Sacred Place in Early Medieval Neoplatonism L. Harrington, 2016-04-30 The twentieth century discovered the concept of sacred place largely through the work of Martin Heidegger and Mircea Eliade Their writings on sacred place respond to the modern manipulation of nature and secularization of space and so may seem distinctively post modern but their work has an important and unacknowledged precedent in the Neoplatonism of Late Antiquity and the early Middle Ages Sacred Place in Early Medieval Neoplatonism traces the appearance and development of sacred place in the writings of Neoplatonists from the third to ninth centuries and sets them in the context of present day debates over place and the sacred

Huxley, Evolutionism and the History of Transhumanism Ingrid Dunér, 2025-03-18 The evolutionary biologist Julian Huxley 1887 1975 attempted to promote a religion for the future which he would come to refer to as Transhumanism Transhumanism was an attempt to unite a more traditional humanistic view of the human as containing some form of core essence or potential with an evolutionary point of view of humans as a work in progress Before humans natural selection had been responsible for the transformation of life Through its ordering principles and through chance it had given rise to humankind which had ushered in a new phase of evolution Humanity stood on the threshold of yet another critical point in evolution The consciously purposive phase of evolution This open access book explores the history of transhumanism by analyzing how Julian Huxley s transhumanism develops and why it does at this particular point in time by placing it firmly

within the context of his specific scientific and sociopolitical milieu starting roughly in the interwar years and stretching over the Second World War to the 1970s Continuing the study then focuses on the new transhumanists of the 1970s 1980s and 1990s and investigates continuity in mode of thinking contributing to a more coherent understanding of transhumanism its history and of modern projects of human enhancement The book captures how scientific and technological development in relation to society and social order shapes images and expectations of the future and of what future is desirable *21st Century Christian America??* Alan Smith,2020-12-29 Considering the current anti Christian cultural events and the perverted spiritual state of the nation among its people and media can we as one nation under God still justly proclaim to be a Christian nation Take a trip through time as we review the rise and fall of the influence and impact Christianity and the church has had in America s culture development and destiny Join us as we discuss the highlights of the past four hundred years of Christian America s history and heritage the crisis and spiritual civil war of today s present then the hope and possibilities of the church and Christian America s future destiny As seen through the eyes of an average born again Christian American citizen and a mystery guest As they share their personal testimonies and insight from a unique spiritual prospective In an effort to answer the question Is America a Christian or secular nation Our children s and nation s future and fate will be determined on how we individually and corporately answer and proceed into the twenty first century There is a blessed new beginning on the horizon If we re united we can surely pursue and promote God s dream and plan for America s destiny **Deceptive Lights** Steven Pacey,2004-10 The battle between Satan and human beings began in the Garden of Eden and continues to this day Running conflicts between Christians and the dark lords perfected the skill and cunning of mankind s most dreaded enemies as the pages of history steadily advanced The endless acts of madness and insanity that broadcast themselves through everything from the major media to neighborhood conversations continually reveal that Satan and his demonic legions have indeed crowned themselves in the knighthood of evil The imminent emergence of the third Elijah and the dwindling time that precedes the Second Coming of Jesus will escalate the battle to its climactic conclusion Your survival will largely depend on your ability to learn to battle the evil monstrosities that will seek the destruction of all mankind an ability that can only come through the knowledge provided by God Neutrality and indifference will not protect you In the years that remain prior to the Second Coming of Jesus nature and many human beings will seemingly go insane as the evil ones throw every last desperate punch It will indeed be a time of fear and dread such as has never been seen in the history of mankind

Musical Listening in the German Enlightenment Matthew Riley,2017-07-05 The silent attentiveness expected of concert audiences is one of the most distinctive characteristics of modern Western musical culture This is the first book to examine the concept of attention in the history of musical thought and its foundations in the writings of German musical commentators of the late eighteenth century Those critics explained numerous technical features of the music of their time as devices for arousing sustaining or otherwise influencing the attention of a listener citing in illustration works by Gluck C P

E Bach Georg Benda and others Two types of attention were identified the uninterrupted experience of a single emotional state conveyed by a piece of music as a whole and the fleeting sense of wonder or astonishment induced by a local event in a piece The relative validity of these two modes was a topic of heated debate in the German Enlightenment encompassing issues of musical communication compositional integrity and listener competence Matthew Riley examines the significant writers on the topic Descartes Leibniz Wolff Baumgarten Rousseau Meier Sulzer and Forkel and provides analytical case studies to illustrate how these perceived modes of attention shaped interpretations of music of the period

Mademoiselle Louise Michel Patrick LOISEAU,2020-11-27 At the end of 2018 with the invective common sense intellectual and social authoritarian regression under way increasingly identified with the five year period of Sarkozy Hollande and Macron the real progressives that is to say trade unionists and revolutionaries as enemies to be defeated at least in regard to morality and expression it is urgent to face this attempt to ideologically crush the portraits of those who have shown us the way to make our society other than a financial market or a feudal state Mademoiselle Louise Michel is one of these extraordinary characters I call her Mademoiselle as her publisher did in 1886 out of respect and to keep in mind as well the common observation that Louise Michel was not a revolutionary certainly but also a sensitive and engaging person who said of herself I do not deserve it since I follow my inclinations like all beings and all things do but I am not a monster either We are all the product of our times that s all Each of us has his qualities and defects it is the common law but no matter what we are if our work is great and covers us with its light it s not about us in what we start it s about what will leave for humanity when we are gone
