The Making of a German Constitution Margaret Barber Crosby, 2008-03-15 It is impossible to comprehend the political development of the United States, England, or France without considering the US Constitution, English common law, or the Code Napoleon, respectively. Why, then, has legalism been neglected in the study of German politics? Drawing on constitutional and legal history, this book reconsiders the creation of the German state and the nature of the bourgeois revolution. The

author reviews the critical time period of 1814 1930 to demonstrate the links between the legal code and political evolution She argues that German liberals perceived that the ends of revolution could be achieved legislatively thus Germany was able to attain a modern political and social system while avoiding or at least delaying violent movements This book provides a republican synthesis of German political development through time *Bismarck and the Development of Germany, Volume II* Otto Pflanze, 2014-07-14 The Period of Consolidation 1871 1880 Volume II opens at a time when Bismarck had become the dominant figure in German and European politics and the new German Reich the most formidable power on the continent Questions arose What new goals would the man of blood and iron now pursue What new conquests might be necessary to satiate a people steeped in the history and legends of medieval empire Pflanze offers a comprehensive treatment of the years of consolidation when in reality German unification introduced not a new era of conquest and bloodshed but a period of international order that lasted despite many crises for more than forty years Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 [The Rise of Political Anti-semitism in Germany & Austria](#) Peter G. J. Pulzer, 1988 To understand the 20th century we must know the 19th It was then that an ancient prejudice was forged into a modern political weapon How and why this happened is shown in this classic study by Peter Pulzer first published in 1964 and now reprinted with a new Introduction by the author **The People's Wars** Mark Hewitson, 2017-01-26 How did ministers journalists academics artists and subjects in the German lands imagine war during the nineteenth century The Napoleonic Wars had been the bloodiest in Europe's history directly affecting millions of Germans yet their long term consequences on individuals and on politics are still poorly understood This study makes sense of contemporaries' memories and histories of the Revolutionary and Napoleonic campaigns within a much wider context of press reportage of wars elsewhere in Europe and overseas debates about military service and the reform of Germany's armies revolution and counter revolution and individuals' experiences of violence and death in their everyday lives For the majority of the populations of the German states wars during an era of conscription were not merely a matter of history and memory rather they concerned subjects' hopes fears and expectations of the future This is the second volume of Mark Hewitson's study of the violence of war in the German lands during the nineteenth and twentieth centuries It investigates the complex relationship between military conflicts and the violent acts of individual soldiers In particular it considers the contradictory impact of pacification in civilian life and exposure to increasingly destructive technologies of killing during war time This contradiction reached its nineteenth century apogee during the wars of unification leaving an ambiguous imprint on post war discussions of military conflict *Left*

Liberals, the State, and Popular Politics in Wilhelmine Germany Alastair Thompson, 2000-11-16 Although often viewed as ineffectual intellectuals or a spent political force Left Liberals had become the third largest party in German politics by 1914 and in the German Revolution of 1918-19 it was Left Liberals who effectively wrote the new Weimar constitution This study based on extensive original research investigates Left Liberals in the locality as well as at the national level with case studies ranging from Kiel to Kattowitz Overturning old notions of German liberalism as the helpless victim of mass mobilization and political polarization it is central to understanding both increasing left liberal influence and support on the eve of the First World War and why liberal values could not be consolidated after 1918 This study has powerful general implications for the history of imperial Germany reassessing the role of political parties public perceptions of politics and the impact and character of the state

The Lion and the Star Jonathan Friedman, 2021-12-14 The Lion and the Star not only offers an informed glimpse into the intricacies of daily German life but also confirms the continuing danger of making sweeping generalizations about German Jews and non Jews In the aftermath of World War II many viewed the Third Reich as an aberration in German history and laid blame with Hitler and his followers Since the 1960s historians have widened their focus implicating ordinary Germans in the demise of German Jewry Jonathan Friedman addresses this issue by investigation everyday relations between German Jews and their Gentile neighbors Friedman examines three German communities of different sizes Frankfurt am Main Giessen and Geisenheim Symbolized by the Hessian heraldic lion these communities represent a cross section of both Gentile and Jewish society in Germany during the Weimar and Nazi years Researching in the United States Germany England and Israel he gleaned information from interviews memoirs diaries letters newspapers church and synagogue records censuses government documents and reports from Nazi and resistance organizations Friedman's comparative analysis offers a balanced response to recent scholarly works condemning the entire German people for their complicity in the Holocaust

