The Study of Lives Robert W. White, 2006-08-01 The Study of Lives reveals for the first time the extent of Henry A Murray s considerable influence on the study of personality Throughout his long and distinguished career he has either trained or strongly influenced some of the world's leading psychologists eighteen of whom have written fascinating essays for this book The range of topics presented here is as diverse and highly original as Murray s own ideas about personality Everyone concerned with the study of personality will find this book an excellent sampling of the best work being done in the field The study of lives is a phrase Henry A Murray has often used to describe his own work and it suggests his central conviction that living beings must be studied as living wholes Personality he has repeatedly pointed out is a dynamic process a constantly changing configuration of thoughts feelings and actions occurring in a social environment and continuing throughout life If small parts and short segments of human affairs have to be isolated for detailed scrutiny they must still be understood as parts of a patterned organic system and as segments of a lifelong process This has never meant for him that all research should take the form of collecting life histories although his contributions along this line have been outstanding It implies simply that isolating fragmenting and learning just a tiny bit about a lot of people tend to carry us away from what is most worth studying The essays in this book are grouped under headings that represent some of Murray's strongest interests His conception of personality as a dynamic process is reflected in Part I which deals with continuities and changes in the course of life His interest in devising procedures suitable for disclosing live feelings fantasies and adaptations and his insistence on the necessity for an adequate taxonomy of carefully discriminated carefully defined variables are represented in the papers of Part II His view that creativity is a central property of human nature has contributed to the reflections and researches that make up Part III Finally his concern with values the great blind spot of traditional science but so obviously a momentous problem for contemporary lives and societies has been taken up in several different ways by the authors of Part IV Robert W White was professor of clinical psychology at Harvard he has been director of the Psychological Clinic and chairman of the Department of Social Relations After receiving his degree in history for Harvard he taught at the University of Maine for many years before switching over to psychology The Study of Lives Frank Xavier Barron, 1966 *The Study of Lives* Robert W. Murray ,1963 **The Study of Lives** Frank Barron, Henry Alexander Murray, 1971 Society Mahlon Brewster Smith, 2017-09-08 In a tough opening statement M Brewster Smith outlines his own life course and contrasts it with the agenda of social psychology in the present professional moment Today's journals textbooks and conferences represent a vigorous but narrow scientific specialty in psychology the practitioners of which are more closely focused on agendas that are primarily and often only intelligible within the subdiscipline than was the case when I formed my identity as a psychologist In contrast Smith sees himself and has long been seen by others as a social psychologist in the tradition of Gordon Allport Gardner and Lois Murphy Kurt Lewin and Muzafer Sherif Smith s unique ability has been to contribute to the emergence of personality as a differentiated academic field and at the same time maintain strong interdisciplinary ties to a variety of fields ranging from sociology to philosophy In recent years such concerns have made the author a central figure in the development of Humanistic Psychology as a part of the American Psychological Association Because of these wide ranging concerns the major statements of Brewster Smith have appeared in diverse places Here brought into a unified and uniform frame of reference one has his work on values and selfhood humanistic psychology and the social sciences and humanism and social issues brought together for the first time. The picture is of a major thinker who is at home in the details of psychology and in the broad areas of public interest and social policy Brewster Smith discusses major issues in terms of the political processes involved in the public interest. These range from the issue of advocacy within social research to conceptualizing anew familiar issues within psychology For the generalist interested in the broader meanings of social psychology to the specialist aiming to recapture the big issues with which the field was once identified Publications Resulting from National Institute of Mental Health Research Grants 1947-1961 United this is a must volume States. Public Health Service, 1947 The Psychology of Political Polarization Jan-Willem van Prooijen, 2021-03-31 The Psychology of Political Polarization was inspired by the notion that to understand the momentum of radical political movements it is important to understand the attitudes of individual citizens who support such movements Leading political

