Emerson, R. Barry Lewis, 1991 Covering topics as diverse as economic modeling craft specialization settlement patterns agricultural and subsistence systems and the development of social ranking Cahokia and the Hinterlands explores cultural interactions among Cahokians and the inhabitants of other population centers including Orens Dorf and the Dickson Mounds in Illinois and Aztalan in Wisconsin as well as sites in Minnesota Iowa and at the confluence of the Mississippi and Ohio rivers Proposing sophisticated and innovative models for the growth development and decline of Mississippian culture at Cahokia and elsewhere this volume also provides insight into the rise of chiefdoms and stratified societies and the development of trade throughout the world *Nightwatch on the Hinterlands* K. Eason, 2021-10-19 Set in the universe of Rory Thorne this new sci fi mystery follows an unlikely duo who must discover the motive behind an unusual murder THE TEMPLAR When Lieutenant Iari hears screams in the night she expects to interrupt a robbery or break up a fight Instead she discovers a murder with an impossible suspect a riev one of the battle mecha decommissioned after the end of the last conflict repurposed for manual labor Riev don t kill people And yet clearly one has Iari sets out to find it THE SPY Officially Gaer is an ambassador from the vakari Unofficially he s also a spy sending information back to his government unfiltered by diplomatic channels Unlike Iari Gaer isn t so sure the riev s behavior is just a malfunction since the riev were created using an unstable mixture of alchemy and arithmancy As Gaer and Iari search for the truth they discover that the murderous riev is just a weapon in the hands of a wielder with wider ambitions than homicide including releasing horrors not

countries of the Caribbean region share a number of fundamental problems of economic management which ultimately affect the entire development process. Co-authors Bhoe Tewarie and Roger Hosein use Trinidad and Tobago and the management of its energy resources as a case study to examine some of the development challenges that face countries of the region. They make the point that in spite of that country's abundant energy resources which has allowed it to grow at a comparatively rapid rate, Trinidad and Tobago like lesser endowed CARICOM partners has had to cope with challenges such as diversification, human development, managerial capacity and institutional weakness, all of which contributed to seven consecutive years of decline between 1983 and 1990. Not only is the availability of resources no guarantee for economic success, it also creates unique problems and in the case of Trinidad and Tobago this is manifested in uneven development in the energy sector compared to other sectors of the economy and society. While the volume focuses on Trinidad and Tobago, there is ample discussion of a range of issues that affect the entire region, extending from trade within CARICOM to globalization, open regionalism, relations with the United States, human capital formation and the role of education systems and educational policy in the development process. Tewarie and Hosein combine their talents and research in the areas of economics, culture, education, literature, trade and investment and development generally to produce a volume that is rich in data and insights into the development process.
