The History Of The Working Class Movement In Hungary:

The History of the Working Class Movement in Hungary György Borsányi, János Kende, 1988 **Hungary 1956**

Revisited Ferenc Fehér, Agnes Heller, 2022-02-06 This book first published in 1983 is a radical reinterpretation of the Hungarian revolution in the context of world politics and Eastern Europe as a whole. It examines the events and protagonists with a fresh eye and relies on witnesses and participants for the rigorous documentary backing. **History and Theories of Working-Class Movements** Roy A. Ockert, 1955 *Fabricating Authenticity in Soviet Hungary* Péter Apor, 2015-03-01 This book explores the memory of the First Hungarian Soviet Republic of 1919 which proved crucial for communist Hungarian political culture in the twentieth century. Apor approaches the topic in an innovative way focusing on the understudied aspects of European memory cultures. Offering great insights on how a dictatorship remembers and the concept of authenticity, Apor's study integrates the broad range of processes through which history is sought to be rendered authentic. The volume successfully reveals the crooked history of the retrospective revisions of the iconic First Republic between the years of its 30th and 40th anniversary, 1949 and 1959. *The Formation of Labour Movements, 1870-1914* Marcel van der Linden, Jürgen Rojahn, 1990 The twenty-seven articles presented in this volume mark the first stage of an international research project set up after the comprehensive reorganization of the International Institute of Social History in 1987. The aim of this extensive book project is to study the development of working class movements using comparative research in an international framework in the time period 1870-1914. Included in this study are papers by experts on as many countries both European and non-European as possible with a modern labour movement: Britain, Belgium, The Netherlands, Sweden, Norway, Denmark, France, Italy, Spain, Germany, Switzerland, Austria, The Czech Workers Movement in the Habsburg Empire, Hungary, Rumania, Bulgaria, Serbia, Greece, The Jewish Workers Movement in the Russian Empire, Poland, Finland, United States of America, Australia, New Zealand, South Africa, Argentina, and Japan. *Historical Knowledge Production Cultures in Late Socialist Hungary and Croatia* Réka Krizmanics, 2024-01-08 *Historical Knowledge Production Cultures in Late Socialist Hungary and Croatia* Expertise Unsettled offers a comparative study and analysis from the Hungarian case and integrating academic party and popular historiography into a single analytical framework. Narratives concerning the history of the interwar period and the Second World War and circumstances of their elaboration are at the forefront of this study. Réka Krizmanics argues that even within state socialist Eastern Europe, different enabling and restrictive factors were at play and investigates the specificities of late socialism while embedding them in the context of their interwar Stalinist and post-Stalinist legacies. Expertise Unsettled refers to the growing peril of historians who proved to be often divided among themselves and were increasingly on the defense as a guild when literature, cinema, and interested non-professionals got involved in making and criticizing narratives of the recent past. Party history and party historians have been often sidelined in intellectual history, but the author argues that their inclusion is crucial both for a more complex understanding of what late

state socialism meant for historians and to historicize practices of contemporary post socialist especially illiberal memory regimes

The Long 1968 in Hungary and Romania Adrian-George Matus, 2023-12-31 This book advances a local regional and comparative analysis of the history of the sixty eighters from Hungary and Romania between 1956 and 1975 The aim of the book is to answer to the following research question to what extent does the long 1968 mark and change protest history Another axis of my research equally important is how can one genuinely distinguish between a protest an opposition and a pastime Where did radicalisation truly begin and when was it solely an auto perception as a dissident In other words how can one truly distinguish between a leisure activity like listening to Radio Free Europe or exploring an altered state of consciousness and an explicit political activity like organising a protest or writing subversive texts Among other aims the books s scope is to understand where a leisure activity ends and a protest starts By practicing counterculture did the youth wish to contest the system or simply express themselves As method oral history plays a crucial part On a superficial level the interviews helped to fill in the archival gap However oral testimonies proved to reveal much more than essential factual information Oral history clarified how political and social events influenced the subjects memory formation

