The History Of Working Class Housing:

The History of Working-class Housing Stanley D. Chapman, 1971 *Cruel Habitations* Enid Gauldie, 2023-09-29 *Cruel Habitations* 1974 looks at the pre industrial background in which housing problems are rooted with the decay of towns and the unsuccessful attempts to better their condition by public health reforms by charitable agencies and by building societies and with legislative action in Parliament towards housing reform *The History of Working-class Housing*, 1971 **The Working Class at Home, 1790-1940** Joseph Harley, Vicky Holmes, Laika Nevalainen, 2022-02-17 This book examines life in the homes inhabited by the working class over the long nineteenth century These working class homes are often imagined as distinctly unhomely spaces which the inhabitants struggled to fill with even the most basic of furniture let alone acquire the comforts associated with middle class domestic space The concerned reformers of industrialising towns and cities painted a picture of severe deprivation of rooms that were both cramped yet bare at the same time and disease ridden spaces from which their subjects required rescue It is an image which is not only inadequate but which also robs working class people of their agency in creating domestic spaces which allowed for the expression of personal and familial feeling Bringing together emerging scholars who challenge these ideas and using a range of innovative sources and approaches this edited collection presents a new understanding of working class homes **The History of Working-class Housing** Stanley D. Chapman, 1971 *Contesting Space in Colonial Singapore* Brenda S. A. Yeoh, 2003 In the British colonial city of Singapore municipal authorities and Asian communities faced off over numerous issues As the city expanded various disputes concerning issues such as sanitation housing and street names arose This volume details these conflicts and how they shaped the city **The history of working-class housing: a symposium**, ed Stanley D. Chapman, **The Working Class in Britain** John Benson, 2003-08-22 Who made up the working class in Britain who were the ordinary men and women and what were their aspirations The first generation of postwar British labour historians tended to be preoccupied with working class activism This text attempts to chart not only this struggle but to describe and analyse the rich and varied tapestry of working class history as a whole It demonstrates that class both existed and mattered although ordinary men and women had diverse lives and lifestyles Professor Benson examines work wages incomes and the cost of living family kinship and community relations and the individual in the context of nation and class *Home in British Working-Class Fiction* Nicola Wilson, 2016-03-09 *Home in British Working Class Fiction* offers a fresh take on British working class writing that turns away from a masculinist work based understanding of class in favour of home gender domestic labour and the family kitchen As Nicola Wilson shows the history of the British working classes has often been written from the outside with observers looking into the world of the inhabitants Here Wilson engages with the long cultural history of this gaze and asks how home is represented in the writing of authors who come from a working class background Her book explores the depiction of home as a key emotional and material site in working class writing from the Edwardian period through to the early 1990s Wilson

presents new readings of classic texts including *The Ragged Trousered Philanthropists* *Love on the Dole* and *Saturday Night and Sunday Morning* analyzing them alongside works by authors including James Hanley Walter Brierley Lewis Grassie Gibbon Buchi Emecheta Pat Barker James Kelman and the rediscovered ex mill girl novelist Ethel Carnie Holdsworth Wilson's broad understanding of working class writing allows her to incorporate figures typically ignored in this context as she demonstrates the importance of home's role in the making and expression of class feeling and identity **The Working Class in Glasgow** R. A. Cage, 2021-10-12 Originally published in 1987 this book examines how much industrialisation improved the standard of living of the British worker based on the experience of one representative city Glasgow It analyses whether there was an increase in skilled as opposed to unskilled labour in major industrial centres as for example in Glasgow manufacturing shifted from textiles to engineering Other important issues such as the rate of housing construction public health local politics and leisure pursuits are also considered Glasgow has a long history of working class culture and is therefore a particularly interesting city to study

The Cambridge Social History of Britain, 1750-1950 F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians they have had no difficulty in finding their subject The difficulty rather is that an outpouring of research and writing is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of topical monographic research and presented an interpretation of the development of modern British society since 1750 from three perspectives those of regional communities the working and living environment and social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

Working-class Housing in England Between the Wars Andrzej Olechnowicz, 1997 This book presents an important episode in the twentieth century history of the United Kingdom the largest public housing scheme ever undertaken in Britain and at the time of its planning in the world Built between 1921 and 1934 the London County Council's Becontree Estate housed over 110 000 people in 25 000 dwellings Andrzej Olechnowicz discusses the early years of the estate looking in detail at the philosophy behind its construction and management policies and showing how it eventually came to be denigrated as a social concentration camp exemplifying all the political dangers of a mass culture He investigates life on the estate both through an appraisal of the facilities provided and as far as possible through the eyes of the inhabitants using interviews with surviving tenants from the inter war period Thus he is able to show how high rents excluded many families in greatest housing need and how tenants found it difficult to adjust to the costs of suburban living This is a wide ranging study that deals with both the nuts and bolts of mass housing with ideas on citizenship and the creation of communities

