The History Of England From The Accession Of James Ii Four:

The History of England from the Accession of James the Second Thomas Babington Macaulay Baron Macaulay, 1879

The History of England: Accession of James II -- I Baron Thomas Babington Macaulay, 2016-09-10 I purpose to write the history of England from the accession of King James the Second down to a time which is within the memory of men still living I shall recount the errors which in a few months alienated a loyal gentry and priesthood from the House of Stuart I shall trace the course of that revolution which terminated the long struggle between our sovereigns and their parliaments and bound up together the rights of the people and the title of the reigning dynasty I shall relate how the new settlement was during many troubled years successfully defended against foreign and domestic enemies how under that settlement the authority of law and the security of property were found to be compatible with a liberty of discussion and of individual action never before known how from the auspicious union of order and freedom sprang a prosperity of which the annals of human affairs had furnished no example how our country from a state of ignominious vassalage rapidly rose to the place of umpire among European powers how her opulence and her martial glory grew together how by wise and resolute good faith was gradually established a public credit fruitful of marvels which to the statesmen of any former age would have seemed incredible how a gigantic commerce gave birth to a maritime power compared with which every other maritime power ancient or modern sinks into insignificance how Scotland after ages of enmity was at length united to England not merely by legal bonds but by indissoluble ties of interest and affection how in America the British colonies rapidly became far mightier and wealthier than the realms which Cortes and Pizarro had added to the dominions of Charles the Fifth how in Asia British adventurers founded an empire not less splendid and more durable than that of Alexander David Hume *The History of Israel: Introduction and preliminary history. 2d ed* Heinrich Ewald, 1869 **Lectures on the Science of Language** Friedrich Max Müller, 1864
