The Historiography Of The Holocaust:

The Historiography of the Holocaust D. Stone, 2004-01-20 This collection of essays by leading scholars in their fields provides the most comprehensive and up to date survey of Holocaust historiography available Covering both long established historical disputes as well as research questions and methodologies that have developed in the last decade s massive growth in Holocaust Studies this collection will be of enormous benefit to students and scholars alike *Histories of the Holocaust* Dan Stone, 2010-06-17 A comprehensive and accessible guide to the major themes and debates in Holocaust historiography over the last two decades The Holocaust and Historical Methodology Dan Stone, 2012-08-01 In the last two decades our empirical knowledge of the Holocaust has been vastly expanded Yet this empirical blossoming has not been accompanied by much theoretical reflection on the historiography This volume argues that reflection on the historical process of re constructing the past is as important for understanding the Holocaust and by extension any past event as is archival research It aims to go beyond the dominant paradigm of political history and describe the emergence of methods now being used to reconstruct the past in the context of Holocaust historiography **The Historiography of the Holocaust** D. Stone, 2004 This collection of essays by leading scholars in their fields provides the most comprehensive and up to date survey of Holocaust historiography available Covering both long established historical disputes as well as research questions and methodologies that have developed in the last decade s massive growth in Holocaust Studies this collection will be of enormous benefit to students and scholars alike *Holocaust Historiography* Dan Mikhman, 2003 A collection of articles lectures and reviews some of them published previously Includes some material not published in the Hebrew version and some which appeared only in the French or German version Partial contents *Constructing the Holocaust* Dan Stone, 2003 On the one hand then this is traditional historiography the history of history writing On the other hand the problem is approached via recent work in the philosophy of history closely analysing historical works as texts This is an interdisciplinary study that brings to bear on historiography the kind of textual analysis usually reserved for fiction testimony or film The Holocaust precisely because it throws into doubt older methodologies demands the search for new ones Showing how Holocaust historians inadvertently and paradoxically reinscribe into the wider culture patterns of thought that the Holocaust repudiated *Constructing the Holocaust* tries to respond to the Holocaust in a way that recognises its potential impact on usually unquestioned beliefs and unspoken methodological assumptions BOOK JACKET *Empire, Colony, Genocide* A. Dirk Moses, 2008 In 1944 Raphael Lemkin coined the term genocide to describe a foreign occupation that destroyed or permanently crippled a subject population This text is a world history of genocide that highlights what Lemkin called the role of the human group and its tribulations *The Holocaust and the Historians* Lucy S. Dawidowicz, 1981 The author opens by providing an overview which highlights the tragic magnitude of the Holocaust she examines the historical studies written on the Holocaust emphasizing the insufficient recording of the period by historians *The Historiography of Genocide* Anton

Weiss-Wendt, Robert Krieken, Alfred A. Cave, Ben Kiernan, Doris Bergen, David Moshman, Victoria Sanford, John Docker, Robert Hitchcock, 2008-02-13 The *Historiography of Genocide* is an indispensable guide to the development of the emerging discipline of genocide studies and the only available assessment of the historical literature pertaining to genocides

Holocaust Historiography in Context David Bankier, Dan Mikhman, 2008 The modes in which historical research is being shaped have become themselves topics of research Holocaust historiography the documentation depiction and analysis of one of the most horrific events in human history is today a wide ranging academic field in which Jewish and non Jewish scholars throughout the world are active But how did this historiography especially its Jewish aspect emerge and by what factors was it shaped This volume examines the very beginnings of the effort to apply scholarly standards to the understanding of the Holocaust when World War II was still raging and immediately after it had ended *How to Write About the Holocaust* Theodor Pelekanidis, 2022-05-05 *How to Write About the Holocaust* is a contribution to ongoing debates in historiography and Holocaust studies More specifically it combines the theoretical framework that has developed in historiography in the last half a century with the demands of Holocaust representation The first part of the book analyzes the newest trends in theory of history focusing especially on postmodernism starting from the works of the American historian and theorist Hayden White and tracing the genealogy of the postmodern influence in history both from an epistemological and from a political perspective The second part continues by incorporating these theoretical developments into specific written examples on the Holocaust By analyzing major works about it including Saul Friedlander's and Dan Stone's histories of the Holocaust the book attempts to answer questions like what is the most appropriate way to write about the Holocaust and what can theory teach us about the practice of history To conclude the volume explores the connection between history and literature and asks if the distinction between fact and fiction has become outdated *Handbook of Genocide Studies* David J. Simon, Leora Kahn, 2023-02-14 Providing an intellectual biography of the challenging concept of genocide this topical *Handbook* takes an interdisciplinary approach to shed new light on the events processes and legacies in the field *The Routledge History of East Central Europe since 1700* Irina Livezeanu, Arpad von Klimo, 2017-03-16 Covering territory from Russia in the east to Germany and Austria in the west *The Routledge History of East Central Europe since 1700* explores the origins and evolution of modernity in this turbulent region This book applies fresh critical approaches to major historical controversies and debates expanding the study of a region that has experienced persistent and profound change and yet has long been dominated by narrowly nationalist interpretations Written by an international team of contributors that reflects the increasing globalization and pluralism of East Central European studies chapters discuss key themes such as economic development the relationship between religion and ethnicity the intersection between culture and imperial national wartime and revolutionary political agendas migration women's and gender history ideologies and political movements the legacy of communism and the ways in which various states in East Central Europe deployed and were formed by the politics of

