David Damrosch, 2003 World literature was long defined in North America as an established canon of European masterpieces but an emerging global perspective has challenged both this European focus and the very category of the masterpiece The first book to look broadly at the contemporary scope and purposes of world literature What Is World Literature probes the uses and abuses of world literature in a rapidly changing world In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction David Damrosch looks at the ways works change as they move from national to global contexts Presenting world literature not as a canon of texts but as a mode of circulation and of reading Damrosch argues that world literature is work that gains in translation When it is effectively presented a work of world literature moves into an elliptical space created between the source and receiving cultures shaped by both but circumscribed by neither alone Established classics and new discoveries alike participate in this mode of circulation but they can be seriously mishandled in the process From the rediscovered Epic of Gilgamesh in the nineteenth century to Rigoberta Mench's writing today foreign works have often been distorted by the immediate needs of their own editors and translators Eloquently written argued largely by example and replete with insightful close readings this book is both an essay in definition and a series of The Idea of World Literature John Pizer, 2006-04-15 Johann Wolfgang von Goethe introduced the concept cautionary tales of Weltliteratur in 1827 to describe the growing availability of texts from other nations Although the term World Literature is widely used today there is little agreement on what it means and even less awareness of its evolution In this wide ranging work John Pizer traces the concept of Weltliteratur in Germany beginning with Goethe and continuing through Heinrich Heine Karl Marx and Friedrich Engels to the present as he explores its importation into the United States in the 1830s and the teaching of World Literature in U S classrooms since the early twentieth century Pizer demonstrates the concept s ongoing viability through an in depth reading of the contemporary Syrian German transnational novelist Rafik Schami He also provides a clear methodology for World Literature courses in the twenty first century Pizer argues persuasively that Weltliteratur can provide cohesion to the study of World Literature today In his view traditional World Lit classes are limited by their focus on the universal elements of literature A course based on Weltliteratur however promotes a more thorough understanding of literature as a dialectic between the universal and the particular In a practical guide to teaching World Literature by employing Goethe's paradigm he explains how to help students navigate between the extremes of homogenization on the one hand and exoticism on the other learning both what cultures share and what distinguishes them Everyone who teaches World Literature will want to read this stimulating book In addition anyone interested in the

Bulgarian Literature as World Literature Mihaela P. Harper, Dimitar Kambourov, 2020-11-12 Bulgarian Literature as World Literature examines key aspects and manifestations of 20th and 21st century Bulgarian literature by way of the global literary landscape The first volume to bring together in English the perspectives of prominent writers translators and scholars of Bulgarian literature and culture this long overdue collection identifies correlations between national and world aesthetic ideologies and literary traditions It situates Bulgarian literature within an array of contexts and foregrounds a complex interplay of changing internal and external forces These forces shaped not only the first collaborative efforts at the turn of the 20th century to insert Bulgarian literature into the world's literary repository but also the work of contemporary Bulgarian diaspora authors Mapping histories geographies economies and genetics the contributors assess the magnitudes and directions of such forces in order to articulate how a distinctly national minor literature produced for internal use and nearly invisible globally until the last decade transforms into world literature today The Cambridge Companion to the City in World Literature Ato Quayson, Jini Kim Watson, 2023-07-27 This book addresses the way cities have given rise to key aesthetic dispositions that are central to debates in World Literature Tensions in World Literature Weigui Fang, 2018-09-28 This collection gives a diversified account of world literature examining not only the rise of the concept but also problems such as the relation between the local and the universal and the tensions between national culture and global ethics In this context it focuses on the complex relationship between Chinese literature and world literature not only in the sense of providing an exemplary case study but also as an introspection and re location of Chinese literature itself The book activates the concept of world literature at a time when it is facing the rising modern day challenges of race class and culture

Polish Literature as World Literature Piotr Florczyk, K. A. Wisniewski, 2022-12-15 This carefully curated collection consists of 16 chapters by leading Polish and world literature scholars from the United States Canada Italy and of course Poland An historical approach gives readers a panoramic view of Polish authors and their explicit or implicit contributions to world literature Indeed the volume shows how Polish authors from Jan Kochanowski in the 16th century to the 2018 Nobel laureate Olga Tokarczuk have engaged with their foreign counterparts and other traditions active participants in the global

literary network and the conversations of their day The volume features views of Polish literature and culture within theories of world literature and literary systems with a particular attention paid to the resurgence of the idea of the physical book as a cultural artifact This perspective is especially important since so much of today s global literary output stems from Anglophone perceptions of what constitutes literary quality and tastes The collection also sheds light on specific issues pertaining to Poland such as the idea of Polishness and global phenomena including social and economic advancement as well as ecological degradation Some of the authors discussed like the Romantic poet Adam Mickiewicz or the 1980 Nobel laureate Czeslaw Milosz were renowned far beyond the borders of their country while others like the contemporary travel writer and novelist Andrzej Stasiuk embrace regionalism seeing as they do in their immediate surroundings a synecdoche of the world at large Nevertheless the picture of Polish literature and Polish authors that emerges from these articles is that of a diverse cosmopolitan cohort engaged in a mutually rewarding relationship with what the late French critic Pascale Casanova has called the world republic of letters World Literature for the Wretched of the Earth J. Daniel Elam, 2020-12-01 World Literature for the Wretched of the Earth recovers a genealogy of anticolonial thought that advocated collective inexpertise unknowing and unrecognizability Early twentieth century anticolonial thinkers endeavored to imagine a world emancipated from colonial rule but it was a world they knew they would likely not live to see Written in exile in abjection or in the face of death anticolonial thought could not afford to base its politics on the hope of eventual success mastery or national sovereignty I Daniel Elam shows how anticolonial thinkers theorized inconsequential practices of egalitarianism in the service of an impossibility a world without colonialism Framed by a suggestive reading of the surprising affinities between Frantz Fanon's political writings and Erich Auerbach's philological project World Literature for the Wretched of the Earth foregrounds anticolonial theories of reading and critique in the writing of Lala Har Dayal B R Ambedkar M K Gandhi and Bhagat Singh These anticolonial activists theorized reading not as a way to cultivate mastery and expertise but as a way rather to disavow mastery altogether To become or remain an inexpert reader divesting oneself of authorial claims was to fundamentally challenge the logic of the British Empire and European fascism which prized self mastery authority and national sovereignty Bringing together the histories of comparative literature and anticolonial thought Elam demonstrates how these early twentieth century theories of reading force us to reconsider the commitments of **The History of World Literature Course** humanistic critique and egalitarian politics in the still colonial present Guidebook Grant L. Voth, 2007 In this course you ll sample some of the greatest literary expressions the world has known and experience storytelling in its many forms including poetry drama narrative
