## **The History Of Needlework Tools And Accessories:**

**The History of Needlework Tools and Accessories** Sylvia Groves, 1966 This is a most unusual book dealing with a subject that has never previously been so thoroughly examined It concerns the tools and accessories that have been used in needlework throughout the centuries and their relation to the history and development of needlework itself A glance at some of the chapter headings gives an indication of the scope of the book Needles and Needle cases Scissors and Knives Work boxes and Work tables Embroiderers Tools and Cord making Appliances Knitting Netting Knotting Purse making and Pillow lace Not only is the evolution of the more everyday implements traced in detail the reader is introduced into a world of Hemming birds Niddy noddies Yarningles Lucettes and Drizzling pins the terms used are as delightful as the objects themselves There are more than 200 illustrations Some are from museums and art galleries in this country the United States and the Continent others are from the author s own unique collection of tools There are metal sewing boxes worn by Anglo Saxon women needles and pins of medieval times costly knotting shuttles used in the days of Marie Antoinette and all the varied paraphernalia of the Victorian era The author quotes extensively and most appropriately from many literary sources including Chaucer Defoe Jane Austen Hans Andersen the diaries of Parson Woodforde etc giving some indication of the enormous amount of research she has undertaken She is herself a needlewoman familiar with all the processes she mentions To anyone interested in needlework and to the social historian this will be a valuable book of reference It also presents many challenges to the collector who will surely be inspired to search for the numerous delightful and once useful things described the delicate tubular needle cases of the Georgian and Victorian periods the sewing clamps or grippers that were so popular in the United States in the early 19th century the bobbins used for pillow lace with their intriguing inscriptions and the small stilettos needed for Broderie Anglaise or for that curious and long forgotten pursuit of Parfilage **Hedonizing**

**Technologies** Rachel P. Maines, 2009-08-01 Rachel P Maines s latest work examines the rise of hobbies and leisure activities in Western culture from antiquity to the present day As technologies are hedonized consumers find increasing pleasure in the hobbies associated tools methods and instructional literature Work once essential to survival and comfort gardening hunting cooking needlework home mechanics and brewing have gradually evolved into hobbies and recreational activities As a result the technologies associated with these pursuits have become less efficient but more appealing to the new class of leisure artisans Maines interprets the growth and economic significance of hobbies in terms of broad consumer demand for the technologies associated with them Hedonizing Technologies uses bibliometric and retail census data to show the growth in world markets for hobby craft tools books periodicals and materials from the late 18th century to today The book addresses basic issues in the history of labor and industry and makes an original contribution to the discussion of how technology and people interact **The Annotated Emma** Jane Austen, David M. received a fresh jolt of inspiration and insight in The New Tunisian Crochet Heidi A. Strobel, 2023-11-30 The Art of Mary Linwood is the first book on Leicester textile artist Mary Linwood 1755-1845 and catalogue of her work. When British textile artist and gallery owner Mary Linwood died in 1845 just shy of 90 years old her estate was worth the equivalent of 5 199 822 in today's currency. As someone who made but did not sell embroidered replicas of famous artworks after artists such as Gainsborough, Reynolds, Stubbs and Morland, how did she accumulate so much money? A pioneering woman in the male-dominated art world of late Georgian Britain, Linwood established her own London gallery in 1798 that featured copies of well-known paintings by these popular artists. Featuring props and specially designed rooms for her replicas, she ensured that her visitors had an entertaining, educational and kinetic tour similar to what Madame Tussaud would do one generation later. The gallery's focus on picturesque painters provided her London visitors with an idyllic imaginary journey through the countryside. Its emphasis on quintessentially British artists provided a unifying focus for a country that had recently emerged from the threat of Napoleonic invasion. This book brings to the fore Linwood's gallery guides and previously unpublished letters to her contemporaries such as Birmingham inventor Matthew Boulton and Queen Charlotte. It also includes the first and only catalogue of Linwood's extant and destroyed works. By examining Linwood's replicas and their accompanying objects through the lens of material culture, the book provides a much-needed contribution to the scholarship on women and cultural agency in the early 19th century.

**Art Needlework and Embroidery Transfers 1870-1970** Molly Proctor, 2009-10-03 Molly Proctor, notable collector of historical needlework and author of *Needlework Tools and Accessories: A Collector's Guide* and *Victorian Canvas Work* (Berlin Wool Work), has now turned her attention to the hitherto neglected field of needlework stitched from printed transfers. Proctor interviewed workers, many of whom are now dead, connected with the transfer print industry and reveals a history of patent disputes, Victorian patterns, Art Deco and Art Nouveau artists' needle etchings, occupational therapy for wounded soldiers, even a soldier stitching at Dunkirk while waiting for rescue. Illustrated throughout with beautiful colour photographs, this is a book both to inform the historian and inspire the needlewoman.