The British Working Class 1832-1940 Andrew August, 2014-06-11 In this insightful

new study Andrew August examines the British working class in the period when Britain became a mature industrial power working men and women dominated massive new urban populations and the extension of suffrage brought them into the political nation for the first time Framing his subject chronologically but treating it thematically August gives a vivid account of working class life between the mid nineteenth and mid twentieth centuries examining the issues and concerns central to working class identity Identifying shared patterns of experience in the lives of workers he avoids the limitations of both traditional historiography dominated by economic determinism and party politics and the revisionism which too readily dismisses the importance of class in British society *A Social History of Housing 1815-1985* John Burnett,2025-11-18

Originally published in 1986 for the second edition of this standard text previously only covering up to 1970 in *A Social History of Housing 1815 1985* John Burnett has extended his study to take account of the next fifteen years It remains a comprehensive and important survey covering over a century and a half of developments in housing conditions both urban and rural public and private and tracing the evolution of mass housing through by law terraces back to backs and the tower block to the low rise high density estates of the 1980s *Britain 1740 - 1950* Richard Lawton,Colin Pooley,2021-12-02

Originally published in 1992 this book provides students with a well illustrated clearly written text which offers a coherent overview of Britain s development from a pre modern to a modern economy and society The key processes that have shaped the geography of modern Britain are rooted in the significant demographic economic technological and social transitions of the early eighteenth century the impact of which was not fully diffused through the nation until the mid 20th Century This country wide survey examines the nature of this transformation The material in the book is accessible because the book is clearly structured into 3 phases 1740 to the 1830s the 1830s to the 1890s and the 1890s to 1950 For each period the principal aspects of change in population industry the countryside and urban life are examined and regional examples given to support the analysis *Homes and Health* Bernard Ineichen,2003-10-04 This book links where people live with their health The author reviews how housing has influenced health throughout the past hundred and fifty years discusses in detail current issues concerning housing and health and describes attempts at housing particular groups whose health is at risk

Houses for All Jill Wade,1994-01-01 *Houses for All* is the story of the struggle for social housing in Vancouver between 1919 and 1950 It argues that however temporary or limited their achievements local activists played a significant role in the introduction implementation or continuation of many early national housing programs Ottawa s housing initiatives were not always unilateral actions in the development of the welfare state The drive for social housing in Vancouver complemented the tradition of housing activism that already existed in the United Kingdom and to a lesser degree in the United States

Class Society at War Bernard Waites,2014-03-04 Research into the impact of the First World War on European societies has recently begun on a major scale and Dr Waites has been one of the pioneers in this field in Britain His book considers the War s effects on such major issues as popular images of class the distribution of income and wealth in society

social relations within the working class class consciousness and the educational experiences of children from different backgrounds This study is noteworthy not only for its wide range of hitherto unpublished sources but also for its attempt to bring social theory to bear upon the study of class relations in England during the first of this century s total wars **How the Working-Class Home Became Modern, 1900-1940** Thomas C. Hubka,2020-12-08 The transformation of average Americans domestic lives revealed through the mechanical innovations and physical improvements of their homes At the turn of the nineteenth century the average American family still lived by kerosene light ate in the kitchen and used an outhouse By 1940 electric lights dining rooms and bathrooms were the norm as the traditional working class home was fast becoming modern a fact largely missing from the story of domestic innovation and improvement in twentieth century America where such benefits seem to count primarily among the upper classes and the post World War II denizens of suburbia Examining the physical evidence of America s working class houses Thomas C Hubka revises our understanding of how widespread domestic improvement transformed the lives of Americans in the modern era His work focused on the broad central portion of the housing population recalibrates longstanding ideas about the nature and development of the middle class and its new measure of improvement standards of living In *How the Working Class Home Became Modern 1900 1940* Hubka analyzes a period when millions of average Americans saw accelerated improvement in their housing and domestic conditions These improvements were intertwined with the acquisition of entirely new mechanical conveniences new types of rooms and patterns of domestic life and such innovations from public utilities and kitchen appliances to remodeled and multi unit housing are at the center of the story Hubka tells It is a narrative amply illustrated and finely detailed that traces changes in household hygiene sociability and privacy practices that launched large portions of the working classes into the middle class and that in Hubka s telling reconfigures and enriches the standard account of the domestic transformation of the American home *The Voluntary City* David T. Beito,Peter Gordon,Alexander Tabarrok,2006
