The Hour Between Dog and Wolf David M. Graham,1980 *The Hour Between Dog and Wolf: Risk Taking, Gut Feelings and the Biology of Boom and Bust* John Coates,2013 *The Emergence of Sin* Matthew Croasmun,2017-06-01 We can have a sense that when we try to do right by one another we aren t merely striving against ourselves The feeling is that we are struggling against something someone else As if there s a force a person that wishes us ill In his letter to the Romans the apostle Paul describes just such a person Sin a cosmic tyrant who constrains our moral freedom confuses our moral judgment and condemns us to slavery and to death Commentators have long argued about whether Paul literally means to say Sin is a person or is simply indulging in literary personification but regardless of Paul s intentions for modern readers it would seem clear enough there is no such thing as a cosmic tyrant Surely it is more reasonable to suppose Sin is merely a colorful way of describing individual misdeeds or at most a way of evoking the intractability of our social ills In *The Emergence of Sin* Matthew Croasmun suggests we take another look The vision of Sin he offers is at once scientific and theological social and individual corporeal and mythological He argues both that the cosmic power Sin is nothing more than an emergent feature of a vast human network of transgression and that this power is nevertheless real personal and one whom we had better be ready to resist Ultimately what is on offer here is an account of the world re mythologized at the hands of chemists evolutionary biologists sociologists and entomologists In this world Paul s text is not a relic of a forgotten mythical past but a field manual for modern living

embodied leadership is derived from somatic coaching a unique approach that brings the body forward as an advocate in creating a place for change and transformation It brings together language action feeling and meaning and is based on the idea that the mind and body are inextricably linked to develop one you must cultivate the other Embodied Leadership deconstructs our thinking about the body using key discoveries in neuroscience to demonstrate the uses and benefits of a somatic approach particularity in the area of emotional intelligence There are practical exercises throughout to develop embodied leadership skills and personal development The Hour Between Dog and Wolf Professor John Coates,2012-06-07 In this time of financial crisis a resonant and singular exploration of economic behaviour and its ramifications *The Unspeakable Mother* Deborah Kelly Kloepfer,2018-10-18 Moving back and forth between experience and language The Unspeakable Mother operates out of the intersection of two perspectives women s immersion in the mother daughter dyad and the paradoxical absence of the mother in the daughter s discourse Deborah Kelly Kloepfer calls attention to the repeated allusions to dead mothers dying mothers mad mothers stepmothers abortions stillbirths miscarriages and infant death in the novels of Jean Rhys and the poems and prose of H D Drawing on American and French feminist theory she suggests that Rhys H D and other modernist women writers rather than just characterizing women s experience are encoding the mother in relation to language The dead mother is a trope for textlessness a trope that also serves to inscribe the repression of the female speaking writing subject Challenging a number of assumptions of critical discourse in which the father traditionally functions as the guardian of the symbolic Kloepfer shows how thematic violence toward the female body is accompanied by the rupturing of conventional language an act that both reconstitutes the abandoned mother and turns the violence against the androcentric discourse that has denied her In the work of both Rhys and H D Kloepfer uncovers a startling and unsettling incestuous language between mother and daughter which relies not only on the unspoken but on the unspeakable Anyone interested in literary modernism will find *The Unspeakable Mother* fascinating reading as will students and scholars in the fields of psychoanalytic criticism and feminist theory Crapitalism Michael Faust,2016-03-30 Even more than an economic system capitalism is a psychological instrument for manipulating and exploiting gullible credulous suggestible human beings It s about working out what makes you tick in order to sell you more stuff Capitalism s task isn t to make you a perfect person but merely a perfect consumer Capitalism is purely about enriching those with capital It s about the Profit Principle Not only is it strictly amoral it turns out to be an ideal vehicle for empowering psychopaths Capitalism is a psychological experiment conducted economically Those conducting the experiment are the super rich elite committed to dynastic rule of the world via free market globalism John Maynard Keynes said Capitalism is the extraordinary belief that the nastiest of men for the nastiest of motives will somehow work for the benefit of all That s capitalism in a nutshell You need to be mad to believe that capitalism will have a good outcome for the human race **Stormbringer III: Ravens Rising** Kerry Greenwood,2012-09-01 After bringing down the Lightning Nest the heroes of THE RAT AND THE RAVEN have returned to the University only to find