Liberty and Socialism János M. Bak, András Bozóki, Miklós Sükösd, 1991 The writings in this volume reveal to English readers a powerful current of thought in Hungary through World War I illustrating both the diversity of thought in Central Europe and the kinship between eastern and western concern The contributions discuss the values of socialist transformation in a quickly industrializing but still heavily agrarian conservative society The contributors apply the ideas of western anarchism of syndicalism of unorthodox Marxism Tolstoyan socialism and different non Marxist socialist theories to the realities of Hungary In addition to their contemporary impact these thinkers influenced such important later figures of international theory and practice as George Lukacs Karl Mannheim Oscar Jaszi and a great number of Bolshevik politicians influential in the shaping of Communist governments in the 1920s

Socialism and Social Science (Routledge Revivals) György Litván, János Bak, 2012-11-12 The essays and letters of Ervin Szab 1877 1918 present proof of his critical insight into Marxist theory and of his perceptive analysis of socialism around the turn of the century His ideals of an engaged social science and an enlightened socialism his preoccupation with the socialist future are still relevant today The writings selected in this work first published in 1982 are primarily those which address themselves to general issues of the European working class movement and socialist theory but there are also a few pieces that characterize the intellectual and political climate of early twentieth century Budapest Szab was one of the theoretical leaders of a whole generation of progressive thinkers from Oscar J szi through Karl and Michael Pol nyi to Georg Luk cs and many others The almost insurmountable conflict between theory and practice that characterized Ervin Szabo s life remains a problem that has to be solved by engaged intellectuals whatever the time and place Background notes and an introduction by the editors help to place the writings in their historical and

political context *Socialism and Social Science* György Litván, János Bak, 2011-07-25 The writings by Ervin Szab selected in this work first published in 1982 are primarily those which address themselves to general issues of the European working class movement and socialist theory presenting proof of his critical insight into Marxist theory and of his perceptive analysis of socialism around the turn of the century **The International Trade-union Movement**, 1923 **Movement of the**

Development of Class Structure in Eastern Europe Aleksander Gella,1989-01-01 Emphasizing the development of class structure this book is the first in English to describe the historical and social development of Poland Czechoslovakia Hungary and Romania from medieval feudalism to modern capitalism Historically these countries have maintained mostly peaceful relations among themselves in the past and now share the common characteristic of being Soviet satellites The author has devoted particular attention to Poland because of its unique political system as well as its greater size population and cultural influence The book is divided into three sections part one reviews the early history and social structure of each country part two provides a sociological analysis of social classes and their evolution over centuries and part three examines the effect that World War II has had on these social classes Poland's Return to Capitalism Gavin Rae,2007-11-28 PLEASE NOTE THIS IS AN NJR AND BLURB SHOULD NOT BE USED IN ITS RAW FORM This book considers the social economic and political consequences of Poland s transition from socialism to capitalism The immense changes that have occurred in the country over the past decade and a half are analysed in their historical and geo political framework Poland was the first Eastern European country to return to capitalism with its shock therapy economic reforms replicated throughout the region These sought to dismantle the socialist elements of the economy as rapidly as possible and open up the post socialist countries to the world capitalist market The former socialist countries were absorbed into the international division of labour and their economies quickly became a part of and dependent upon the global capitalist system The revolutions of 1989 91 not only transformed Eastern Europe but instigated fundamental changes to the international capitalist system itself By opening up the ex socialist economies to international capital a new era of globalisation was opened as the principles and practices of neo liberalism gained ascendancy While a section of society prospered from this opening other social groups saw their living standards decline creating large social inequalities One consequence of these social divisions has been the destabilising of the newly created democratic political systems The growth of more authoritarian conservative political currents in Poland is an example of this As the largest and most strategically important country in Central Eastern Europe Poland has increasingly become a focus of international relations between the major powers Events in Poland especially after European expansion influence relations between the USA the European Union and Russia This book therefore looks both at how the absorption of Poland into the international capitalist system has transformed the country and at how this process is contributing to developments globally It finishes by considering developments since EU Accession and at the expected results of this expansion both within Poland and an enlarged EU The New York Times Current History ,1920 **Karl Kautsky, 1854-1938** Gary P. Steenson,2020-03-16 The first major study of Karl Kautsky considered the most influential Marxian

theoretician in the world from 1895 to 1914 Outside of Friedrich Engels Kautsky did more to popularize Marxism than any other person An entire generation of Marxists including Lenin and Trotsky learned the doctrine in large part from Kautsky