memory and commemoration This book uses new methodologies in order to fundamentally reshape perspectives on the development of East Central Europe over the past three centuries Transnational and comparative in approach this volume presents the latest research on the social cultural political and economic history of modern East Central Europe providing an analytical and comprehensive overview for all students of this region

The Holocaust and Historical Methodology Dan Stone, 2012 This book is timely and necessary and often extremely challenging It brings together an impressive cast of scholars spanning several academic generations Anyone interested in writing about the Holocaust should read this book and consider the implications of what is written here for their own work There seems to me little doubt that Holocaust history writing stands at something of a cross roads and the ways forward that this volume points to are extremely thought provoking Tom Lawson University of Winchester

The Social Scientific Study of Jewry Uzi Rebhun, 2014 This volume of Studies in Contemporary Jewry directs its searchlight on the social scientific study of Jewry Its symposium consists of 11 essays that discuss sources approaches and debates in different complementary fields of demography sociology economy and geography Taken as a group the essays cover the major areas of Jewish life today in Israel the United States Europe and Latin America

Studies in Contemporary Jewry: X: Reshaping the Past Jonathan Frankel, 1995-03-30 This brilliant collection of essays examines the dialogue between Jewish history and historiography in terms of changing national and popular myths folk memory and historical consciousness of Jews in modern times From essays dealing with the origins of Jewish historiography in the nineteenth century to its contemporary perspectives and methodologies this book provides a great overview and varied insights into the field

History and Psychoanalysis in the Columbus Centre Danae Karydaki, 2023-12-26 This book draws on a range of key archives and oral testimonies to provide the first systematic and historical study of the origins context development frustrations inner contradictions and legacies of the Columbus Centre The Columbus Centre a remarkable though largely forgotten research institute was established at the University of Sussex in 1966 triggered by claims of a dearth of academic research about Nazism and the Holocaust Its basic stated aim was to bring together psychoanalysis and history for a scholarly investigation of discrimination mass violence and the preconditions of genocide in the past and the present The Nazi crimes were studied along with other instances of prejudice and mass violence such as sixteenth and seventeenth century witch hunts South African apartheid the persecution of the Roma people and race relations in the United States and modern day Britain The book seeks to place the Columbus Centre in the historiography of mass violence by analysing the Centre s works through four historiographical prisms or power relations in which they were produced psychoanalysis class race and gender This interdisciplinary volume is a valuable text for scholars and students of historiography psychoanalysis genocide and violence and postwar Europe and for professionals within the field of psychology

Studies in Contemporary Jewry Jonathan Frankel, 1998-02-05 Was the Holocaust a natural product of a long German history of Anti Semitism Or were the Nazi policies simply a wild mutation of history not necessarily connected to the past Or

does the truth lie somewhere in between This latest volume in the acclaimed Studies in Contemporary Jewry series edited by internationally known scholars at the Hebrew University in Jerusalem presents essays on the origins of the Holocaust The works in this volume are diverse in scope and opinion ranging from general philosophical discourses to detailed analyses of specific events and often reflecting the divergent ideologies and methods of the contributors But each adds to the whole and the result is a fascinating panorama that is sure to be indispensable to all students and scholars of the subject **Hannah**

Arendt and the Uses of History Richard H. King, Dan Stone, 2008-09 Hannah Arendt first argued the continuities between the age of European imperialism and the age of fascism in Europe in *The Origins of Totalitarianism* This text uses Arendt's insights as a starting point for further investigations into the ways in which race imperialism slavery and genocide are linked
