The History Of Milton Keynes And District V :

A History of Milton Keynes and District, V.1, to 1830 Frank Markham,1973 **Henry VII's New Men and the Making of Tudor England** Steven Gunn,2016-08-18 The reign of Henry VII is important but mysterious He ended the Wars of the Roses and laid the foundations for the strong governments of Henry VIII and Elizabeth I Yet his style of rule was unconventional and at times oppressive At the heart of his regime stood his new men low born ministers with legal financial political and military skills who enforced the king s will and in the process built their own careers and their families fortunes Some are well known like Sir Edward Poynings governor of Ireland or Empson and Dudley executed to buy popularity for the young Henry VIII Others are less famous Sir Robert Southwell was the king s chief auditor Sir Andrew Windsor the keeper of the king s wardrobe Sir Thomas Lovell the Chancellor of the Exchequer so trusted by Henry that he was allowed to employ the former Yorkist pretender Lambert Simnel as his household falconer Some paved the way to glory for their relatives Sir Thomas Brandon master of the horse was the uncle of Henry VIII s favourite Charles Brandon duke of Suffolk Sir Henry Wyatt keeper of the jewel house was father to the poet Sir Thomas Wyatt This volume based on extensive archival research presents a kaleidoscopic portrait of the new men It analyses the offices and relationships through which they exercised power and the ways they gained their wealth and spent it to sustain their new found status It establishes their importance in the operation of Henry s government and as their careers continued under his son in the making of Tudor England

Whitaker's Cumulative Book List ,1973 **Buckinghamshire** Nikolaus Pevsner,Elizabeth Williamson,Geoffrey K. Brandwood,1994-03-11 This completely new edition reveals a county of contrasts The semi rural suburbia of outer London with its important early Modern Movement houses is counterbalanced by magnificent mansions and parks like idyllic Stowe and the Rothschilds extravaganza at Waddesdon The Saxon Church at Wing the exquisite seventeenth century Winslow Hall and Slough s twentieth century factories all contribute to Buckinghamshire s rich inheritance In this new edition the unspoilt centres of small towns like Amersham and Buckingham are revisited and Milton Keynes Britain s last and most ambitious New Town is explained and explored The rich diversity of rural buildings built of stone brick timber and even earth is investigated with scholarship and discrimination This accessible and comprehensive guide is prefaced by an illuminating introduction and has many excellent illustrations plans and maps **Stony Stratford Past** Robert Ayers,Audrey Lambert,2003 A history of Stony Stratford **The Plan for Milton Keynes** Milton Keynes Development Corporation,2013-07-24 The UK s largest new town Milton Keynes is the product of a Transatlantic planning culture and a plan for a relatively low density motorised city generously endowed with roads parklands and the infrastructure of cabling for communications technology At its heart was the charismatic and influential Richard Lord Llewelyn Davies A Labour Peer with various personal and professional interests in the USA he drew upon the writings of American academics Melvin Webber and Herbert J Gans who were also invited to advise on social trends in relation to the urban context in the preparation for the

Plan The Plan bristled with an understanding that motorised transport and communications technology would shape the city of the future and influence the nature and reach of community and social interactions beyond the localised realm Prepared by Llewelyn Davies Weeks Forestier Walker and Bor for Milton Keynes Development Corporation and presented to the Minister for Housing and Local Government in 1970 the Plan for Milton Keynes is a vibrant expression of Sixties idealism and forward thinking In creating the Little Los Angeles in North Buckinghamshire a low density city whose citizens mostly rely upon the private motor car for their mobility the Plan has become increasingly unfashionable as agendas for sustainability have called motorisation into question Yet the gridroads and the gridsquares within them have been very popular with the people of Milton Keynes The expansive thinking behind the Plan has important lessons for the limitations of current urban transport policy and that cosy notions of neighbourhood and locally driven community have little resonance for understanding the character of social relations in the twenty first century The planning of Milton Keynes was more realistic and nuanced than much urban policy formulation today

Wanton Troopers Ian F. W. Beckett,2016-02-29 The causes of the three English Civil Wars 1642 to 1645 1648 and 1651 are complex and controversial clashes of conviction belief and personality and a struggle between opposing social groups and economic interests But whatever the focus of scholarship many answers can be sought at the local level among county communities that were far more outward looking than once suggested That is why Ian Becketts in depth study of Buckinghamshire one of the pivotal counties during this turbulent period in British history is of such value None of the best known battles or sieges took place in Buckinghamshire but there was destructive combat in the county on a smaller scale because its location placed it on the front line between the opposing forces between the royalist headquarters at Oxford and the parliamentary stronghold of London As Ian Beckett shows the impact of war on Bucks was considerable His analysis gives us an insight into the experience of local communities and the county as a whole and it reveals much about the experience of the conflict across the country
