

CORE DESIGN PRINCIPLES

Landscape-derived aesthetic: Home houses were inspired by the surrounding desert landscape. The curved walls embrace the landscape forms created by desert sand erosion, while desert motifs have been incorporated into the architectural spatial layout pattern runs throughout. This results in a home which is deeply rooted in nature's identity.

Tradition-inspired design: By looking back on past building methods, home houses integrate concepts derived from historic practices. A wind can't be measured the cooling effect, while traditional inspired shading reduces solar gain, enhancing the past ensures that knowledge is both on-site developed for future generations.

Ultra-low embodied and operational energy: Through the consideration of recycled materials, thermal mass and renewable energy sources, home houses reduce its environmental impact further to its construction and energy use. This results in an exceptionally self-sufficient home that can sustain it's operation for over a decade off-grid.

Water: In providing a wind shelter and storm garden, home houses encourage the use of it's outdoor spaces, with a wet deck, sun-patented drying area and water features, the garden is a cool living space. The perimeter walls are perforated, allowing the breeze to flow freely and neighbours to interact with one another. Due to the wind-shelter the landscape design incorporates surrounding topography to reduce water use.

- 2. Covered 'buffer' zones provide maximum shade, reduce solar gain and lowering temperature problems.
- 3. Perforated garden wall allows the breeze to pass through.
- 4. Reflective walls reflect the heat back.
- 5. Using low-lying plants help reduce solar gain.
- 6. Tighter partitioning between neighbouring houses increases shading and reduces solar gain.

The Home Of The Future And The Womans Sphere:

Weaving Women's Spheres in Vietnam ,2015-11-30 Weaving Women s Spheres in Vietnam offers an in depth study of the status of women in Vietnamese society through an examination of their roles in the context of family religious and local community life from anthropological historical and sociological perspectives Unlike previous works on gender issues relating to Vietnam which focus on women as passive subjects and are restricted to specific spheres such as family this book through a series of case studies and life stories not only examines the suppressive gender structure of the Vietnamese family but also demonstrates Vietnamese women s agency in appropriating that structure and creating alternative spheres for women which they have interwoven in between the dominant realms of public and private spheres in the areas of family religious practice community organizations and politics including their participation in the re construction of national identity Accordingly this volume is expected to become an important new benchmark relating to gender issues in Asian societies especially in the context of so called transitional societies such as China and Vietnam Contributors include Kirsten W Endres Ito Mariko Ito Miho Kato Atsufumi Hy V Luong Miyazawa Chihiro Thien Huong T Ninh Tran Thi Minh Thi **The Women's Revolution in Mexico, 1910-1953** Stephanie Evaline Mitchell,Patience Alexandra Schell,2007 This book reinvigorates the debate on the Mexican Revolution exploring what this pivotal event meant to women The contributors offer a fresh look at women s participation in their homes and workplaces and through politics and community activism Drawing on a variety of perspectives the volume illuminates the ways women variously accepted contested used and manipulated the revolutionary project Recovering narratives that have been virtually written out of the historical record this book brings us a rich and complex array of women s experiences in the revolutionary and post revolutionary era in Mexico **The Women's Movement and Women's Employment in Nineteenth Century Britain** Ellen Jordan,2002-01-04 In the first half of the nineteenth century the main employments open to young women in Britain were in teaching dressmaking textile manufacture and domestic service After 1850 however young women began to enter previously all male areas like medicine pharmacy librarianship the civil service clerical work and hairdressing or areas previously restricted to older women like nursing retail work and primary school teaching This book examines the reasons for this change The author argues that the way femininity was defined in the first half of the century blinded employers in the new industries to the suitability of young female labour This definition of femininity was however contested by certain women who argued that it not only denied women the full use of their talents but placed many of them in situations of economic insecurity This was a particular concern of the Womens Movement in its early decades and their first response was a redefinition of feminity and the promotion of academic education for girls The author demonstrates that as a result of these efforts employers in the areas targeted began to see the advantages of employing young women and young women were persuaded that working outside the home would not endanger their femininity *Women's and Gender Studies in India* Anu Aneja,2019-04-18 This book frames the major

debates and contemporary issues in women's and gender studies in India. It locates them in the context of key theories, their interlinkages and significant crossings and overlaps within the field while juxtaposing feminist and queer perspectives. The essays in the volume foreground emerging challenges as well as offer clues to future trajectories for women's and gender studies in the country through a comprehensive and interdisciplinary survey of intersectionalities in feminist activism and theory, gender, caste and class, feminist masculinity, queer and transgender studies, disability and feminism, feminist and queer pedagogies and Indian, Western and transnational feminisms. The volume traces how gender studies have shaped established social science as well as interpretative and representational discourses, psychoanalysis, literature, aesthetics, cinema, new media studies and folklore. It examines their strategic potential to draw upon and transform these areas in national and international contexts. This book will be useful to students, teachers and researchers in women's studies, gender studies, cultural studies, queer studies and South Asian studies.