Artifacts of the Spanish Colonies of Florida and the Caribbean, 1500-1800 Kathleen Deagan, 2023-08-08 This long-awaited follow-up to Deagan's first volume on ceramics, glassware and beads focuses on the portable personal objects owned and used by the residents of Spanish colonial America. These objects are not only of Spanish origin; the collection includes many English, French, Dutch, German, Italian and American pieces as well. Deagan not only provides an authoritative source of identification for these items but also draws extensively on colonial documents, travel accounts, paintings and museum collections as well as other contemporary sources to suggest specific functions of the items and the meanings they held for the people who used them. She documents and demonstrates how the objects were made and exchanged in the Americas and explores how they embody Hispanic cultural identities, attitudes and belief systems.

**An Archaeology of Institutional Confinement** Peter Davies, Penny Crook, Tim Murray, 2013-09-29 The archaeological assemblage from the Hyde Park Barracks is one of the largest most comprehensive and best preserved collections of artefacts from any 19th century institution in the world Concealed for up to 160 years in the cavities between floorboards and ceilings the assemblage is a unique archaeological record of institutional confinement especially of women The underfloor assemblage dates to the period 1848 to 1886 during which a female Immigration Depot and a Government Asylum for Infirm and Destitute Women occupied the second and third floors of the Barracks Over the years the women discarded and swept beneath the floor thousands of clothing and textile fragments tobacco pipes religious items sewing equipment paper scraps and numerous other objects many of which rarely occur in typical archaeological deposits These items are presented in detail in this book and provide unique insight into the private lives of young female migrants and elderly destitute women most of whom will never be known from historical records

*Material Literacy in 18th-Century Britain* Bloomsbury Publishing, 2020-09-03 The eighteenth century has been hailed for its revolution in consumer culture but *Material Literacy in Eighteenth Century Britain* repositions Britain as a nation of makers It brings new attention to eighteenth century craftswomen and men with its focus on the material knowledge possessed not only by professional artisans and amateur makers but also by skilled consumers This edited collection gathers together a group of interdisciplinary scholars working in the fields of art history history literature and museum studies to unearth the tactile and tacit knowledge that underpinned fashion tailoring and textile production It invites us into the workshops drawing rooms and backrooms of a broad range of creators and uncovers how production and tacit knowledge extended beyond the factories and machines which dominate industrial histories This book illuminates for the first time the material literacies learnt enacted and understood by British producers and consumers The skills required for sewing embroidering and the textile arts were possessed by a large proportion of the British population men women and children professional and amateur alike Building on previous studies of shoppers and consumption in the period as well as narratives of manufacture these essays document the multiplicity of small producers behind Britain's consumer revolution reshaping our understanding of the dynamics

between making and objects consumption and production It demonstrates how material knowledge formed an essential part of daily life for eighteenth century Britons Craft technique practice and production the contributors show constituted forms of tactile languages that joined makers together whether they produced objects for profit or pleasure Ornamentalism Bella Mirabella,2011 Original essays by leading scholars on the significance of accessories in the cultural social and political lives of men and women in the Renaissance **Bookseller and the Stationery Trades' Journal** ,1973 **Object and Economy in Medieval Winchester** Martin Biddle,2025-04-03 Over 6000 objects were recovered during the Winchester excavations 1961 1971 offering insight not only into the industries and arts but the economic cultural and social life of medieval Winchester This volume covers all the objects from the finest products of the Anglo Saxon goldsmith s skill to the iron tenter hooks of the cloth industry **European Women and Preindustrial Craft** Daryl M. Hafter,1995-07-22 These essays with their combination of fascinating detail with respect to the individual industries and their innovatory conceptual approach will be a most valuable source for any student of labor and gender history Labor History an engaging and thought provoking volume Technology and Culture Essays examine key 18th and 19th century industries including spinning weaving calico painting and the lingerie trade Focusing on links between women s preindustrial craft production and heavy industrialization this volume shows how women adopted or rejected new technology in various situations helping maintain social peace during profound economic dislocation Sweet and Clean? Susan North,2020-03-26 Sweet and Clean challenges the widely held beliefs on bathing and cleanliness in the past For over thirty years the work of the French historian George Vigarello has been hugely influential on early modern European social history describing an aversion to water and bathing and the use of linen underwear as the sole cleaning agent for the body However these concepts do not apply to early modern England Sweet and Clean analyses etiquette and medical literature revealing repeated recommendations to wash or bathe in order to clean the skin Clean linen was essential for propriety but advice from medical experts was contradictory Many doctors were convinced that it prevented the spread of contagious diseases but others recommended flannel for undergarments and a few thought changing a fever patient s linens was dangerous The methodology of material culture helps determine if and how this advice was practiced Evidence from inventories household accounts and manuals and surviving linen garments tracks underwear through its life cycle of production making wearing laundering and final recycling Although the material culture of washing bodies is much sparser other sources such as the Old Bailey records paint a more accurate picture of cleanliness in early modern England than has been previously described The contrasting analyses of linen and bodies reveal what histories material culture best serves Finally what of the diseases plague smallpox and typhus that cleanliness of body and clothes were thought to prevent Did following early modern medical advice protect people from these illnesses Bits and Pieces Jeannette Lasansky,1991
