risk posed by women may not reflect the level of support such women require Although progress has been made since the Corston recommendations a number of concerns remain the women s prison population has not fallen sufficiently fast over half of women offenders continue to receive ineffective short custodial sentences mental health and substance misuse treatment which could reduce use of custody remains unavailable to Courts in sufficient volume Maintaining a network of women s centres and using residential alternatives to custody are likely to be more effective and cheaper in the long run than short custodial sentences The Committee does not recommend substantive changes to the overall sentencing framework but argues instead for more emphasis to be placed on ensuring courts are provided with robust alternatives to custody specifically appropriate to women

The Criminalisation and Exploitation of Children in Care Julie Shaw, Sarah Greenhow, 2020-12-27 The Criminalisation and Exploitation of Children in Care explores the results of a recent qualitative study which focused on multi agency responses to children and young people in residential and foster care who were at risk of criminalisation and or exploitation and abuse Recent high profile reports have highlighted an urgent need for effective multi agency work to tackle the issues of criminalisation and exploitation of children and young people in care However progress to date has been slow and it is clear that there is still some way to go before effective multi agency working becomes widespread In response this book draws upon the experiences and perspectives of practitioners from a sample of co located Multi Agency Safeguarding Hubs as well as the latest research theory and policy developments in the field In doing so it explores both the benefits and challenges of multi agency working and concludes with recommendations for future policy and practice This timely study will be of great interest to students and scholars of criminology criminal justice policing studies social work health and childhood studies It will also be a valuable tool for practitioners and policymakers in the criminal youth justice and social service arenas