The Routledge History of the Domestic Sphere in Europe

Joachim Eibach, Margareth Lanzinger, 2020-12-29. This book addresses the multifaceted history of the domestic sphere in Europe from the Age of Reformation to the emergence of modern society. By focusing on daily practice, interaction and social relations, it shows continuities and social change in European history from an interior perspective. The Routledge History of the Domestic Sphere in Europe contains a variety of approaches from different regions that each pose a challenge to commonplace views such as the emergence of confessional cultures of private life and of separate spheres of men and women. By analyzing a plethora of manifold sources including diaries, court records, paintings and domestic advice literature, this volume provides an overview of the domestic sphere as a location of work and consumption, conflict and cooperation, emotions and intimacy, and devotion and education. The book sheds light on changing relations between spouses, parents and children, masters and servants or apprentices and humans and animals or plants, thereby exceeding the notion of the modern nuclear family. This volume will be of great use to upper level graduates, postgraduates and experienced scholars interested in the history of family, household, social space, gender, emotions, material culture, work and private life in early modern and nineteenth century Europe.

Women's Albums and Photography in Victorian England Patrizia Di Bello, 2017-07-05

This beautifully illustrated study recaptures the rich history of women photographers and image collectors in nineteenth century England Situating the practice of collecting exchanging and displaying photographs and other images in the context of feminine sociability Patrizia Di Bello shows that albums express Victorian women's experience of modernity The albums of individual women and the broader feminine culture of collecting and displaying images are examined uncovering the cross references and fertilizations between women's albums and illustrated periodicals and demonstrating the way albums and photography itself were represented in women's magazines fashion plates and popular novels Bringing a sophisticated eye to overlooked images such

as the family photograph Di Bello not only illustrates their significance as historical documents but elucidates the visual rhetorics at play In doing so she identifies the connections between Victorian album making and the work of modern day amateurs and artists who use digital techniques to compile and decorate albums with Victorian style borders and patterns At a time when photographic album making is being re vitalised by digital technologies this book rewrites the history of photographic albums placing the female collector at its centre and offering an alternative history of photography focused on its uses rather than on its aesthetic or artistic considerations It is remarkable in elegantly connecting the history of photography with the fields of material culture and women s studies *The Debate, 1892, in the House of Commons on Women's Suffrage* ,1892 **Women's History Tour of the Twin Cities** Karen Mason,Carol Lacey,1982 The Shaping of History Judith Binney,2001 In this collection of essays writers explore the construction of history within a political process the changing impact of the Treaty of Waitangi Judith Binney looks at Maori oral narratives from colonial times and Angela Ballara reinforces the importance of using Maori language sources **Woman Suffrage and Women's Rights** Ellen Carol DuBois,1998-08-01 An essential examination of the woman suffrage movement In recent decades the woman suffrage movement has taken on new significance for women s history Ellen Carol DuBois has been a central figure in spurring renewed interest in woman suffrage and in realigning the debates which surround it This volume gathers DuBois most influential articles on woman suffrage and includes two new essays The collection traces the trajectory of the suffrage story against the backdrop of changing attitudes to politics citizenship and gender and the resultant tensions over such issues as slavery and abolitionism sexuality and religion and class and politics Connecting the essays is DuBois belief in the continuing importance of political and reform movements as an object of historical inquiry and a force in shaping gender The book which includes a highly original reconceptualization of women s rights from Mary Wollstonecraft to contemporary abortion and gay rights activists and a historiographical overview of suffrage scholarship provides an excellent overview of the movement including international as well as U S suffragism in the context of women s broader concerns for social and political justice Spaces of Hate Colin Flint,2013-10-18 While much has been written about hate groups and extreme right political movements this book will be the first that addresses the crucial role that place and context play in generating and shaping them Ranging across geographical scales the essays start with the home and then move from the local to the regional to the national to finally the global In this collection much of the focus is on the U S as the contributors consider a variety of hate activity and hate groups across the country including rural white supremacist and neo Nazi movements anti black sentiment directed towards cities anti gay activity in cities and rural areas and the resurgent Southern nationalist movement Closing with pieces from those who combat hate activity the intention of *Spaces of Hate* is to recognize specific geographic settings likely to foster hate activity **The Oxford Handbook of Science Fiction** Rob Latham,2014 The Oxford Handbook of Science Fiction attempts to descry the historical and cultural contours of SF in the wake of technoculture studies Rather than

treating the genre as an isolated aesthetic formation it examines SF's many lines of cross pollination with technocultural realities since its inception in the nineteenth century showing how SF's unique history and subcultural identity has been constructed in ongoing dialogue with popular discourses of science and technology The volume consists of four broadly themed sections each divided into eleven chapters Section I Science Fiction as Genre considers the internal history of SF literature examining its characteristic aesthetic and ideological modalities its animating social and commercial institutions and its relationship to other fantastic genres Section II Science Fiction as Medium presents a more diverse and ramified understanding of what constitutes the field as a mode of artistic and pop cultural expression canvassing extra literary manifestations of SF ranging from film and television to videogames and hypertext to music and theme parks Section III Science Fiction as Culture examines the genre in relation to cultural issues and contexts that have influenced it and been influenced by it in turn the goal being to see how SF has helped to constitute and define important sub cultural groupings social movements and historical developments during the nineteenth twentieth and twenty first centuries Finally Section IV Science Fiction as Worldview explores SF as a mode of thought and its intersection with other philosophies and large scale perspectives on the world from the Enlightenment to the present day
