Captive Market Anna Gunderson, 2022 A novel explanation for state prison privatization that they do so to limit legal and political accountability for inmate lawsuits One of the most controversial developments in the American criminal justice in the last few decades has been the development of the modern private prison industry While there are many explanations proffered for the adoption of this policy including partisanship economic stress unionization and lobbying efforts by private prison firms none fully explain why states privatize their prisons In *Captive Market* Anna Gunderson proposes a novel explanation for why states adopt this policy She shows that states privatize prisons to limit legal and political accountability for inmate lawsuits an unintended consequence of the legal rights revolution for prisoners Evidence from an original dataset and interviews with private prison companies government officials and advocacy groups suggest that growing prisoner lawsuits are a significant driver of prison privatization in the United States With over 160 000 inmates currently held in private facilities across the country it is vital to understand the causes of this rise and the nuances of private prison policy one with significant consequences for the American criminal legal system An eye opening account of an industry that many are aware of but few know much about this book will reshape our understanding of the fundamental nature of the American carceral state

Politics in Captivity Lena Zuckerman, 2024-07-02 From the 1811 German Coast Slave Rebellion to the 1971 Attica Prison Uprising from the truancy of enslaved women to the extreme self discipline exercised by prisoners in solitary confinement Black Americans have through time resisted racial regimes in extraordinary and everyday ways Though these acts of large and small scale resistance to slavery and incarceration are radical and transformative they have often gone unnoticed This book is about Black rebellion in captivity and the ways that many of the conventional well worn constructs of academic political theory render its political dimensions obscure and indiscernible While Hannah Arendt is an unlikely theorist to figure prominently in any discussion of Black politics her concepts of world and worldlessness offer an indispensable framework for articulating a theory of resistance to chattel and carceral captivity Politics in Captivity begins by taking seriously the ways in which slavery and incarceration share important commonalities including historical continuity In Zuckerman's account of this commonality the point of connection between enslaved and incarcerated people is not exploited labor but rather resistance The relations between the rebellions of both groups appear in the writings of Muhammed Ahmad Angela Davis George Jackson Ruchell Magee and Assata Shakur a genre Zuckerman calls Black carceral political thought The insights of these thinkers and activists figure into Zuckerman's analyses of large scale uprisings and quotidian practices of resistance which she conceives as acts of world building against conditions of forced worldlessness In a moment when a collective racial reckoning is underway when Critical Race Theory is a target of the Right when prison abolition has become more prominent in mainstream political discourse it is now more important than ever to look to historical and contemporary practices of resistance to white domination

Changing the Guard Alexander Tabarrok,2002-10-01 Changing the Guard is an authoritative survey of one of the most controversial aspects of criminal justice and corrections the growing use of private prisons When prison privatization began in the United States in the early 1980s many policy analysts claimed it would increase costs decrease quality and erode state authority Has it Changing the Guard brings together leading criminal justice researchers to tackle this and related questions Does prison privatization make economic sense What are the prospects for enlarging prison privatization Changing the Guard also examines the broader questions that surround the prison privatization debate What are the historical precedents for prison privatization What do we know about punishment and recidivism How long must a prison sentence be to deter crime Are too many people in prison or too few Should legal reform take precedence over prison reform to ensure that privatization does not simply make the criminal justice system more efficient at abusing civil liberties and executing legal injustices

the western world The book s arguments are steeped in a practical and practicable theory that advances public interest as a viable and important measure in any analysis of policy or public administration According to Bozeman public interest theory offers a dynamic and flexible approach that easily adapts to changing situations and balances today s market driven attitudes with the concepts of common good advocated by Aristotle Saint Thomas Aquinas John Locke and John Dewey In constructing the case for adopting a new governmental paradigm based on what he terms managing publicness Bozeman demonstrates why economic indices alone fail to adequately value social choice in many cases He explores the implications of privatization of a wide array of governmental services among them Social Security defense prisons and water supplies Bozeman constructs analyses from both perspectives in an extended study of genetically modified crops to compare the policy outcomes using different core values and questions the public value of engaging in the practice solely for the sake of cheaper food Thoughtful challenging and timely *Public Values and Public Interest* shows how the quest for fairness can once again play a full part in public policy debates and public administration