psychologists have contributed to this important book in which they share their latest ideas about political polarization a complex phenomenon that cannot be traced back to a single cause and that is associated with intolerance overconfidence and irrational beliefs The book explores the basis of political polarization as being how citizens think and feel about people with a different worldview how they perceive minority groups and how much they trust leaders and experts on pressing societal issues such as climate change health international relations and poverty. The chapters are organized into two sections that examine what psychological processes and what social factors contribute to polarization among regular citizens The book also describes practical strategies and interventions to depolarize people The book offers a state of the art introduction to the psychology of political polarization which will appeal to the academic market and political professionals Yearbook 22 Adrian Daub, Elisabeth Krimmer, 2015-01-07 Cutting edge scholarly articles on diverse aspects of Goethe and the Goethezeit featuring in this volume a special section on environmentalism The Goethe Yearbook is a publication of the Goethe Society of North America encouraging North American Goethe scholarship by publishing original English language contributions to the understanding of Goethe and other authors of the Goethezeit while also welcoming contributions from scholars around the world Volume 22 features a special section on environmentalism edited by Dalia Nassar and Luke Fischer with contributions on the metaphor of music in Goethe's scientific work and its influence on Deleuze Merleau Ponty Uexk ll and Zuckerkandl Frederick Amrine his conceptualization of modern civilization in Faust Gernot B hme a non anthropocentric vision of nature in his writings on the intermaxillary bone Ryan Feigenbaum his geopoetics of granite Jason Groves the historical antecedents of biosemiotics in Die Metamorphose der Pflanzen Kate Rigby and the conceptof the Dark Pastoral in Werther Heather I Sullivan In addition there are articles on Goethe as a spiritual predecessor of phenomenology Iris Hennigfeld concepts of the hermaphrodite in contributions to the Encyclop die by Louis de Jaucourt and Albrecht von Haller Stephanie Hilger on Goethe s poem N he des Geliebten David Hill on the link between commerce and culture in West stlicher Divan Daniel Purdy on Goethe s thoughts on collecting and museums Helmut Schneider and on intrigues in the works of J M R Lenz Inge Stephan Contributors Frederick Amrine Gernot B hme Ryan Feigenbaum Luke Fischer Jason Groves Iris Hennigfeld Stephanie M Hilger David Hill Dalia Nassar Daniel Purdy Kate Rigby Helmut I Schneider Inge Stephan Heather I Sullivan Adrian Daub is Associate Professor of German at Stanford Elisabeth Krimmeris Professor of German at the University of California Davis Book review editor Birgit Tautz is Associate Professor of German at Bowdoin College

WomanProphet Elizabeth Love, 2019-04-30 Most women are raised in a context of feminine values whether they are aware of those values or not Some of the values specific to this feminine culture are interdependence caring and relationality. In our time many women cross over into a masculine value culture when they take on what were traditional male roles in male evolved institutions Eventually women become aware that their own values conflict with some assumed male values. They then have to compromise and adjust in order to be productive in those environments. The women I have focused on in

this study have because of a significant external event or events and an emerging inner vision left both structures They then however lack others around them whose values structures can reinforce adherence When these women are by themselves they experience something like a dark night of the soul Once they get beyond the pain and a sense of meaninglessness they begin to realize that they can move the constructs of reality that they can write history as well as read it An essential concern is to deter mine what their values are After this process their own personal vision becomes clear But the cycle isn t complete until they bring that new vision back to their people And bringing it back in a holistic sense helps to raise the moral sights of others who are influenced by that experience **University Bulletin** University of California, Berkeley, 1963 Qualitative Analysis In Psychology Nicky Hayes, 2013-12-16 In recent years qualitative analysis has become accepted as part of modern psychology Concern about the limitations of conventional laboratory based research combine with a growing interest in real world issues to produce an awareness of the rich potential of qualititative analysis Virtualy all psychology students underatake practical work as part of their courses More and more of them are seeking to conduct research which includes qualitative analysis Too often though students lack awareness of the range and diversity of qualitative approaches Qualitative analysis can take many different forms and can use any different sources of data At one end of the spectrum this diversity provides the eclectic psychologists with a rich analytical tool box For those at the other end qualitative analysis is an integral part of a full theoretical critique of positivistic methodologies in psychology This text provides examples of how different psychologists have used qualitative analysis in research Each chapter is based around a real piece of research and the researcher discusses exactly how they went about conducting the analysis The text covers a wide range of theoretical and methodological approaches to qualitative analysis and should be of interest to research psychologists as well as to students

