Looking Forward Soroptimist International of Edinburgh,2008* Dubious Equalities and Embodied Differences Kathy Davis,2003 Kathy Davis explores cosmetic surgery as a cultural phenomenon of late modernity She critically engages with the notion of cosmetic surgery as a neutral technology and shows how it is implicated in the surgical erasure of embodied difference *Suzanne Noël: Cosmetic Surgery, Feminism and Beauty in Early Twentieth-Century France* Paula J. Martin,2016-03-09 Working at the forefront of cosmetic surgery at the turn of the twentieth century Dr Suzanne No l was both a pioneer in her medical field and a firm believer in the advancement of women Today her views on the benefits of aesthetic surgery to women may seem at odds with her feminist principles but by placing No l in the context of turn of the century French culture this book is able to demonstrate how these two worldviews were reconciled No l was able to combine her intense convictions for gender equality and anti ageism in the workforce with her underlying compassion and concern for her female patients during a time when there were no laws in place to protect women from workplace discrimination She was also responsible for several advances in cosmetic surgery a thriving industry and is today best known for her development of the mini facelift This book therefore sheds much valuable light on advances in aesthetic surgery twentieth century beauty culture women and the public sphere and the new woman **Women, Clubs and Associations in Britain** David
