and extreme good nature made her far more attractive than most pale English beauties. She was loved by everyone who knew her.

The portrait of Andrew in his robes of Chancellor of the University of Manchester by Theo Ramon is very like him. I was painted by Ansgore in 1944. He demanded many sittings, and I went to his studio in Edwardes Square every day for a month. He had done some striking portraits of dark beauties like Mary Anna Marten and Maria de Fortians, and I realised that my colour was not his favourite. I said, 'I'm sorry about my face. I know it's not the kind you like.' He made an Italian gesture of resignation and said, 'Oh, well, it doesn't matter. It's not your fault.'

The Storch Galleries have got some respectable furniture and tapestries, but their glory is the blue and white Delft china of the First Duke, tulip vases in profusion along the floor and shelves.

The British Country House Revival Ben Cowell, 2024 British country houses have experienced a renaissance since the early 1970s A new accord is needed today recognising the increasingly contested contribution of country houses to British cultural life Fifty years ago the future for country houses in Britain looked bleak The Victoria Albert Museum's exhibition The Destruction of the Country House which opened in October 1974 charted the loss of over a thousand country houses in the preceding century The makers of the exhibition warned that history could be about to repeat itself because of the threats besetting mansion properties principally from higher taxation Houses faced the prospect of having to be stripped of their collections and sold for use as offices hotels or hospitals with their parks and gardens turned into golf clubs Government might afford to save just a handful of the most significant of these places working in tandem with charities such as the National Trust The rest would be consigned to history This book traces the history of country houses in

Britain from the Destruction exhibition to the present day The wave of country house losses anticipated in 1974 never actually happened Instead over the next five decades Britain's country houses experienced a renaissance Fiscal rules changed in the mid 1970s to make it easier for owners to hold on to their assets Economic improvements in the 1980s and 1990s allowed many houses and estates to develop profitable commercial businesses All of this was achieved only after dedicated campaigning from heritage organisations in support of the country house cause The book argues that a new accord is needed today to recognise and value the ongoing if increasingly contested contribution of country houses to British life and culture in the twenty first century

meticulous care and frequently used for intellectual pursuits For those who love books and the libraries in which they are collected and stored The Country House Library is an essential volume to own **Collections in Early Modern Era**
