Between the morning of Wednesday November 4 and the morning of Thursday November 5 1981 a fateful drama unfolded that changed Canada forever In one last attempt to renew the constitution with the consent of the provinces Prime Minister Pierre Elliott Trudeau met behind closed doors in Ottawa with the ten premiers It was the culmination of more than five decades of constitutional wrangling and has been called the most important conference since the Fathers of Confederation got together in Quebec City in 1864 Faced with the threat of Quebec independence the ambitions of Western Canada and the provinces demands for more power Trudeau was embattled But he was fiercely determined to make Canadians fully independent and to entrench a Charter of Rights and Freedoms What happened that day still reverberates It severed the last important link to Canada s colonial past It guaranteed individual liberty and minority rights in the future It weakened the grip of the elites and gave ownership of the constitution to Canadians But it came at a price Quebec alone refused to sign the final deal Ren L vesque its separatist premier claimed he had been betrayed by his allies in the Gang of Eight The legend of the Night of the Long Knives took hold precipitating a series of events that came close to destroying the country Thirty years later author Ron Graham delivers a gripping account of the fractious debates and secret negotiations He uses newly uncovered documents and the candid recollections of many of the key participants to create a vivid record of that momentous twenty four hours Authoritative and engaging *The Last Act* is a remarkable combination of scholarly research and historical narrative Writing History Michael Bliss, 2011-09-20

When the colonies that became the USA were still dominions of the British Empire they began to imagine their sporting pastimes as finer recreations than even those enjoyed in the motherland From the war of independence and the creation of the republic to the twenty first century sporting pastimes have served as essential ingredients in forging nationhood in American history This collection gathers the work of an all star team of historians of American sport in order to explore the origins and meanings of the idea of national pastimes of a nation symbolized by its sports These wide ranging essays analyze the claims

of particular sports to national pastime status from horse racing hunting and prize fighting in early American history to baseball basketball and football more than two centuries later These essays also investigate the legal political economic and culture patterns and the gender ethnic racial and class dynamics of national pastimes connecting sport to broader historical themes American National Pastimes chronicles how and why the USA has used sport to define and debate the contours of nation This book was published as a special issue of the International Journal of the History of Sport The History of Canada Series: The Best Place To Be John Lownsbrough,2012-04-17 A pivotal event in Canada s history For six months in 1967 from late April until the end of October Canada and its world s fair Expo 67 became the focus of national and international attention in a way the country and its people had rarely experienced Expo 67 crystallized the buoyant mood and newfound sense of confidence many felt during Canada s centennial It becomes clearer though as its forty fifth anniversary approaches in spring 2012 that Expo was something more than just a great world s fair For many Canadians it became a touchstone a popular event that penetrated the collective psyche The Best Place to Be takes a look at Expo and at the social and political contexts in which it occurred It is above all a story of people the young men and women who worked at Expo the visitors and the cameo appearances from the titled and celebrated such as Elizabeth II President Lyndon Johnson President Charles de Gaulle whose visit to Expo and Montreal became infamous U S Senator Robert F Kennedy Jacqueline Kennedy Princess Grace of Monaco Princess Margaret Marshall McLuhan Sidney Poitier Laurence Olivier Cary Grant Twiggy and Pierre Trudeau *The Palgrave Handbook of Conflict and History Education in the Post-Cold War Era* Luigi Cajani,Simone Lässig,Maria Repoussi,2019-06-28 This Handbook provides a systematic and analytical approach to the various dimensions of international ethnic and domestic conflict over the uses of national history in education since the end of the Cold War With an upsurge in political social and cultural upheaval particularly since the fall of state socialism in Europe the importance of history textbooks and curricula as tools for influencing the outlooks of entire generations is thrown into sharp relief Using case studies from 58 countries this book explores how history education has had the potential to shape political allegiances and collective identities The contributors highlight the key issues over which conflict has emerged including the legacies of socialism and communism war dictatorships and genocide issues which frequently point to tensions between adhering to and challenging the idea of a cohesive national identity and historical narrative Global in scope the Handbook will appeal to a diverse academic audience including historians political scientists educationists psychologists sociologists and scholars working in the field of cultural and media studies *Memory, History, Nation* Susannah Radstone,2017-09-04 In the last decade a focus on memory in the human sciences has encouraged new approaches to the study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent This inter

disciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of what we call memory. The chapters in this volume offer a complex awareness of the workings of memory and the ways in which different or changing histories may be explained. They explore the relation between individual and social memory between real and imaginary event and fantasy history and myth. Contradictory accounts or memories in direct contradiction to the historical record are not always the sign of a repressive authority attempting to cover something up. The tension between memory as a safeguard against attempts to silence dissenting voices and memory's own implication in that silencing runs throughout the book. Topics covered range from the Basque country to Cambodia from Hungary to South Africa from the Finnish Civil War to the cult Jim Jarmusch movie *Dead Man* from the Rock and Roll Hall of Fame to Australia.

Part I Transforming Memory is concerned primarily with the social and personal transmission of memory across time and generations. Part II Remembering Suffering Trauma and History brings the after effects of catastrophe to the fore. Part III Patterning the National Past the relation between nation and memory is the central issue. Part IV And Then Silence reflects on the complex and multiple meaning of silence and oblivion wherein amnesia is often used as a figure for the denial of shameful.
