Lloyd,2013-01-03 Thomas Hobbes 1588 1679 is widely held to be one of the most important thinkers in the history of philosophy His contributions to ethics political philosophy and psychology in particular were hugely innovative and he was regarded by his contemporaries as a major intellectual figure This comprehensive and accessible guide to Hobbes s life and work features 120 specially commissioned entries written by a team of leading experts in the field of seventeenth century philosophy and political thought covering every aspect of Hobbes s ideas The Companion presents a comprehensive overview of the major themes and topics in Hobbes s work in particular within the fields of language political philosophy moral philosophy and psychology religion law and science It concludes with a thoroughly comprehensive bibliography of primary and secondary sources This is an essential reference tool for anyone working in the fields of seventeenth century philosophy and political theory      Hobbes: A Guide for the Perplexed Stephen J. Finn,2010-07-15 Continuum s Guides for the Perplexed are clear concise and accessible introductions to thinkers writers and subjects that students and readers can find especially challenging Concentrating specifically on what it is that makes the subject difficult to fathom these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material Thomas Hobbes is one of the foremost British philosophers his Leviathan stands as one of the most important single works in the history of political philosophy and any student of philosophy will be required to develop a thorough knowledge and understanding of Hobbes Hobbes A Guide for the Perplexed is the ideal resource for any student wishing to really engage with and develop a sound understanding of the work of this major philosopher The text systematically covers all those areas of philosophy where Hobbes is a key player metaphysics epistemology moral philosophy political philosophy the philosophy of religion It explores Hobbes s philosophical method in depth and offers a valuable account of the historical background to Hobbes s thought Most valuably for the student reader this book actively promotes philosophical inquiry and interpretation In setting out the different interpretations of Hobbes the text requires the reader to evaluate their respective merits on the basis of the evidence provided Hobbes A Guide for the Perplexed then is both a philosophically rigorous introduction to Hobbes and an excellent primer in philosophical method inquiry and debate

**Hobbesian Applied Ethics and Public Policy** Shane D. Courtland,2017-07-20 Most philosophers and political scientists readily admit that Thomas Hobbes is a significant figure in the history of political thought His theory was arguably one of the first to provide a justification for political legitimacy from the perspective of each individual subject Many excellent books and articles have examined the justification and structure of Hobbes commonwealth ethical system and interpretation of Christianity What is troubling is that the Hobbesian project has been largely missing in the applied ethics and public policy literature We often find applications of Kantian deontology Bentham s or Mill s utilitarianism Rawls s contractualism the ethics of care and various iterations of virtue ethics Hobbesian accounts are routinely ignored and often derided This is unfortunate because Hobbes s project offers a unique perspective To ignore it when such a perspective would be fruitful to apply to another set of theoretical questions is a problem in need of a remedy This volume seeks to eliminate or at the very least partially fill this gap in the literature Not only will this volume appeal to those that are generally familiar with Hobbesian scholarship it will also appeal to a variety of readers that are largely unfamiliar with Hobbes      [The Oxford Handbook of Hobbes](#) Aloysius Martinich,Kinch Hoekstra,2016 The Oxford Handbook of Hobbes collects twenty six newly commissioned original chapters on the philosophy of the English thinker Thomas Hobbes 1588 1679 The chapters included in this Oxford Handbook cover the full range of Hobbes s thought his philosophy of logic and language his view of physics and scientific method his ethics political philosophy and philosophy of law and his views of religion history and literature

**Homer's Odysseys. Translated by Tho. Hobbes of Malmsbury. With a Large Preface Concerning the Vertues of an Heroique Poem. Written by the Translator** Homer,1675      *Thomas Hobbes and the Natural Law* Kody W.

Cooper,2018-03-30 Has Hobbesian moral and political theory been fundamentally misinterpreted by most of his readers Since the criticism of John Bramhall Hobbes has generally been regarded as advancing a moral and political theory that is antithetical to classical natural law theory Kody W Cooper challenges this traditional interpretation of Hobbes in *Thomas Hobbes and the Natural Law* Hobbes affirms two essential theses of classical natural law theory the capacity of practical reason to grasp intelligible goods or reasons for action and the legally binding character of the practical requirements essential to the pursuit of human flourishing Hobbes s novel contribution lies principally in his formulation of a thin theory of the good This book seeks to prove that Hobbes has more in common with the Aristotelian Thomistic tradition of natural law philosophy than has been recognized According to Cooper Hobbes affirms a realistic philosophy as well as biblical revelation as the ground of his philosophical theological anthropology and his moral and civil science In addition Cooper contends that Hobbes s thought although transformative in important ways also has important structural continuities with the Aristotelian Thomistic tradition of practical reason theology social ontology and law What emerges from this study is a nuanced assessment of Hobbes s place in the natural law tradition as a formulator of natural law liberalism This book will appeal to political theorists and philosophers and be of particular interest to Hobbes scholars and natural law theorists      Liberty

Chana B. Cox,2006-01-01 *Liberty God s Gift to Humanity* is a defense of liberalism the political philosophy which holds that governments should be established for the protection of individual liberty By means of revisiting the thinking of the men who created liberal theory over the past three centuries author Chana Cox has demonstrated that historically the bond between liberalism and religion has been strong and that liberals have embraced virtue encouraged social control and increased the common good
