## **The History Of Christianity:**

**A Short Introduction to the History of Christianity** Tim Dowley, 2018-06-01 Tim Dowley's masterful one volume survey of church history is now available in a new concise format designed with today's student in mind. Each section of Dowley's Introduction to the History of Christianity has been reviewed and content edited to create a more compact summary of Christian history. This new shorter introduction retains the full color format of the popular full edition including the third edition's new images and maps. Dowley has assembled a global cast of respected scholars to write the full story of the rise of the Christian faith and to provide a rounded picture of the worldwide development of Christianity. The volume has been praised as accurate, scholarly, and balanced. Its writers are committed to Christianity but also to the unhindered pursuit of truth that does not avoid the darker aspects of the varied story of Christianity. The accessible text is supported by detailed timelines, maps, profiles of key figures in Christianity, colorful images, and a complete glossary. Each section includes questions for discussion.

**A New History of Christianity** Hans J. Hillerbrand, 2012-08-01 This book is a history of Christianity from its earliest beginnings to the end of the twentieth century. The book provides students with an introduction to the many persons, places, movements, and events necessary for the telling of our story: the story of the Church. This history of Christianity is told in its essentials simply and straightforwardly for students with little or no experience in the academic study of religion. It is a story told within the complex contexts of larger world events and world cultures but defined and simplified by attention to those developments which have proven most influential for the past and present shaping of Church thought and practice. The book is a comprehensive and definitive introduction to the history of Christianity. It provides students with the necessary outline and description of the broad sweep of movements and periods in this history but it also pauses at important points to provide details about the lives of Christians as lived at various times and in various locations. This story is told in easy-to-understand prose and with illustrative photographs, maps, and charts.

**A Short World History of Christianity, Revised Edition** Robert Bruce Mullin, 2014-11-22 Church historians have long known and appreciated

Christianity's global history. Until recently, however, introductory textbooks on the history of Christianity focused almost exclusively on Europe and North America. Robert Bruce Mullin's *A Short World History of Christianity* by contrast offers a panoramic picture of the history of Christianity in its Western and non-Western expressions. It tells the story of the early church in the Greek East as well as the Latin West of Christianity's spread into Asia as well as Europe during the Middle Ages and its explosion around the world during the modern period. Mullin's highly readable narrative explores why global perspectives have emerged so strongly in our understanding of the story of Christianity and how they have impacted Christianity's perspective on its place in the world. This newly revised edition adds information on such global phenomena as

early Syriac speaking Christianity the growth of Pentecostalism around the world especially in the southern hemisphere and recent trends in Christianity including the elevation of the first pope born in the Americas A time line of key dates call out boxes and other helpful study materials are also provided Beginning students will appreciate this memorable introduction to the most important events in the history and development of Christianity
