The History of al-Ṭabarī Vol. 25 ,2015-06-29 This volume deals with the part of al-Ṭabarī's great History covering the first fifteen years of the caliphate of the Umayyad Hish m ibn Abd al Malik which represents almost the last period of universal political unity in Islamic history Tabarī's work is generally recognized as among the most important sources for Hish m's reign Here the bitter fighting faced by the Muslim forces on the frontiers receives extensive and graphic coverage In particular the unrewarding and continuous war against the pagan Turks in Khurasan a struggle that did so much to alienate the troops and thus to spread disaffection with Umayyad rule is recorded in much more detail than elsewhere Military disasters such as the Day of Thirst the Day of Kamarjah and the Day of the Defile are vividly portrayed al-Ṭabarī also devotes considerable attention to the growing internal problems that clouded the latter days of Hish m's rule including the persistent contest for power between the great tribal groupings and the struggle of non Arab Muslims for better status for themselves in the Islamic state The burgeoning fiscal difficulties that threatened the state under Hish m are also highlighted Additionally there are many reports of the earliest Abb sid revolutionary activity This volume is not only essential for the study of the reign of Hish m but also for understanding the background of the Umayyads downfall and the establishment of Abb sid rule laying bare some of the roots of the final breakdown of Islamic political unity A discounted price is available when purchasing the entire 39 volume History of al-Ṭabarī set Contact SUNY Press for more information

Money, Power and Politics in Early Islamic Syria John Haldon, 2016-04-22 The transformation of the eastern provinces of the Roman empire from the middle of the seventh century CE under the impact of Islam has attracted a good deal of scholarly attention in recent years and as more archaeological material becomes available has been subject to revision and rethinking in ways that radically affect what we know or understand about the area about state building and the economy and society of the early Islamic world and about issues such as urbanisation town country relations the ways in which a different religious culture impacted on the built environment and about politics This volume represents the fruits of a workshop held at Princeton University in

May 2007 to discuss the ways in which recent work has affected our understanding of the nature of economic and exchange activity in particular and the broader implications of these advances for the history of the region

Fundamentalism Simon A. Wood, David Harrington Watt, 2014-05-26 Essays considering how global fundamentalism influences our understanding of modern Christianity Judaism and Islam Thirty years after the Iranian Revolution and more than a decade since the events of 2001 the time is right to examine what the discourse on fundamentalism has achieved and where it might head from here In this volume editors Simon A Wood and David Harrington Watt offer eleven interdisciplinary perspectives framed by the debate between advocates and critics of the concept of fundamentalism that investigate it with regard to Christianity Islam and Judaism The essays are integrated through engagement with a common selection of texts on fundamentalism and a common set of questions about the utility and disadvantages of the term its varied application by scholars of particular groups and the extent to which the term can encompass a cross cultural set of religious responses to modernity Although the notion of fundamentalism as a global phenomenon dates from around 1980 the term itself originated in North American Protestantism approximately six decades earlier and acquired pejorative connotations within five years of its invention Since the early 1990s however many scholars have endorsed the view that the notion of fundamentalism as relying on literalist interpretations of the scriptures firm commitment to patriarchy or refusal to confine religious matters to the private sphere facilitates our understanding of modern religion by enabling us to identify and label structurally analogous developments in different religions Critics of the term have identified problems with it above all that the idea of global fundamentalism confuses more than it clarifies and unjustifiably overlooks downplays or homogenizes difference more than it identifies a genuine homogeneity The editor's rigorous exploration of both the usefulness and the limitations of the concept make it an excellent counterpoint to the many books that have a great deal to say about the former and very little to say about the latter It will also serve as an ideal text for religious studies history and anthropology courses that explore the complex interface between religion and modernity as well as courses on theory and method in religious studies

Fathers and Sons M. McMillan, 2013-06-18 This book traces the rise of the political dynasty in the Middle East and in the process provides the context for the current Arab uprising The author shows that a father to son transfer of power has no basis in Islam and yet the idea of dynastic power became entrenched in the Middle East

organization and the birth of settled political order in South Asia The History of Jihad Robert Spencer, 2018 It is taken for granted even among many Washington policymakers that Islam is a fundamentally peaceful religion and that Islamic jihad terrorism is something relatively new a product of the economic and political ferment of the twentieth century But in The History of Jihad From Muhammad to ISIS Islamic scholar Robert Spencer proves definitively that Islamic terror is as old as Islam itself as old as Muhammad the prophet of Islam who said I have been made victorious through terror Spencer briskly traces the 1 400 year war of Islamic jihadis against the rest of the world detailing the jihad against Europe including the 700 year struggle to conquer Constantinople the jihad in Spain where non Muslims fought for another 700 years to get the jihadi invaders out of the country and the jihad against India where Muslim warriors and conquerors wrought unparalleled and unfathomable devastation in the name of their religion Told in great part in the words of contemporary chroniclers themselves both Muslim and non Muslim The History of Jihad shows that jihad warfare has been a constant of Islam from its very beginnings and present day jihad terrorism proceeds along exactly the same ideological and theological foundations as did the great Islamic warrior states and jihad commanders of the past The History of Jihad From Muhammad to ISIS is the first one volume history of jihad in the English language and the first book to tell the whole truth about Islam s bloody history in an age when Islamic jihadis are more assertive in Western countries than they have been for centuries This book is indispensable to understanding the geopolitical situation of the twenty first century and ultimately to formulating strategies to reform Islam and defeat radical terror **The Pillars of Islam: Acts of devotion and religious observances** Abū Ḥanīfah Nu'mān ibn Muḥammad, Ismail K. Poonawala, 2002 The Pillars of Islam was the culmination of Nu man s more than thirty years of effort in the field of jurisprudence Considered to be the greatest authority on Isma ili law this work is essential for scholars and students of Islamic law *Department of the Interior and Related Agencies Appropriations for 1991* United States. Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies, 1990 **Kings and Dervishes** Said Amir Arjomand, 2025-03-11 Sa d Amir Arjomand s Kings and Dervishes is a pioneering study of the emergence and development of Sufism during the formation of the Persianate world Whereas Sufi doctrine was expressed in the New Persian language its social organization was detached from the civic movement among the urban craftsmen and artisans known as the *fotovva t* and was politically shaped by multiple forces first by the revival of Persian kingship and then by the emergence of the Turko Mongolian empires The intermingling of Sufism s developmental path with the transformation of the Persianate political regimes resulted in the progressive appropriation of royal symbols by the Sufi shaykhs The original Sufi world renunciation gave way first to world accommodation and the medieval love mysticism of Jal l al Din Rumi and H fez of Shiraz and then to world domination This comprehensive work of historical sociology traces these spiritual and political evolutions over the course of some six centuries showing how the Sufi saints symbolic sovereignty was eventually made real in the imperial kingship of the Persianate world s early modern empires
