*The Hittite State Cult of the Tutelary Deities* John Gregory McMahon, 1991 The author discusses tutelary deities who play a rather prominent role in the Hittite state cult ceremonies The book includes critical editions and discussions of all the festival texts that describe festivals devoted primarily or exclusively to tutelary deities One of these festivals involves a kind of theological exercise in naming all of the possible tutelary deities and another involves the replacing of an old cult image with a new one In addition to the festivals for tutelary deities their role in the cult in general is discussed in a comprehensive chapter

*The Splintered Divine* Spencer L. Allen, 2015-03-05 This book investigates the issue of the singularity versus the multiplicity of ancient Near Eastern deities who are known by a common first name but differentiated by their last names or geographic epithets It focuses primarily on the I tar divine names in Mesopotamia Baal names in the Levant and Yahweh names in Israel and it is structured around four key questions How did the ancients define what it meant to be a god or more pragmatically what kind of treatment did a personality or object need to receive in order to be considered a god by the ancients Upon what bases and according to which texts do modern scholars determine when a personality or object is a god in an ancient culture In what ways are deities with both first and last names treated the same and differently from deities with only first names Under what circumstances are deities with common first names and different last names recognizable as distinct independent deities and under what circumstances are they merely local manifestations of an overarching deity The conclusions drawn about the singularity of local manifestations versus the multiplicity of independent deities are specific to each individual first name examined in accordance with the data and texts available for each divine first name
