wide variety of training options and theories out there Now in his usual straightforward confident manner Cesar takes on the topic of training for the first time by explaining the importance of balance as the foundation for a healthy relationship between you and your dog He calls upon some of the foremost experts in the field so that you can find the perfect approach that works for you and your dog Filled with practical advice anecdotes tips and trouble shooting techniques from Cesar and his colleagues this is the ultimate guide to a well behaved and well balanced dog from a new puppy to an old dog who can still learn new tricks
