Rothblum, Ellen Cole, 1995 *Feminist Foremothers in Women's Studies Psychology and Mental Health* is by and about the more recent wave of feminist foremothers those who were awakened in the 1960s and 70s to the realization that something was terribly wrong These are the women who created the fields of feminist therapy feminist psychology and women's mental health as they exist today The 48 women share their life stories in the hope that they will inspire and encourage readers to take their own risks and their own journeys to the outer edges of human possibility Authors write about what led up to their achievements what their accomplishments were and how their lives were consequently changed They describe their personal stages of development in becoming feminists from unawareness to activism to action Some women focus on the painful barriers to success fame and social change others focus on the surprise they experience at how well they and the women's movement have done Some well known feminist foremothers featured include Phyllis Chesler Gloria Steinem Kate Millett Starhawk Judy Chicago Zsuzsanna Emese Budapest Andrea Dworkin Jean Baker Miller Carol Gilligan In *Feminist Foremothers in Women's Studies Psychology and Mental Health* many of the women see in hindsight how prior projects and ideas and even dreams were the forerunners to their most important work They note the importance of sisterhood and the

presence of other women and the loneliness and isolation experienced when they don't exist. They note the validation they have received from grassroots feminists in contrast to disbelief from professionals. Although these women have been and continue to be looked up to as foremothers, they realize how little recognition they've been given from society at large and how much better off their male counterparts are. Some foremothers write about the feeling of being different, not meshing with the culture of the time and about challenging the system as an outsider, not an insider. These are women who had few mentors who had to forge their own way, hit the ground running. Their stories will challenge readers to press on to continue the work these foremothers so courageously started. Throughout the pages of *Feminist Foremothers in Women's Studies Psychology and Mental Health*, there is a sense of excitement and vibrancy of lives lived well, of being there during the early years of the women's movement, of making sacrifices, of taking risks and living to see enormous changes result. Throughout these pages too, sounds a call not to take these changes for granted but to recognize that feminists rather than arguing over picayune issues or splitting politically correct hairs are battling for the very soul of the world.

*EBOOK: Thinking Nursing*  
Tom Mason, Elizabeth Mason-Whitehead, 2003-12-16

*Thinking Nursing* This major new textbook provides a unique one-stop resource that introduces nursing students to the disciplines that underpin nursing practice. The broad range of subjects covered includes Sociology, Psychology, Anthropology, Public Health, Philosophy, Economics, Politics and Science. Written by nursing lecturers with nursing students in mind, this book enables nurses to grasp the principles behind these disciplines and apply the concepts to everyday health care practices. Each chapter offers the theoretical background of the major tenets of each discipline, a comprehensive discussion of how they relate to practice, cross-references to other relevant chapter sections, suggestions for further reading, a glossary of key terms. Practical advice is also available in a chapter dedicated to methods of research planning and construction of written work. Moreover, the textbook encourages creative and lateral thinking beyond its use in planning and writing assignments. *Thinking Nursing* is essential reading for nursing students on Common Foundation Programmes both at diploma and degree level and qualified nurses undertaking additional specialist training including masters degrees as well as those involved in planning, designing and the implementation of educational courses for nurses.

*Luc Reyhler: A Pioneer in Sustainable Peacebuilding Architecture* Luc Reyhler, Arnim Langer, 2020-05-07

This book provides a unique personal perspective on the field of peace research. It not only highlights Luc Reyhler's significant contributions to the theory and praxis of sustainable peacebuilding but also offers important reflections on the evolution of peace research as an independent discipline. The central concept of this book and of Reyhler's academic career for that matter is sustainable peacebuilding architecture. Reyhler introduced this concept in order to draw attention to the architectural principles and considerations that have to be addressed in sustainable peacebuilding processes. Reyhler's work on sustainable peacebuilding architecture has been groundbreaking and has not lost any of its relevance in the twenty-first century. By bringing together Reyhler's

seminal texts on sustainable peacebuilding architecture the current book aims to offer academics students and policymakers an essential guide to understanding studying and applying this crucial concept Provides a unique personal view of the development of peace research Lists the necessary building blocks for sustainable peacebuilding Offers tools for monitoring and evaluating interventions Discusses the scientific nature and often provocative findings of peace research Discusses ten lessons learned and the future Peace Research III Handbook of Game-Based Learning Jan L.
