The Horse Of Selene:

The Horse of Selene Juanita Casey,1972 **The Horse of Selene** Casey Douglas,1971 *Casting the Parthenon Sculptures from the Eighteenth Century to the Digital Age* Emma M. Payne,2021-04-08 Through the 19th century as archaeology started to emerge as a systematic discipline plaster casting became a widely adopted technique newly applied by archaeologists to document and transmit discoveries from their expeditions The Parthenon sculptures were some of the first to be cast In the late 18th century and the first years of the 19th century the French artist Fauvel and Lord Elgin s men conducted campaigns on the Athenian Acropolis Both created casts of parts of the Parthenon sculptures that they did not remove and these were sent back to France and Britain where they were esteemed and displayed alongside other original sections Henceforth casting was established as an essential archaeological tool and grew exponentially over the course of the century Such casts are now not only fascinating historical objects but may also be considered time capsules capturing the details of important ancient works when they were first moulded in centuries past This book examines the role of 19th century casts as an archaeological resource and explores how their materiality and spread impacted the reception of the Parthenon sculptures and other Greek and Roman works Investigation of their historical context is combined with analysis of new digital models of the Parthenon sculptures and their casts Sensitive 3D imaging techniques allow investigation of the surface markings of the objects in exceptionally fine detail and enable quantitative comparative studies comparing the originals and the casts The 19th century casts are found to be even more accurate but also complex than anticipated through careful study of their multiple layers we can retrieve surface information now lost from the originals through weathering and vandalism *The Horses of St. Mark's* Charles Freeman,2010-08-12 The noted historian explores the mysterious origins and surprising adventures of four iconic bronze statues as they appear and reappear through the ages In July 1798 a triumphant procession made its way through the streets of Paris Echoing the parades of Roman emperors many years before Napoleon Bonaparte was proudly displaying the spoils of his recent military adventures There were animals caged lions and dromedaries as well as tropical plants Among the works of art on show one stood out four horses of gilded metal taken by Napoleon from their home in Venice The Horses of St Mark s have found themselves at the heart of European history time and time again in Constantinople at both its founding and sacking in the Fourth Crusade in Venice at both the height of its greatness and fall in 1797 in the Paris of Napoleon and the revolutions of 1848 and back in Venice the most romantic city in the world Charles Freeman offers a fascinating account of both the statues themselves and the societies through which they have travelled and been displayed As European society has developed from antiquity to the present day these four horses have stood and watched impassively This is the story of their and our times *The Journal of Hellenic Studies* ,1888 *The Origin and Influence of the Thoroughbred Horse* William Ridgeway,1905 *The Horse in History* Basil Tozer,1908 **The Origin and Influenfe of the Thoroughbred Horse** William Ridgeway, **The horse in history** Basil Tozer,2020-02-23
