Melancholia and Maturation Eric L. Tribunella, 2010-01-15 Coming of age in children's fiction often means achieving maturity through the experience of trauma. In classics ranging from *Old Yeller* to *The Outsiders* a narrative of psychological pain defies expectations of childhood as a time of innocence and play. In this provocative new book Eric L. Tribunella explores why trauma especially the loss of a loved object occurs in some of the most popular and critically acclaimed twentieth century American fiction for children. Tribunella draws on queer theory and feminist revisions of Freud's notion of melancholia which is described as a fundamental response to loss, arguing that the low grade symptoms of melancholia are in fact what characterize the mature, sober and responsible American adult. *Melancholia and Maturation* looks at how this effect is achieved in a society that purports to protect youngsters from every possible source of danger thus requiring melancholia to be induced artificially. Each of the book's five chapters focuses on a different kind of lost object sacrificed so as to propel the child toward a distinctively gendered sexual, ethical and national adulthood: from same sex friends to the companionship of boy and his dog, stories from the lost ideals of historical fiction about the American Revolution to the children killed or traumatized in Holocaust novels. The author examines a wide spectrum of works including Jack London's dog tales, the contemporary realistic novels of S. E. Hinton and Newbery Medal winners like Johnny Tremain and *Bridge to Terabithia*. Tribunella raises fundamental questions about the value of children's literature as a whole and provides context for understanding why certain books become required reading for youth. Eric L. Tribunella is assistant professor of English at the University of Southern Mississippi. His articles have been published in *Children's Literature Association Quarterly*, *Children's Literature in Education*, *The Lion and the Unicorn*, *A Critical Journal of Children's Literature* and *Children's Literature*. *The Past Can't Heal Us* Lea David, 2020-07-16 Lea David exposes the dangers and pitfalls of mandating memory in the name of human rights in conflict and post conflict settings *The Memory Phenomenon in Contemporary Historical Writing* Patrick H. Hutton, 2016-07-15 In this book the author provides a comprehensive overview of the intense and sustained work on the relationship between collective memory and history, retracing the royal roads pioneering scholars have traveled in their research and writing on this topic, notably the politics of commemoration, purposes and practices of public remembrance, the changing uses of memory worked by new technologies of communication from the threshold of literacy to the digital age, the immobilizing effects of trauma upon memory with particular attention to the remembered legacy of the Holocaust. He follows with an analysis of the implications of this scholarship for our thinking about history itself with attention to such issues as the mnemonics of historical time and the encounter between representation and experience in historical understanding. His book provides insight into the way interest in the concept of memory as opposed to long standing alternatives such as myth, tradition and heritage has opened new vistas for scholarship not only in cultural history but also in shared ventures in

memory studies in related fields in the humanities and social sciences Lost Intimacies William J. Spurlin, 2009 *Lost Intimacies Rethinking Homosexuality under National Socialism* uses queer theory as a hermeneutic tool with which to read against the grain of heterotextual narratives of the Holocaust and as a way of locating alternative pathways of meaning in dominant Holocaust research. Specifically addressing the racialization of sexuality the book asks how the politics of sexuality can be more explicitly and systematically theorized along with state sanctioned homophobia under Nazism with a clear recognition that homophobia seldom operated alone but worked in conjunction with other axes of power including race gender eugenics and population politics. In theorizing gender and sexuality as entangled axes of analysis the book allows the specificity of lesbian difference to emerge and challenges the received wisdom that lesbians were not as systematically persecuted under National Socialism. William J. Spurlin questions the wisdom of received scholarship that reduces Nazi fascism to latent homosexuality and examines the possible implications of Nazi homophobia and its imbrication with other deployments of power for the study of contemporary culture where the homophobic impulse continues to reverberate thereby challenging understandings of history steeped in notions of progressive modernity.