Existential-Integrative Approaches to Treating Adolescents David Shumaker, 2017-07-19 This book frames how existential theory and intervention strategies can be seamlessly integrated with evidenced based approaches when treating adolescents This groundbreaking text begins with an overview of EI theory and provides an exhaustive review of risk and protective factors that contribute to an adolescent s experience of existential anxiety Other book highlights include a proposed developmental model of existential anxiety in adolescence and individual chapters devoted to working with adolescents who present with anxiety depression substance abuse concerns and disruptive behaviors Rich case study descriptions enrich this exciting and impactful approach with empirical support Spaces Speak, Are You Listening? Barry Blesser, Linda-Ruth Salter, 2009-09-18 How we experience space by listening the concepts of aural architecture with examples ranging from Gothic cathedrals to surround sound home theater We experience spaces not only by seeing but also by listening We can navigate a room in the dark and hear the emptiness of a house without furniture Our experience of music in a concert hall depends on whether we sit in the front row or under the balcony The unique acoustics of religious spaces acquire symbolic meaning Social relationships are strongly influenced by the way that space changes sound In Spaces Speak

Are You Listening Barry Blesser and Linda Ruth Salter examine auditory spatial awareness experiencing space by attentive listening Every environment has an aural architecture The audible attributes of physical space have always contributed to the fabric of human culture as demonstrated by prehistoric multimedia cave paintings classical Greek open air theaters Gothic cathedrals acoustic geography of French villages modern music reproduction and virtual spaces in home theaters Auditory spatial awareness is a prism that reveals a culture s attitudes toward hearing and space Some listeners can learn to see objects with their ears but even without training we can all hear spatial geometry such as an open door or low ceiling Integrating contributions from a wide range of disciplines including architecture music acoustics evolution anthropology cognitive psychology audio engineering and many others Spaces Speak Are You Listening establishes the concepts and language of aural architecture These concepts provide an interdisciplinary guide for anyone interested in gaining a better understanding of how space enhances our well being Aural architecture is not the exclusive domain of specialists Accidentally or intentionally we all function as aural architects **Setting Relations Right in Restorative Practice** David B. Moore, Alikki Vernon, 2023-12-01 Setting Relations Right in Restorative Practice is a practical guide to using restorative processes both in justice systems to provide a healing response to harm and in broader community contexts to help people co exist peacefully Restorative processes can help to establish maintain deepen and repair relationships and to neutralise the conflict associated with negative relationships The result is less conflict within people between people and between groups and increasing individual and community wellbeing These complex goals can be distilled to the single principle of setting relations right The authors distil lessons from their decades of work at the frontline of restorative innovation They outline an accurate accessible theory that informs a restorative mindset and describe in detail the corresponding skill set Succinct engaging case studies include refinements to existing programs in justice systems Other case studies include the innovations of restorative responses to institutional abuse and to family violence and sexual harm initiatives to increase psychological safety in schools and workplaces and programs that support restorative ways of working across whole cities or regions By applying elements from successful programs practitioners can realise the broader reforming potential of restorative practice This book is essential reading for restorative practitioners administrators and policymakers for students and researchers indeed for anyone interested in the power and potential of restorative practice and other forms of deliberative decision Erikson on Development in Adulthood Carol Hren Hoare, 2001-12-13 Erik Erikson 1902 1994 was one of the most making eminent and prolific psychologists of the 20th century Over his long career he published a dozen books including classics such as Childhood and Society Identity Youth and Crisis and Young Man Luther He was awarded the Pulitzer Prize and the National Book Award in 1970 for his biography Gandhi s Truth It was also in 1970 when he retired from Harvard University that Erikson began to rethink his earlier theories of development He became increasingly occupied with the conflicts and challenges of adulthood a shift from his earlier writings on the identity crises of adolescence For the past twenty years Carol

Hoare has written extensively on various aspects of Erikson's work She has been aided by access to Erikson's unpublished papers at Harvard as well as cooperation with Joan Erikson the psychologist's wife and longtime collaborator By reconstructing Erikson's theory of adulthood from his unpublished papers Hoare provides not only a much needed revision of Erikson's work but also a glimpse into the mind of one of the 20th century's most profound thinkers
