The Alter Ego: Perspectives of Literary Historiography Min Wang, 2013-07-05. This book mainly discusses about the alter ego perspectives in literary historiography. This comparative analysis of the major Chinese literary histories in China and in the West brings to light the alter ego perspectives of Stephen Owen in literary historiography. The most interesting part of the book will be the interpretation of new notions and perspectives proposed by Stephen Owen, especially in the newly published *The Cambridge History of Chinese Literature* (2010). This book gives a detailed overview about the different stages of writing Chinese literary history and the different modes of literary historiography in China and in the West. Two case studies of Chinese poems are made on the notion of discursive communities and the Cultural Tang. Readers will have a better understanding about the paradigm of literary historiography and the interrelationships between the different modes of literary historiography and the intellectual history.

In Defense of Asian American Studies Sucheng Chan, 2005. *In Defense of Asian American Studies* offers fascinating tales from the trenches on the origins and evolution of the field of Asian American studies as told by one of its founders and most highly regarded scholars. Wielding intellectual energy, critical acumen and a sly sense of humor, Sucheng Chan discusses her experiences on three campuses within the University of California system as Asian American studies was first developed in response to vehement student demand under the rubric of ethnic studies. Chan speaks by turns as an advocate and an administrator striving to secure a place for Asian American studies as a teacher working to give Asian American students a voice and white students a perspective on race and racism and as a scholar and researcher still asking her own questions. The essays span three decades and close with a piece on the new challenges facing Asian American studies. Eloquent documentation of a field of endeavor in which scholarship and identity define and strengthen each other. *In Defense of Asian American Studies* combines analysis, personal experience and indispensable practical advice for those engaged in building and sustaining Asian American studies programs.