[In Search of a Liberal Germany](#) Konrad H. Jarausch, Larry Eugene Jones, 1990-10-03 A critical re-examination by American British and German historians of the history of German liberalism exploring the interconnections between liberal currents in culture society and politics By focusing on local and regional developments this collection also suggests that the failure of German liberalism was by no means as complete or as widespread as the traditional literature has tended to argue

Translatio Studiorum, 2013-03-27 The present volume collects seventeen case studies that characterize the various kinds of translation within European culture over the last two millennia Intellectual identities establish themselves by means of a continuous translation and rethinking of previous meanings a sequence of translations and transformations in the transmission of knowledge from one intellectual context to another This book provides a view on a wide range of texts from ancient Greece to Rome from the Medieval world to the Renaissance indicating how the process of translatio studiorum evolves as a continuous transposition of texts of the ways in which they are rewritten their translations interpretations and metamorphosis all of which are crucial to a full understanding of

intellectual history **Catalogue** University of Cincinnati,1907 **University of Cincinnati Record** ,1905 Studies in Social and Political Theory (RLE Social Theory) Anthony Giddens,2014-08-21 The studies which comprise this book are essentially organized around a critical encounter with European social theory in its classical period i e from the middle years of the nineteenth century until the First World War and have the aim of working out some of the implications of that encounter for the position and prospects of the social sciences today The issues involved relate to the following series of problems method and epistemology social development and transformation the origins of sociology in nineteenth century social theory and the status of social science as critique In each of these areas Giddens develops views that challenge existing orthodoxies and connects these ideas to a reconstruction of social theory in the contemporary era *Transatlantic Speculations* Hannah Catherine Davies,2018-11-20 The year 1873 was one of financial crisis A boom in railway construction had spurred a bull market but when the boom turned to bust transatlantic panic quickly became a worldwide economic downturn In *Transatlantic Speculations* Hannah Catherine Davies offers a new lens on the panics of 1873 and nineteenth century globalization by exploring the ways in which contemporaries experienced a tumultuous period that profoundly challenged notions of economic and moral order Considering the financial crises of 1873 from the vantage points of Berlin New York and Vienna Davies maps what she calls the dual transatlantic speculations of the 1870s the financial speculation that led to these panics as well as the interpretative speculations that sprouted in their wake Drawing on a wide variety of sources including investment manuals credit reports business correspondence newspapers and legal treatises she analyzes how investors were prompted to put their money into faraway enterprises how journalists and bankers created and spread financial information and disinformation how her subjects made and experienced financial flows and how responses ranged from policy reform to anti Semitic conspiracy theories when these flows suddenly were interrupted Davies goes beyond national frames of analysis to explore international economic entanglement using the panics interconnectedness to shed light on contemporary notions of the world economy Blending cultural intellectual and legal history *Transatlantic Speculations* gives vital transnational and comparative perspective on a crucial moment for financial markets globalization and capitalism

Announcements of the College of Liberal Arts Indiana University. College of Liberal Arts,1910 Contemporary Germany Mark Allinson,Jeremy Leaman,Stuart Parkes,Barbara Tolkiehn,2014-07-30 Designed for combined Language and Social Science 2nd and 3rd year courses on Germany found in departments of German Politics Modern Language and European Studies This book charts the post war development of Germany East West through to reunification and Germany s evolving role in world politics and economics It combines a concise yet comprehensive introduction in English to contemporary German politics society economics with extensive authentic extracts from German language publications backed up with specially developed language exercises *The Decline of Liberalism as an Ideology* John H. Hallowell,2013-01-04 This early work on liberalism is both expensive and hard to find in its first edition It contains a

commentary and analysis of the politics and history of ideological liberalism This is a fascinating work and thoroughly recommended for anyone interested in political history Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce We are republishing these classic works in affordable high quality modern editions using the original text and artwork
