The History Of The Fijian Languages:

The History of the Fijian Languages Paul A. Geraghty, 1983 **The Fijian Language** Albert J. Schütz, 2019-03-31 This work is directed to those who want to learn more about the Fijian language. It is intended as a reference work treating in detail such topics as verb and noun classification, transitivity, the phonological hierarchy, orthography, specification, possession, subordination and the definite article among others. In addition, it is an attempt to fit these pieces together into a unified picture of the structure of the language.

Language Description, History and Development Jeff Siegel, John Lynch, Diana Eades, 2007-03-14 This volume in memory of Terry Crowley covers a wide range of languages: Australian, Oceanic, Pidgins and Creoles, and varieties of English. Part I: Linguistic Description and Typology includes chapters on topics such as complex predicates and verb serialization, noun incorporation, possessive classifiers, diphthongs, accent patterns, modals in Australian English, and directional terms in atoll-based languages. Part II: Historical Linguistics and Linguistic History ranges from the reconstruction of Australian languages to reflexes of Proto-Oceanic to the lexicon of early Melanesian Pidgin. Part III: Language Development and Linguistic Applications comprises studies of lexicography, language in education, and language endangerment and language revival spanning the Pacific from South Australia and New Zealand to Melanesia and on to Colombia. The volume will whet the appetite of anyone interested in the latest linguistic research in this richly multilingual part of the globe.

The World's Major Languages Bernard Comrie, 2018-04-17 The World's Major Languages features over 50 of the world's languages and language families. This revised edition includes updated bibliographies for each chapter and up-to-date census figures. The featured languages have been chosen based on the number of speakers, their role as official languages, and their cultural and historical importance. Each language is looked at in depth, and the chapters provide information on both grammatical features and on salient features of the language's history and cultural role. The World's Major Languages is an accessible and essential reference work for linguists.

The Early Prehistory of Fiji Geoffrey Richard Clark, Atholl Anderson, 2009-12-01 I enjoyed reading this volume. It is rare to see such a comprehensive report on hard data published these days, especially one so insightfully contextualised by the editors' introductory and concluding chapters. These scholars and the others involved in the work really know their stuff, and it shows. The editors connect the preoccupations of Pacific archaeologists with those of their colleagues working in other island regions, and on big questions of colonisation, migration, interaction, and patterns and processes of cultural change in hitherto uninhabited environments. These sorts of outward-looking big picture contextual studies are invaluable but all too often are missing from locally and regionally oriented writing, very much to its detriment. In sum, the work strongly advances our understanding of the early prehistory of Fiji through its well-integrated combination of original research and the reinterpretation of existing knowledge in the context of wider theoretical and historical concerns. In doing so, *The Early Prehistory of Fiji* makes a truly substantial contribution to Pacific and archaeological scholarship. Professor Ian Lilley, The

Dixon, 1988 The people who live in the Boumaa region of the Fijian island of Taveuni speak a dialect of Fijian that is mutually intelligible with Standard Fijian the two differing as much perhaps as do the American and British varieties of English During 1985 R M W Dixon one of the most insightful of linguists engaged in descriptive studies today lived in the village of Waitabu and studied the language spoken there He found in Boumaa Fijian a wealth of striking features unknown in commonly studied languages and on the basis of his fieldwork prepared this grammar Fijian is an agglutinating language one in which words are formed by the profligate combining of morphemes There are no case inflections and tense and aspect as shown by independent clitics or words within a predicate complex Most verbs come in both transitive and intransitive forms and nouns can be build up regularly from verbal parts and verbs from nouns The language is also marked by a highly developed pronoun system and by a vocabulary rich in areas of social significance In the opening chapters Dixon describes the Islands political social and linguistic organization outlines the main points of Fijian phonology and presents an overview of the grammar In succeeding chapters he examines a number of grammatical topics in greater detail including clause and phrase structure verbal syntax deictics and anaphora The volume also includes a full vocabulary of all forms treated in discussion and three of the fifteen texts recorded from monolingual village elders on which the grammar is based

and exposed its close relationship with the colonizers this has not yet happened in the specific region covered in this collection In translation studies the Pacific region is terra incognita The writers of this volume of essays reveal that in the Pacific as in all other once colonized parts of the world colonialism and translation went hand in hand The unsettling power of translation is described as it effected change for better or for worse While the Pacific Islanders encounter with the Europeans has previously been described as having a Fatal Impact the authors of these essays are further able to demonstrate that the Pacific Islanders were not only victims but also played an active role in the cross cultural events they were party to and in shaping their own destinies Examples of the role of translation in effecting change for better or for worse abound in the history of the nations of the Pacific These stories are told here in order to bring this region into the mainstream scholarly attention of postcolonial and translation studies
